Ottawa, August 22, 1942.

Dear Sir:

I have for acknowledgment your letter of the 17th instant and also requisition for certain furnishings for the teacher's residence at the Montreal Lake Indian Day School, attached thereto.

This requisition is being sent forward to the Purchasing Division and no doubt the furnishings requested will be delivered at an early date.

In this connection I feel that it is only fair to you to state that the Department has recently been subjected to criticism for the policy adopted in respect to the furnishing of teachers' residences in your district. This criticism has come to us from a representative of the Anglican Church, who informed us that it has been your policy, until recently, not to furnish teachers' residences in the agency. Quite recently, however, you requested furnishings for the Big River R.C. school. These furnishings, I notice, were authorized in a letter dated July 13, 1942. This critic seemed to resent very bitterly what he referred to as unfair discrimination or favoritism in the district. You can readily imagine how difficult it is for the Department to meet criticism of this kind. The officials are of the opinion, therefore, that the whole policy of furnishing teachers' residences in your agency should be carefully reviewed and that the greatest possible care should be exercised in sending forward requisitions for supplies or furnishings. This man, who had a lengthy interview with the Director, seemed to be fully informed on every item of the furnishings supplied at the Big River school, the man employed in the construction of the building and the general policy of the Department in that section of Saskatchewan. The Director finally suggested to him that his complaints should be outlined in writing and forwarded to the Department. He was assured that if he did this the complaints would be very carefully reviewed by the officials of this Branch.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

With reference to your letter I07-6-8 and 392-I-6 dated August 22nd, regarding the policy of furnishing teachers residence on this Agency.

I must refer you to your letter of July 3rd. I942, in which you requested that I forward a requisition for the necessary furniture for the Roman Catholic Teacherage at Big River Reserve. In this letter you also informed me that the Sisters of Providence were taking charge, and I consider that I am not to blame if any discrimination has taken place, as I only followed your instructions.

I have always tried to be fair, and as we have two schools on this Reserve , I have been careful to treat each alike, I have only changed this policy when requested to do so.

I would recommend that when a teacher is appointed for the Church of England school. the teacherage be furnished exactly the same as the Roman Catholic teacherage, and then refuse to furnish any more teacherages. If this is not done, I am afraid more criticim will result.

R. S. Davis

Re: Furnishing of Teachers' Residences.

Dear Sir:

I have for acknowledgment your letter of the 7th instant and note with interest the information supplied therein.

May I point out that the criticism to which I referred on August 22nd was not directed against the Department for supplying furnishings to the R. C. School on the Big River Reserve. The Government, in my experience, is seldom, if ever, criticised for the expenditure of money. The criticism was directed against us for what was alleged to be discrimination on your part, not for furnishing the teacher's residence at the Big River R. C. School, but for your refusal from time to time to purchase furniture for teachers' residences operated by other churches. It was alleged also that in the employment of men certain favours were shown. However, the critic promised to submit the whole matter to the Director in writing, and I do not know that any good purpose can be served by an interchange of correspondence on the subject at this time.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Regina, July 21st, 1945.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

When visiting the Montreal Lake Indian Day School recently Reverend G.J. Waite, the teacher, brought to my attention the condition of the teacher's residence. This residence was built in 1938 and reported at that time by Dr. Robertson, then Inspector of Indian Agencies, as satisfactory. Since that time different attempts have been made to improve it but always by starting the wrong way.

Bad judgment was used in selecting the site in the first place. The classroom building is built on fairly high ground and at a good location. The residence was built at a distance of about 300 yds. from the classroom building for some reason which I am unable to explain. Where the classroom building is situated the ground is sufficiently high and well drained that a basement could have been placed beneath the building and a pipeless furnace would have made it quite warm. Instead of this the residence was erected on low-lying ground where there is water 18" below the surface. Some attempt was made to excavate a small cellar but it is always filled with water. A furnace of a kind was constructed at the rear of the building on the ground level. This furnace is an ordinary box stove with a drum above it, the whole bricked in with a complete brick wall. Two heating pipes lead from this for the purpose of heating the living room and the bedroom, a considerable distance away, through two walls. These heating pipes travel about 20 ft. horizontally with no rise whatever consequently no heat travels through them. The drum above the box stove being bricked in cannot be cleaned without removing the brickwork and it is now so full of soot and ashes that the stove cannot be used as it simply fills the house with smoke. The residence is a log building built of very heavy logs and I believe it would be a very difficult job to move it to a proper site without dismantling it and rebuilding it.

Mr. Waite is doing good work as a day school teacher and would be willing to remain at that point if he had a comfortable home. Mrs. Waite informed me that she will not live in the house another winter. The building should be dismantled and moved to higher ground near the classroom building and placed on a full sized basement with a furnace. In no other way can it be made comfortable for the long cold winters ordinarily experienced in this province. Is there any hope of this being done this year, please?

The classroom building needs paint and varnish throughout. The interior walls of this building are mostly of beaverboard or some similar material with the exception of approximately 3½ ft. around the base which is of V-Joint wainscotting. This is satisfactory where it has been done but the cloak-room in the back has no V-Joint wainscotting and the beaverboard which runs practically to the floor is in very poor shape evidently through being leaned against and possibly kicked occasionally by the children. It would be possible to correct this with a very small expenditure.

The main construction of this building is of logs plastered with mortar. Some of the logs have warped and twisted sufficiently to break the mortar. The whole of the building therefore needs re-plastering with mortar on the exterior between the logs. Acting Agent J. Bryce is submitting a requisition for the necessary work on the classroom building.

If anything can be done to make the residence more comfortable for the winter I would strongly recommend that some action be taken at once otherwise we will probably lose the services of one of our best day school teachers.

I have your letter of the 21st instant, with reference to the teacher's residence at the Montreal Lake Day School and I discussed the matter with the Director this morning.

It is noted that you consider the building will have to be dismantled before moving it. Would it not be possible to move this building without dismantling it as it would involve less expenditure?

As the season is advancing, the Department approves your making arrangements for digging the basement and we will be prepared to purchase the new furnace if you give us specific information as to the type and size of the furnace required.

It has also been decided to allow you to either move or dismantle the building on the understanding that you will keep the cost as low as possible. Have you any estimate on the cost of carrying out this work?

You may arrange for the improvements you suggest in the classroom.

I visited the Montreal Lake Day School on the 6th instant in company with Mr. Bryce, the Acting Indian Agent for the Carlton Agency, to consider the question of moving the teacher's residence referred to in your letter of the 26th ultimo, No. 107-6-8.

A careful examination of the residence convinces me that it would be absolutely impossible to move it without dismantling it. It is made of very heavy logs and considerably longer than there is any need for. Because of changing the windows on one side most of the logs on that side are cut in very short lengths and would probably start to fall out if we were successful in getting the building jacked up to move it. On the other side of the building the logs have warped and twisted. These would have to be taken out and replaced in order to straighten up the wall. There is no need for a residence as long as the present one which is 40' long and 30 ' wide, outside measurement. A house in this country cannot be kept warm in the winter without a full sized basement to keep the floor warm. A full sized basement 30 x 40 ft. is a great deal larger than there is any need for. Nearly one third of the present house is taken up by furnace, cistern, and cupboards which should be, and will be, in the basement.

As soon as Indians are available for the excavation it will be commenced. Mr. Bryce is going to endeavour to get Adam Ahenakew of the Sandy Lake Band of Indians to perform the work of dismantling and rebuilding the house. He is a good carpenter and will perform the work satisfactorily if we are able to get him. If we are unable to get him we may have difficulty in having the work done before the cold weather sets in.

The new building will be approximately 30 ft. square with no upstairs. A pipeless furnace is required of 12,000 cubic ft. capacity, and it should be a wood burning furnace. I am enclosing the necessary requisition for this.

I would estimate the total cost of moving this building and rebuilding it on a full-sized concrete basement with a furnace will be in the neighbor-

hood of $1,000.00.....

hood of $1,000.00. This seems like a large expenditure but it is the only way in which this residence can be made permanently comfortable in the winter. An attempt by any other means would be just a further waste of money.

The requisition in connection with painting and decorating of the classroom building at that point will be forwarded by Mr. Bryce shortly.

I am in receipt of your letter of the 18th instant, No. 107-6-8, in connection with the teacher's residence at Montreal Lake Day School.

Since my visit to the Montreal Lake Day School on the 6th instant Mr. Bryce, the Acting Indian Agent, Carlton Agency, has been making many enquiries in an effort to find someone who would undertake the dismantling and rebuilding of the residence. No one seems to want the work at any price. This is the time of year when there is a great demand for casual labour in the harvest field where more money can be made than at any kind of local work. Adam Ahenakew, the Indian mentioned in my letter of the 10th instant, refuses to have anything to do with this work until after harvest this fall.

If men were available to hurry the work I would still be in favour of immediately dismantling the building and rebuilding it as suggested in my letter of the 10th instant. As there is now a great deal of doubt about the work being completed before the cold weather sets in I do not think it should be started this fall.

I would also recommend that no further action be taken in connection with the purchase of a new furnace at the present time. From further enquiries which Mr. Bryce has made and which I have made I am now doubtful that it is advisable to try to move the old building at all. If it is found advisable and more economical to build a reasonable sized cottage, of lumber, for the use of the Day School teacher at that point it is quite probable a different type of heating plant would be required, and in any case it seems that no good purpose would be served in buying a furnace until we are certain how we can make out this winter.

If a possibility arises to rush the work as suggested in my letter of the 10th instant I shall do so and advise the Department.

On Mr. Ostrander's last visit he advised me to submit estimates for a new lumber teacherage to be built on a new site at Montreal Lake Reserve. The present house is of log construction. The logs have been so badly cut up with windows and doors, and as the bottom logs are no longer sound it would not be advisable to attempt to move this building, the labour and cost to dismantle and move the old building would go a long way towards the erection of a new lumber building.

Another difficulty is that we have been unable to get men skilled enough to dismantle and salvage the inside fittings or to undertake the dismantling and erection of a log building and replacement of new logs.

In the event of a new building being built the old building could be of more value used as a place to teach the boys vocational training, a council hall and community centre, and a place where the local Homemakers Club could gather for their activities.

Owing to conditions of which you are aware, it was found impossible to provide funds in the current year's appropriation for the erection of a new teacher's residence. However, I discussed the matter with Mr. Hoey yesterday, and we can probably find $1,500.00 or $2,000.00 in the current year's appropriation. Please refer to Department letter of June 14th, 1946, File No. 107-6-8, in connection with the teacher's residence at the Montreal Lake Indian Day School.

I am enclosing herewith copy of a letter received from Indian Agent E.S. Jones and requisition amounting to $80.50, for heater, stove pipes, and labour for making a hole in the chimney in order to somewhat improve the present teacher's residence for the coming winter.

I would recommend that Mr. Jones' suggestion that lumber up to the amount of $2,000.00 be purchased at once from Messrs. R.D. and K.R. Brooks, who are sawing lumber at the Montreal Lake Reserve near the site of the school, be approved. The lumber presently being sawn is not fit for immediate use as it unseasoned, but if properly piled and left until next summer would then be fit for use. If this suggestion receives the approval of the Department I will ask Mr. Jones to prepare a requisition covering the varieties and quantities of lumber needed for the teacher's residence and which can be supplied by Messrs. Brooks. Most of the lumber required for the new building can be supplied by this firm.

Again referring to the Department's letter of June 14th, I think it would be a great mistake to spend any appreciable amount of money trying to make the present teacher's residence a habitable home as the money would be practically wasted. The house is very badly planned and built on a muskeg, consequently it is impossible to put a basement below it. The only way in which it can be heated is by the use of several stoves and in that manner it cannot be properly heated. Because it is built on a muskeg the walls are sagging and nothing can be done to prevent this.

Further to our conversation in Prince Albert re Rev. and Mrs. Waite's house on the Montreal Lake Reserve. I visited Montreal Lake on November 4th last and am of the opinion that the floor joists at the back of the house in question have broken down. The floors and doors in the outer kitchen, the kitchen and dining room are twisted every which way.

It was decided to tear out the brick furnace arrangement in the outer kitchen to remove weight from the floor. The chimney in the outer kitchen is not built from the floor as is customary, but rests on a five foot block of wood. It would be impossible for anyone to live in the house if this chimney were torn down, however, it is anything but safe. Consequently, if the floors, partitions, etc., move many more feet, the house will definitely have to be vacated which will mean closing down the school.

I will visit Montreal Lake again as soon as possible. If I do not receive further word from Mr. Waite in the meantime, I will report on my return as to the whereabouts of the house.

I received a report that the day school teacher's residence at the Montreal Lake Indian Day School had suddenly become unsafe because of the floor sinking. I asked Indian Agent Mr. E.S. Jones to investigate and report to me.

Herewith is a copy of Mr. Jones' report which would indicate that the situation is rather serious.

As previously reported, this building was very badly constructed and there has been considerable correspondence between this office and the Department in connection with erecting another residence. If the house becomes unfit for habitation this winter it will be necessary for Mr. and Mrs. Waite to move out and there is no other house for them to occupy anywhere in the vicinity. The result will be that the school will have to be closed until another residence can be built.

I am writing to Mr. Jones asking him to endeavour to make the house habitable for the remainder of the winter with the hope that some better arrangement can be made next summer. If it is necessary to close the school I presume we will have to permit Mr. and Mrs. Waite to make use of the class-room building as a home for the winter as they will probably be unable to find any other place in which to live, and I have so advised Mr. Jones.

I wish to refer to Department letter of the 27th ultimo, File No. 107-6-8 (N.T. 1), in connection with the school teacher's residence at the Montreal Lake Reserve.

I am now in receipt of a letter from the Indian Agent, Mr. E.S. Jones, of the Carlton Agency, informing me that Mr. Waite, the teacher, has not been successful in having the brick furnace arrangement torn out. However, he states that definite arrangements have been made with the Millwright of the Brooks Mill to proceed with this work and also to cut a hole in the wall between the living room and dining room to enable stove pipes to be connected up with the chimney.

I believe that in this regard the house can be made habitable for the remainder of the winter.

I am again reminding Indian Agent Jones that he has not yet submitted requisitions for the lumber from Messrs. R.D. and K.R. Brooks, referred to in Department letter of August 15th last.

File #1983-303-11A

Regina, December 10th, 1946.

Indian Affairs Branch, Department of Mines and Resources, OTTAWA.

With further reference to Department letter of the 27th ultimo in connection with the proposed new residence for the day school teacher at the Montreal Lake Reserve, I am now enclosing two requisitions, one for $502.67 for material which can be purchased from Messrs. R.D. and K.R. Brooks, of Montreal Lake, Saskatchewan, and the other for $607.13 for the remainder of the necessary material.

I presume this material should be purchased as soon as possible in order that it may be stored and properly seasoned before being used for building next summer.

Dear Sir:-

No doubt you have had a report on the condition of the interior of the residence at Montreal Lake both from Inspector Ostrander and Indian Agent E.S. Jones. Like me they are worried about it, as to its safety. I am seriously considering getting out, before it collapses with the chimney coming down.

Before I came here, there was supposed to be a cellar, but it was full of water, and in winter it was a sheet of ice. There was a hole about 8 or 9 feet deep. I saw it before the alterations were made.

When the alterations were made, this hole was filled in with logs (some poplar logs), and earth, the floor was laid; then on top of the floor right over this hole a 2 ft. box stove was placed with an oil drum on top through which the smoke passed in one end, out the other into the stove pipes to the chimney, then the stove and drum were cased with bricks. These were taken down the other week to ease the weight off the floor. Then the chimney was built within 3 inches of the cut in the floor. There is a big log about 5 feet long with at least 16 feet of brick chimney resting on this log like this:-

Above the ceiling there is 2 feet of shavings for insolation. The floors have sagged like this ~~~~. You feel you are walking down and then up; none of the inside doors will close properly, some you can put your hand through at the top at one end, the other end is tight, you can put the toe of your boot under the door posts. In places the quarter round has left the floor, at others it is on the floor with the partitions of the room two inches above the quarter round. In one room you can put your hand through and touch the outside logs, where the floor has sagged.

We have had to put blocks under one end of the kitchen stove so that my wife can cook properly. The dining room table has to be blocked up to keep it level and from running away.

Mr. Ostrander and Mr. Jones have suggested putting blocks under the chimney but I doubt if the chimney will stand the pounding and hammering.

I can assure you it is not very pleasant living under such conditions. If I have to get out you will understand the reason.

There is no living accommodation here. We are going to pack our trunks with clothes and put them in an old building so that we should not lose everything in case the chimney and floors collapse.

I am sorry to worry you about this, but think you should know my side.

Yours truly,

(Sgd) Rev. G.J. Waite.

Dear Mr. Waite:-

We have your letter of the 26th ultimo with reference to the condition of the teacher's residence at the Montreal Lake School.

We have had considerable correspondence about this building during the past two years and in spite of our desire to have something done to improve conditions, we now find that little has been accomplished. To be fair to all parties, this is due in part at least to conditions over which our officials had no control.

However, we are again writing to Inspector Ostrander and I enclose a copy of our letter for your information.

Yours sincerely,

With reference to previous correspondence, regarding the teacher's residence at the Montreal Lake Reserve, we enclose a letter received from Rev. G.J. Waite.

In your letter of Dec. 2 you stated that you believed that the teacher's residence could be made habitable for the remainder of the winter. It appears from Mr. Waite's letter that this is not the case.

The present situation as outlined in your communications as well as Mr. Waite's letter, is apparently very serious. However, we would appreciate it if you would get in touch with Mr. Jones immediately and have him give the matter his personal attention with a view to making some provision for living quarters for Mr. Waite.

JAN 15 1947

Regina, January 13th, 1947.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to Department letter of the 7th instant, File No. 107-6-8 (W.T. 1), in connection with the condition of the teacher's residence at the Montreal Lake Reserve, and letter of the Reverend G.J. Waite on the subject, I have to say that I visited the Montreal Lake Day School on the 13th ultimo accompanied by Indian Agent Mr. E.S. Jones. We examined the house and discussed the matter with Mr. and Mrs. Waite.

The foundation of the chimney has sunk away considerably and I gave instructions to have part of the back kitchen wall removed in order to examine the foundation beneath the chimney with a view to temporarily bracing it if it was found necessary. Mr. Jones had already arranged for a man to call to do some work on it and my instructions were additional instructions to that which had been given by Mr. Jones. I had heard nothing more and assumed that as the result of the work having been performed the chimney had been temporarily made safe for the remainder of the winter. This seemed to satisfy Mr. and Mrs. Waite.

Any such work performed on the chimney or any other part of the house is only a temporary measure for the remainder of the winter.

In conversation with Mr. Jones over the telephone today he informed me that the foundation of the chimney has further given way with the result that a fire was started in the roof of the house but that it was kept under control and no serious damage resulted.

Mr. Jones is going to Montreal Lake at once to enquire further into the matter and advise me.

I am returning herewith Mr. Waite's letter which is practically in accordance with the facts with the exception of that part of his letter which states:

> "Mr. Ostrander and Mr. Jones have suggested putting blocks under the chimney but I doubt if the chimney will stand the pounding and hammering."

My instructions were that if it was found practical to do so when the wall was removed and the base of the chimney examined wedges should be inserted in the base of the chimney to prevent it sinking further. This would not require any "pounding and hammering" that would be likely to further endanger the chimney but would temporarily prevent the chimney sinking further and should have been done. I assume from Mr. Waite's letter that he later decided against this action which was the reason why it was not done.

The only living quarters available in the vicinity other than the teacher's residence would be in the day school and that is practical only if the school is closed for the remainder of the winter. Naturally Mr. Waite does not wish to have to do this if it can be prevented because his salary would stop.

I wish to assure the Department that Mr. Jones and the writer have given every possible attention to the situation at the Montreal Lake School residence and there is nothing further which can be done until spring other than to have

Dear Sir:

I received your phone and radio messages O.K. I am having the chimney taken down.

This is what happened. About two o'clock on Saturday afternoon the chimney caught fire. I knew what it was directly. I went for help and Mrs. Waite got pails of water ready. Some one rang the school bell and in less than five minutes I had 4 or 5 men and they soon got the fire out. It burnt all round the chimney, fortunately there was no wind, plenty of snow on the roof, and daylight.

The cause of the fire was this. In October I had the chimney swept down. Apparently the chimney was O.K. but the chimney went down further. The ridge boards were wedged tightly against the chimney, for at the chimney the roof has sagged most. Then when the rest of the chimney went down the piece out of the roof did not go, the result the break. The men handed me down one of the bricks , no mortar at all on it. You can move the top part of the chimney with your hand. There were no braces to the other. I think the break had been there some time with the result that the cold air coming in at the break caused the soot to collect. The men moved the cook stove and medicine into the living room. Today I closed school at noon and helped my wife straighten up.

I hope to get the rest of the water out of the big tank tomorrow to save it from freezing. We have moved our perishable things in to the front room, which we can keep warm. I don't know how the other part of the house will be on very cold nights. We have filled in the holes between the kitchen and other room.

I guess we will manage.

Yours truly,

Sgd. G.J. Waite.

Where the break in the chimney is, you can lift off the bricks. I think a tin cowling should be obtained for the other chimney. It is a big chimney and the wind blows down it so much that it makes the stove pipes very dirty so soon. They need cleaning about every three weeks.

With further reference to Department letter of the 7th instant, File No. 107-6-8 (W.T. 1), and my reply dated the 13th instant, in connection with the condition of the day school teacher's residence at Montreal Lake, I am enclosing herewith copy of a letter received from Reverend G.J. Waite through Mr. E.S. Jones, Indian Agent, giving a report of the damage which resulted from the fire referred to in my letter. Apparently no serious damage was done. The unsafe chimney has now been dismantled and arrangements made to close up the back part of the house. Mr. and Mrs. Waite will live in the front of the house for the remainder of the winter and it is hoped that a new house will be built in the coming [redacted].

Copy of a letter sent by The Rev Gilbert Waite to Mrs A. J. Hazelgrove 17 Lakeview Terrace Ottawa.

March 3rd 47.

Dear Dora,

Please accept our thanks for the purifications - they will be so useful. We are still struggling too much every day & are tired by nightfall. We had a months holiday in July last. We drove to Winnipeg via Prince Albert, Saskatoon, & Brandon. Joe & Ruth had their holiday & came to Winnipeg from Quebec to spend 10 days with us. It was nice to be with them. — — —

We could go down hill from one room & up hill to the kitchen. Before we came, they had put in a new chimney, (which added considerable weight on the floor) plus a 700 gallon soft water tank.

About 6 weeks ago this chimney caught fire, & set the roof on fire. Fortunately it was daytime & no wind, & we soon put it out. We found there was a crack in the chimney of about 6" & we could lift the bricks out. The result we cannot live in half the house. We had another chimney at the other end of the house, for an open fireplace, so we use that. They will have to build a new house this year. The Bishop showed me a letter the other day, in which he told Ottawa we were living under the most deplorable conditions. It is very hard on Nelly. We have to block up the kitchen stove to make it level & the dining room table sometimes decides to go down hill. The Bishop comes up once in a while with the Indian Dept doctor — — —

It is very hard on Nelly. We have to lock up the kitchen stove
to make it level & the dining room table sometimes decides to go

Dept doctor —
— — — — — We have had steady cold weather all winter with
the lowest temperature being 50 below Zero: Saturday morning it was
20 below & no sign of a thaw all winter with so much wind.
Yes - you are right, There is no recognition for our kind of person.
You just go on day after day. — — — — — — — — — — — — —
— — — — — I had to go to the doctor last week, my leg
were bothering me, as the veins are bad. He told me to keep off my
feet as much as possible. Some chance of doing that here.
We have to go 85 miles to see a doctor. Of course the Indian Dept
doctor will do anything for us, but he is not in private practice.
I dont go to a doctor very often - the last time I went was 12 years
ago, & the doctor was away. I went to Nelly's doctor this time.
She worked it so nicely about my going. In a letter to the Bishop
I told him I was very tired & my legs were bad. The next monday
he came with the Indian Dept doctor. When they arrived I was at
school & so between Nelly, the Bishop & the doctor it was all arranged
that I go back with them in the car. They came up to the school, &
told me to get busy & come. I came back in the mail truck.
The indians have sold their lumber & now there is about a million
feet of lumber to ship out. — — — — — — — — — — — — —

Montreal Lake, do you think I could interest outsiders, by having this copy of Gilbert's letter printed in "The "Churchman"?

It would have a far reaching influence by so doing.

I would not do so without your permission, or unless you tell me you can do nothing in a hurry

Needless to say - Gilbert does not yet know of my activities on his behalf.

Would you be kind enough to let me know what is doing?

Dear Mr Hoey.

Enclosed please find a copy of a letter I received from the Rev Gilbert Sheldon of Montreal Lake, with the more personal parts deleted.

My connection & interest in this matter, is the fact that Gilbert's brother Arthur, married my sister.

Feeling that something should be done I showed the letter to Bishop Jefferson. He definitely thought so too, & sent me to Dr. Alderwood, who in turn sent me to Colonel B.F. Neary. In place of the latter I spoke to Mr J. Nelson, who, in his turn referred me to you.

I know & like Gilbert & his Wife Nelly & know them both to be conscientious earnest in their work. I was rather

appalled to learn of what conditions are like in Montreal Lake. I would imagine that a Clergyman able to preach & teach in Cree would be hard to replace & for that reason alone should be shown consideration about living conditions. Some years ago when they were stationed at John Smith's reserve, Mrs Waite told me that the government used to allow her $40.00 a month for her nurses work among the indians, but for some reason it was cut off. She kept up the work at her own expense

By this letter just received, it would seem that they are a long way from a doctor, & Mrs Waites services as a nurse is surely worth considering & necessary expenses for medicine supplied.

Ottawa, March 25th, 1947.

Dear Mrs. Hazelgrove:-

I have your letter of the 18th instant enclosing copy of a letter which you received from Reverend G. Waite of Montreal Lake.

We have been aware of the condition of the teacher's residence at this reserve for some time past but owing to the difficulties of securing material and labour, have not been able to make the required repairs.

We have been in communication on several occasions with the Inspector of Indian Agencies for Saskatchewan and also with the local Indian Agent. Both of them are as anxious as we are to provide suitable living quarters for Mr. Waite who has given us very faithful service.

We expect to remedy the condition during the coming summer.

Yours sincerely,

Director.

Mr. E.S. Jones, Indian Agent,
Leask, Sask.

We have your letter of the 9th instant enclosing voucher 408 for $488.27. You quote as authority, official letter of June 14, 1946.

Was the material for which you are asking payment used to make the teacher's residence at Montreal Lake more habitable? In your letter you state that it is for the purpose of building the teacher's residence. Please explain this statement.

We are well aware of the necessity for a new teacher's residence at Montreal Lake and we have already requested our Purchasing Branch to secure a pre-fabricated house.

It is noted that the account of R.D. and K.R. Brooks is dated March 31st and it is possible the materials have not been used. If so, the firm might take them back. Please let me hear from you.

This expenditure was authorized by Inspector J.P.B. Ostrander and was for part of the lumber required to build a teachers' residence on the Montreal Lake Reserve. Lumber amounting to $488.27 has been set aside by the Brooks Company at Montreal Lake.

Personally I think the idea of having our Purchasing Branch secure a pre-fabricated house is a good one. I know the Brooks people will not be put out in the least. I am writing them today cancelling the order and will explain why.

Please advise further regarding the pre-fabricated house being shipped.

Indian Affairs Branch, Department of Mines and Resources, OTTAWA.

I am enclosing herewith copy of quotations received from the North American Building Limited, of Winnipeg, as a result of my interview with Mr. E.W. Mackenzie, of that firm, on the 17th instant.

The building referred to as "Montreal Lake Day School" is for a two-bedroom teacherage, Plan No. 251 RB, fully insulated with extra Rock Wool insulation in the attic for which is added $28.00, making a total of $3078.00 F.O.B. Winnipeg. We have to add to this: Trucking $384.00; Special Saskatchewan Truck Permit, $5.95; Erector's Expenses, plus b basement and furnace. I imagine that these will add perhaps $700.00 to the price, or probably we will have a completed building according to this plan at about $4200.00

The other quotation, referred to as "Victoire" - 13 miles north of Kamsack, is an error. I was discussing with Mr. Mackenzie a Farming Instructor's residence at Victoire (Big River Reserve, Carlton Agency), and one on the Keeseekouse Reserve of the Pelly Agency, 13 miles north of Kamsack. However, it appears that he has based his quotation on shipment by truck from Winnipeg to Kamsack. With this in mind it will be seen that the cost of the Farming Instructor's residence under Plan No.255L, a three-bedroom storey-and-a-half house, with full Rock Wool insulation, is F.O.B. Winnipeg $3946-20 Freight to Kamsack, $226.70 Special Saskatchewan Truck Permit, $3.56, plus Erector's Expenses, travelling, etc., allowing an additional estimated $1200.00 for basement and furnace, would mean that the cost of this building would be approximately $5500.00.

In my letter No. 780-300-4A, of yesterday's date, I advised the Department that it is impossible to get Mr. Lidfers to do any work for us this year. I would therefore recommend that an order be placed with the North American Buildings Limited for immediate erection of Montreal Lake Day School Teacherage, House Plan No. 251 RB, delivery by truck at Montreal Lake, and Farming Instructor's residence, House Plan No. 255L, delivered at the Keeseekouse Reserve of the Pelly Agency, Kamsack, Saskatchewan, by truck.

It must be understood, of course, that if the Department decides to carry this out it will be necessary to advise me in order that arrangements can be made for the excavation and the concrete work to be completed before any action is taken to deliver the remainder of the material. Sills and bolts have to be supplied by the North American Buildings Limited, together with instructions for proper completion of the basement walls. If these two buildings are to be erected as more or less of an experiment I would like to have them completed at the earliest possible date before deciding what shall be done about the remainder of the buildings authorized for this year. I may say that Mr. MacKenzie told me in conversation that, so far as he is aware, at the present time

Teacherage - Montreal Lake Indian Day School

Mr. Phelan dealt with your letter of May 27th and unfortunately he is out of town on holidays at the present time. By the time your letter had arrived we had already ordered from the North American Building Company, house plan No. 756 L.B. The house ordered has a floor plan of 26'8" x 24'4".

Please find attached for forwarding to Mr. Indian Agent Jones, the basement plan for this house.We are advised by the North American Building Company that this 27' x 25' basement put on a 9" x 7'6" wall with a 30" x 10" footing and a 4" floor will take 36 cu. yds. of concrete with 144 bags of cement in a six to one mix.

You will note on the right side of the plan, diagrams of the anchor bolt setting in the 2" x 6" sill. The bolts are placed approximately 6' apart, 3½" from the outside edge of the basement wall. North American Builders supply the sill, anchor bolts and center beam, but nothing below the beam.

Will you please arrange for the purchase of the cement locally and also the materials required for a brick chimney. Then Mr. Indian Agent Jones can prepare the excavation as specified.

My dear Mr. Hoey:

I am so sorry that the need has arisen for me to once again bother you. I do hope you will not consider me unduly importunate, but I am deeply concerned regarding our Indian work, hence my letters.

As you know, for some two years past a house has been promised for Mr. Waite, the day school teacher at Montreal Lake, and we have been informed from time to time that a house would be built. Your Mr. Clark can give you full particulars of the deplorable condition of the present teacher's residence. This year I was greatly pleased when I heard that this new residence would be definitely built this summer. Two weeks ago I was at Montreal Lake and was greatly disturbed to see that the house was not yet built, although the cement foundation had been laid. Upon inquiry, I was informed that building operations would definitely commence on October 1st, and that a pre-fabricated house would soon be erected. Mr. Waite has just been in to see me, and I very much regret to inform you that nothing has been done. The present residence is unsafe and impossible of occupation for the coming winter, and I do hope that you will take the necessary steps to see that action is taken in this matter.

I do hate to bother you with these matters, but apparently it is my only means of securing definite action. The need of this teacher's residence is most imperative.

With kindest regards.

Sincerely yours,

Ottawa, October 16, 1947.

Dear Bishop Martin:-

I have for answer your letter of October 11th. I feel sure that we have done everything possible to provide a new teacher's residence at Montreal Lake.

Our requisition for the purchase of this building was sent forward on April 2nd. This is just one day after the beginning of the new fiscal year when the funds for the construction of this teacherage became available.

The fact that there has been this long delay is due to the difficulties which have been encountered in putting in foundations and in arranging for delivery of the building from the North American Builders Limited in Winnipeg. However, we are writing to our Inspector of Indian Agencies in Winnipeg, requesting that he contact the Company and try to expedite the delivery date.

Yours sincerely,

Director.

For family reasons that cannot be avoided, I am obliged to close my school one month before the end of this quarter, and I would respectfully ask the Department to allow me that much leave without deducting from my salary.

I would beg to draw attention to the fact that I have taught in Indian Department Schools without interruption for 23 years, with the exception of six weeks leave in 1904, and that also was unavoidable.

Very Reverend Sir,

I have to acknowledge the receipt of your letter of the 28th ultimo, and in reply I beg to say that the Department has not received the resignation of Mrs. Jefferson as teacher of the Red Pheasant School. On November 14th, last, she was granted one months leave of absence with pay. The Agent will be written to and asked to have her resignation in proper form forwarded. Should this be done and should it be accepted by the Department the temporary appointment of Rev. D. McDonald will be approved. It is presumed that he is the Missionary on the reserve. Trusting this will be satisfactory.

Very Reverend Sir,

In view of the proposed closing of the Battleford Industrial School and the large number of pupils at present enrolled there from the Red Pheasant's Reserve the Department desires to take into immediate consideration the question of better accommodation on this reserve. I would ask you to communicate with the Agent, Mr. Rowland of Battleford, and submit to the Department a report showing in detail the accommodation that you consider necessary. You have seen some of the buildings that have been erected by the Department on the John and James Smiths Reserves. If this building at Red Pheasants is to be erected near the site of the present one, which was only put up a few years ago, it may not be necessary to provide other accommodation for the dining-room and store-room, as the present school-room can be utilized to some purpose. In regard to the class-room you should state definitely the number of children for whom provision should be made. I shall be pleased if you will at once see Mr. Rowland so that he may report in full to the Department.

Sir,-

The Department contemplates the erection on the Red Pheasants Reserve during the coming summer of a new day schools and teacher's residence.

In connection with the school it has been suggested that it should be made large enough to accommodate the children now attending the Stony School and some arrangement for their conveyance to and from the school made. The Stony School for many months past has been a failure in so far as attendance is concerned and the Department is inclined to look with favour on this suggestion, but it would like to have a report from you. There might be a question as to whether the Stony Indians would be willing to send their children to a school attended by Crees. It would like to know how far they would have to be driven, provided you have this information at hand. Kindly let me have a reply by return mail, giving your views on the question of amalgamating the schools.

Sir,

With reference to your letter No. 117054/1 of the 19th ult. and my reply of the 29th ult. I beg to say that, while on my visit to James Smith's Reserve, I looked through the building erected for the teacher and consider the plan all that could be desired for a teacher's residence but the arrangement of the kitchen and dining room for the pupils, being all in one, and that not a very large room, might I think be improved. If, however, in building on Red Pheasant's Reserve, the present schoolroom is utilized for a dining room, this objection would be removed, but, I consider the arrangement of the house on John Smith's Reserve, where the kitchen and dining room are in the same building but in separate rooms, is much better.

I am sorry to say that Mrs Rowland, the Indian Agent, is absent at the present time, and, as my duties necessitate my leaving Battleford again before he returns, I shall not be able to confer with him on the matter. I have however asked Rev. E. Matheson to communicate with Mrs Rowland on my behalf, and I am also leaving a letter for Mrs Rowland.

The location of the school should, I think, be very carefully considered before it is decided on.

DEPARTMENT OF INDIAN
MAR 28 1912

NORTH SASKATCHEWAN INSPECTORATE,

Battleford, March 21st, 1912.

Sir,

I have the honour to acknowledge receipt of your letter of the 8th inst., No. 117054/1, with reference to the proposed amalgamation of the Red Pheasant and Stony day schools in this agency.

In reply I beg to say that I have just returned from a tour of these reserves, in the course of which I visited the schools, and discussed school matters with the Stony band and with individuals of Red Pheasant's band.

The Red Pheasant school as at present conducted is a signal failure. There are 12 children of school age on the reserve, besides 15 of day school age in attendance at the Battleford industrial school and 2 at the Duck Lake boarding school.

There were only 4 pupils present on the day of my visit, which is about the average for the past year.

There are 13 children of school age in the Stony band; and there were 8 present at the time of my visit.

The Crees have absolutely no objection to the amalgamation of the schools; and would appreciate the services of a properly qualified teacher, and the other advantages of an improved day school. I have good reason to believe that under such conditions a much better attendance would be had, even without conveying the children.

I had discussed the question of an amalgamation of these schools with the late Indian Agent and with Archdeacon McKay some time ago; and the Indians having heard

of the suggestion had been discussing it among themselves. I found the Stonies to be of one mind on the subject, and quite agreeable to their children attending a day school along with the children of Red Pheasant's. They had, however, the impression that such a school would be located somewhere near the line dividing the two reserves, there being a favourable site on the Red Pheasant's side of the line, which would be central and acceptable to both bands. But they did not express themselves as opposed to the location of the new school on a site adjoining the site of the present school if it should be deemed advisable to build there, on condition that a comfortable conveyance should be provided for the children.

I have considered the question for some time past, and have no doubt as to the advisability of amalgamating these schools; and believe that the amalgamated school can be made a success both as to attendance and results.

As to the site I should not like to express myself too positively until I have a further opportunity after the snow has gone to examine different possible sites and to have tests made for water; but I think it very likely that a better site than the present one can be selected; and accordingly the present building need not be taken into consideration. It would answer for dining-room in case the school were near by; but is is not a valuable building, and if discarded it could be given to a destitute family for a dwelling.

Though the figures above given would indicate that the school population of the two reserves, in case of the closing of the industrial school, would be 40 children, yet for a few years to come it is unlikely that a larger attendance than about 30 could be secured, as several of those included in the 40 now enumerated are 14 or 15 years of age and would not likely attend. A building for 30 or 35 pupils

would answer the requirements; for in case of any material increase in the school population an additional teacher and a separate class-room would be required.

The question of conveying the Stony children will not be affected by the selection of the site. Moreover, I think it likely the Cree children will also have to be conveyed, if the best results are to be obtained, no matter which site is selected.

A few of the Crees asked that boarding accommodation be provided in connection with the teacher's dwelling, as has been done elsewhere; but unless the Department has decided to adopt this plan uniformly I would not recommend it.

Sir,-

I have to acknowledge the receipt of your letter of the 21st instant reporting upon the amalgamation of the Red Pheasants and Stony day schools in the Battleford Agency.

In reply I beg to say that your remarks have been noted. The Department would like to have definite information with regard to the site and size of the buildings that will be necessary at the earliest possible date. It is probable that new plans will have to be prepared for at least the school and this work will take up some time. The closing of the Battleford Industrial School at an early date is under consideration and in the event of definite action being taken educational facilities should be provided on the Red Pheasants Reserve for the children who will lave the industrial school and return to their homes. The Department purposed using the plan of the new school building on the James Smiths Reserve, but this would not be large enough if the two schools above referred to are amalgamated.

With regard to the teacher's residence Venerable Archdeacon MacKay considers that the building on the James Smiths Reserve would not be large enough in so far as dining-room and kitchen accommodation is concerned, if this amalgamation takes place. The Department would like to have your opinion

Sir,

Referring to your letter of the 26th ult., relative to the new day school and teacher's dwelling which it is proposed to erect on Red Pheasant's reserve during the coming summer, I have the honour to report further as follows:

It appears to me that there is little room for doubt as to the advisability of amalgamating the Red Pheasant and Stony schools, as the amalgamation should contribute in some measure both to the saving of expenditure and to the efficiency of the work. It is true the Stony children would have to be conveyed to and from school, which would involve an increase of expenditure; but in most other respects there would be a saving effected through the union of the schools; and for the outlay involved in the conveying of the children there would be a return in a better and more uniform attendance. As all who have had this question before their attention since it was first raised are of one mind as to the advantages of the amalgamation of the schools, I shall assume that the suggestion has received, or will receive, the approval of the Department, in order to be able to proceed on this basis to a consideration of the size and site of the proposed buildings.

While the actual school population of the two bands, in the event of the closing of the Battleford school, as shown in my letter of the 21st ult. will be 40 pupils, yet as it is practically certain that most of those approaching the age limit of 15 years will not attend, it would be safe to figure upon an attendance of 30 as a maximum; it will rarely be larger and generally in all probability somewhat ~~considerably~~ smaller. Of course, much depends upon the interest and enthusiasm of the teacher who may be placed in charge, and the support he receives. Under present conditions he will be assured of sympathy and support in his efforts from the agent and the farmer, both of whom are intelligent men and concerned about the progress of the Indians in educational and other respects. In case both these bands continue to occupy these reserves, concerning which they appear quite settled at the present time, the school population is liable to vary, and very likely to increase, within the next few years; but there should not be more than 30 pupils to one teacher in any of our Indian schools; and in the event of the actual attendance becoming materially increased the best way to meet the circumstances would be to provide an additional class-room and a second teacher.

The new school on James Smith's reserve affords space and accommodation for a maximum of 24 pupils; but the school-room is not well proportioned, being too narrow in proportion to its length, a condition which along with other disadvantages renders the blackboard space on the right of the pupils less valuable than it otherwise would be. To adapt this building to the circumstances now under consideration, that is, to the requirements of an attendance of 30 pupils, I would suggest that the width of the building be increased from 17 to 21 feet, or better to 21' 6", and that the height of the ceiling be made 12 ft. instead of 11 ft. These changes will afford the necessary air space and floor space according to the Department's regulations, and will make a well proportioned school room.

With regard to the site for the proposed new buildings, I may say that at the time of my last visit to these reserves there was still too much snow on the ground to admit of our leaving the beaten trail for the purpose of making a minute examination of the surface, elevation, drainage, etc, of different possible sites. The site of the present school on Red Pheasant's reserve is clear, well drained, and favourable from a sanitary point of view, and has the advantage of being on the shore of a small lake of good water. But it is not quite central even for Red Pheasant's band; and would be less central for the two bands. All the Stony children would have to be conveyed to and from a school so situated, five miles each way; and to secure a full attendance of the Cree children it is probable some of these to the south-east would also have to be conveyed. The present site is convenient to the Church of England mission, which might have some advantages. It is also convenient to the farm buildings, which, however, are to be rebuilt presently and possibly not on the same site.

The locality referred to in my letter of the 21st ult. as that on which the Indians had set their minds offers many advantages; and now that the season is favourable for the purpose tests should be made for water there, a question which should be settled before a change of location is decided upon. The determination of the exact location of the buildings need occasion no delay in the alteration of the plans or the letting of the contract, so far as I can judge, as there is nothing in this that can affect the calculations of any contractor in figuring out a tender. If good water is to be had I think the location last referred to, which is near the line between the two reserves, affords the greatest advantages; and I could make an opportunity to go over the ground carefully with the Agent and select a suitable site if the Department should approve of this suggestion.

With regard to the teacher's residence, it is my opinion that the building on John Smith's reserve is suited as to both plan and dimensions to the requirements of the proposed amalgamated school here under consideration. The attendance of pupils may be expected to be as large, as the school population is considerably larger; and it is probable the teacher and his family will require accommodation similar to that afforded in the dwelling at John Smith's.

Sir,

Referring to your letter No. 117054, of the 15th June last, I have the ho nour to state that I prepared a form of agreement for the signature of the Indians of the Red Pheasant and Stony bands and forwarded it to Mr. Agent Rowland, requesting that he obtain, if possible, the signatures of the Indians at the time of the treaty payments. Those of the Red Pheasant Indians were secured with little difficulty, but the Stonies refused to commit themselves, although they had previously expressed themselves to Archdeacon McKay and myself as well satisfied with the arrangement and the selection of a site.

As it was important that the matter should be settled without further delay, I visited the reserves last week, accompanied by the Agent, and in connection with a regular inspection of the reserves took an opportunity to meet the Stonies together and to go into the matter fully again.. They gave their signatures cheerfully and with no serious objection, the man with the largest number of children of school age coming forward voluntarily and giving his consent. I now beg to transmit a copy of the agreement , signed and duly witnessed.

Red Pheasant and Stony Reserves,

July , 1912.

WHEREAS it has been explained to us to-day by our Indian Agent, and on a previous occasion by the Inspector of Indian Agencies and by the venerable Archdeacon McKay, that the Department of Indian Affairs contemplates the establishment of an improved and more efficient school for the education of the children of the Red Pheasant and Stony Bands; and that with this aim in view it has been deemed advisable to amalgamate the day schools of these bands, which have hitherto been conducted separately, and to locate the new school at a point on Red Pheasant's reserve as convenient as possible to the Indians of both bands, and to make provision for the conveyance to and from school of pupils whose homes are in the more distant parts of the reserves;

THEREFORE the undersigned parents, being members of the said bands, as an assurance to the Department that there will be adequate and continuous results from the expenditure involved in the establishment and maintenance of the institution herein described, hereby promise and agree faithfully to carry out our duty in respect to the education of our children by sending all those between the ages of six and fifteen years to school regularly on all teaching days throughout the year (except in cases of sickness), and punctually at the hour named for the opening of school.

In token of which agreement we hereto subscribe our names in the presence of witnesses.

I have to acknowledge the receipt of your letter of the 21st instant applying for the position of teacher on the Red Pheasants Reserve.

In reply I beg to say that the Department does not appear to have any record of your being nominated for this position by His Lordship Bishop Newnham. As there will be time to communicate with His Lordship before the school buildings will be ready for occupation, the Department is writing today and immediately upon a reply from His Lordship will again correspond with you.

No doubt satisfactory arrangements can be made for your engagement at an early date.

Dear Sir,

I am in receipt of your letter of July 26th., & am surprised to hear that you find no mention of Mr. Marshall's application. I thought it had been settled more than a year ago that he was to go to Red Pheas-ants as soon as the school was built.

Mr. Marshall has been a qualified teacher for many years, & has proved to be very successful at it. He has been teaching at Battleford Indian school for nearly two years, & is well reported of. His wife was one of the staff of that school for many years, & has been a capable & successful worker. I highly approve of their appointment, & have been waiting for it.

Sir,

I beg respectfully to draw your kind attention to the need of taking immediate steps to make the improved day school on Red Pheasant's Reserve a success. The school buildings are completed, a capable teacher has been appointed, and all that is needed now is the attendance of the pupils. The school, as you are no doubt aware, is situated on the Red Pheasant Reserve but near the line between that and the Stoney Reserve, and is

intended for the children of both Reserves, thus doing away with the need of two schools. It is hopeless to expect a satisfactory attendance unless the children are conveyed to school. The distance is too great for them to walk, especially in winter, and considering too that most of them are Roman Cind. The risk to health and safety caused is too great to justify anyone in urging the children to walk to school, except in a very few cases. It seems a great pity that after the Department has gone to the expense of putting up first class buildings and employing a competent teacher at a good salary, that the school should not make

a good start.

There is also the consideration that the Department contemplates closing the Battleford Industrial School before very long, and, as most of the children remaining in that Institution at the present time belong to Red O' Lessard's Reserve, it is essential that the Red O' Lessard's School should be in successful operation before the Battleford School is closed.

Sir.-

With reference to the closing of the Battleford Industrial School I beg to advise you that the Right Rev. J. A. Newnham, Bishop of Saskatchewan, has been informed that the Department wishes this school to be closed on March 31st, the end of the current quarter. I have, therefore, to request that you will make the necessary arrangements for the return of the pupils then in residence to their homes.

As most of these children come from the Red Pheasants and Stony Reserves they should attend the improved day school on the Red Pheasants Reserve after the closing of the Battleford school. The Department would like you to make arrangements for the transport of the pupils who should attend this school during the winter months at least.

Referring to the last paragraph of your letter of the 17th ult., dealing with the closing of the Battleford Industrial School, I have the honour to state that yesterday in company with Mr. Agent Rowland I visited the Red Pheasant day school for the purpose of arranging for the transport of the children of the two bands to and from school daily. We engaged Thos. Wuttannee, of the Red Pheasant band, who is to provide team, harness and conveyance, bring the children of that band to school and take them home, for $1.50 per day. He has no suitable team at present, but has been able to hire one temporarily; and the Agent will submit to the Department an application for the purchase of a suitable team for this man, the price of the same to be refunded out of his earnings.

INDIAN BRANCH

We also engaged Sheenasappa, a Stony, and a man of somewhat advanced years, who has been bringing a few of the children of his band occasionally, (but not all of them nor very regularly), to bring all the Stony children of school age, every day, and take them home, at the rate of $1 per day.

The rates arranged in the two instances are proportionate to the work involved, as nearly as can be estimated; and in case the arrangement is justified by the results attained I would recommend that it be continued both summer and winter.

Would it be possible for Department to allow me remuneration for work done in the Evening School, Red Pheasant and Stoney Reserves. I opened the night school in February with an enrollment of 14. The average attendance for the month of February, March, April and May to date is 7. Many of my old pupils of the Battleford Industrial School have done good work in the night-school. The subjects taken are Book-keeping, Reading & Literature and Arithmetic. There is also an elementary class for those who have not previously been taught English. School has met regularly two nights a week, and during the session has been visited once by Inspector Chisholm & Agent-Rowland. The I propose to close the session June 29th

Scott,-

J. M. Marshall, teacher of the Red Pheasants Day School, has been conducting a night school since February, last. He states that school has been held regularly two nights each week with an enrolment of fourteen and ah average of seven. Of those who attended a large number are ex-pupils of the Battleford Industrial School. Mr. Marshall undertook this work on his own account and no arrangements were made with either the Agent or the Department regarding it. He now asks to be remunerated for the work done by him in conducting this night school. The rate of payment allowed to teachers who have been conducting night schools is fifty cents per hour. Red Pheasants

I have just visited this most carefully. Mr. Marshall is doing very good work, giving extra classes as a night school, etc. Mrs. Brown is doing most valuable work (she is our employee)visiting the Indians on both reserves, whole and sick, daily and all day long, looking after their morals and spiritual welfare as well as their health and comfort. She has her own horse and drives round among them from end to end. Agent, Instructor and Teacher are loud in their praises of her. Mrs. Marshall has a baby and cannot do very much among them. Of course we pay Mrs. Brown, a pittance. If the Indian Department could in some way recompense her splendid work I should be glad.

In reply to that portion of Your Lordship's letter of the 18th ultimo in which Your Lordship refers to the good work being done on the Red Pheasants Reserve by Mrs. Brown and suggests that she be reimbursed in someway I beg to say that the Department lately allowed Mrs. Brown the use of the old school-house on the reserve free of charge. If, as Your Lordship says, Mrs. Marshall is at present unable to take charge of her work as field matron some arrangement might be made between Mrs. Marshall and Mrs. Brown as to the sharing of the salary now paid Mrs. Marshall for this work. Our reasons for doing this are that the Indians are away to their hay camps long after school is reopened after the mid-summer holidays, and most of the pupils are absent until well on in October.

Hoping that this will meet with your approval, I Remain

Yours Obediently,

Sir,-

I have to acknowledge the receipt of your letter of the 27th ultimo, and in reply I beg to inform you that the Department has not received any returns covering the period which you conducted a night school on the Red Pheasants Reserve, and these returns have no doubt been lost in transmission. If you will prepare another return on the regular quarterly return forms showing the names of the pupils in attendance, the number of nights the school was open and the number of hours you taught this school each night the Department will allow you the same rate of payment as other teachers who have been conducting similar schools, viz.- fifty cents per hour. You should forward this return as soon as possible when payment of the amount due you for this service will be made.

You should not have undertaken this work without proper arrangements having been made regarding it and the sanction of the Department having first been obtained. This night school should not be re-opened by you without receiving authority from the Department.

Sir,—

I have the honour to request permission to have a night school opened at Red Pheasant during this coming winter.

Mr Marshall the teacher at Red Pheasant ran one last winter on his own responsibility and I believe he has done some good work among the older Indians.

SCHOOLS BRANCH OCT 21 1914

I would suggest that the Department take this matter in hand, and have the school organized at an early date. I would also recommend that some recompense be made Mr. Marshall for his labor.

Sir,-

I have to acknowledge the receipt of your letter of the 9th instant in which you request permission to have a night school opened on the Red Pheasants Reserve during the coming winter.

In reply I beg to say that before the Department can approve of this request it would like to have a report from you on the results of the work already done at this school during the past winter. You should state definitely whether in your opinion as viewed from the results achieved you would recommend its continuance.

A return has been received from Mr. Marshall, the teacher, showing that this school was open fifty nights for two hours per night during the period from January 6th to June 29th, last, and according to the agreement made with Mr. Marshall he is being paid at the rate of fifty cents per hour for this service and a cheque for $50.00, being the amount due therefor, is being sent to him in your care.

Kindly report on the above matter as soon as convenient.

Sir,—

Reference your letter 117054/1

October 27th, 1914.

I have the honour to inform you that in my opinion, the night school at Red Pheasant Reserve is doing a lot of good work. Although I have not personally visited the school, yet I have heard a lot of favourable comment from the Indians attending it. It has been the means of keeping the young Indians away from dancing and other useless amusements, and is helping them to get a better knowledge of English, and through this a better chance to look after their interests.

The small extra cost to the Department will be more than made up by the benefits derived by the Indians. I would recommend that Mr. Marshall be paid for his services at the same rate as last winter.

Sir,-

I have to acknowledge the receipt of a return showing the attendance at the night school on the Red Pheasant Reserve conducted by the teacher Mr.J.M.Marshall, for the period from October 1st to December 21st, last.

With reference to this return I beg to inform you that Mr. Marshall had no authority from the Department to conduct a night school at this point during the above period, as he was informed by official letter of September 10th, last, that he was not to re-open this school without receiving authority from the Department to do so. You were informed on the 28th ultimo that the Department would approve of this night school being conducted during the present winter from January to May 31st, only, for which period the Department would allow Mr. Marshall payment at the rate of 50¢ per hour. As Mr. Marshall conducted this school during the past quarter in direct opposition to the instructions given him by letter of September 10th, last, above mentioned, the Department cannot allow him any remuneration for his services for that period and you will be good enough to inform him accordingly.

The School was open from January 4th & closed April 29th. Instruction was given two evenings a week, Mondays and Thursdays for two hours each evening — Sixty eight hours.

The subjects of instruction were Reading, Writing, Arithmetic Composition, and Book keeping.

Four students made very satisfactory progress in Arithmetic and Book-keeping

With three exceptions the students all speak and read English well.

Thomas Wuttunee and Jane Wuttunee (man & wife) made very fair progress in reading. They only commenced reading English at the beginning of the term.

The attendance was not as good as it might have been, & the interest taken in the work not as great as last year. Only four of those attending take a real interest in their studies.

I beg to advise you that Mr. J. M. Marshall, school tacher at Red Pheasant Reserve, wishes to volunteer for service at the front provided that he is able to pass the medical examination. He wishes to know what arrangements can be made with the Department provided his services are accepted. He would like to have Mrs. Marshall remain on the reserve, and proposes that she be allowed to take charge of the school and that the field matron's work be taken over by Mrs. Brown, who has been doing missionary work on these reserves. They are both qualified to fill these positions.

As this is the first case where any of the staff have wished to volunteer, and as there is a possibility of others wishing to go, I would like the department to advise me what is the usual procedure in these cases, and what arrangements can be made to fill the positions during their absence.

Dear Sir

I beg to make application for an increase of salary.
When I came to the Red Pleasant School over two years ago there was an average attendance of three. The school has now an average of over twenty three.
I consider $500/00 per year is not adequate for a fully qualified teacher.

MEMORANDUM.

Mr. Scott,-

GK

Mr. Marshall, teacher of the day school on the Red Pheasant Reserve, applies for an increase in his salary. He is now in receipt of $500.00 a year and his wife, who is matron, is paid $300.00. They are conducting an improved day school and from the reports from the Agent and the late Inspector, Mr. Chisholm, they are doing excellent work and meeting with marked success. When Mr. Marshall took charge of this school in December, 1913, the average attendance was only four. The average for the past four quarters has been 23 out of an enrolment of 28. Mr. Marshall is the holder of provincial qualifications and has had several years experience in public school work and taught for two years at the Battleford Industrial School. Four of the improved day school teachers receive $100.00 a year more than Mr. Marshall, who is doing as good if not better work, and he should be paid at the same rate.

Sir,-

I beg to advise you that Mr. Marshall of the Red Pheasant School has enlisted for the front. Mrs Marshall has taken over the control of the school and Mrs. Weaver has taken over the field matron's work. Mr. Weaver is the Church of England missionary at Red Pheasant and he and his wife purpose living at the school residence. In my letter of Nov. 1, 1915, advising the Department that Mr. Marshall was enlisting, I stated that Mrs. Brown was to take over the field matron's work. Rev. Canon Matheson, who represents the Bishop of Saskatchewan in this district has advised me to place Mrs Weaver in this position, as I understand that Mrs. Brown will shortly be stationed elsewhere. This should be a suitable arrangement as Mrs. Weaver has had some years experience with the Indians of the West and should make a capable matron.

Extract from report of Agent Rowland on the Red Pheasant School for the month of January, 1919. Original on 117054/7.

I have to report what I consider is an irregularity on the part of Rev. Fr. Lacombe, the R.C. Missionary. On the 20th instant, Geo. and Hoskin Thomas and Isaiah Benson were absent, and when asked by theteacher the reason, they informed her that the Rev. Fr. Lacombe had them at his house for religious instruction. I consider that Rev. Lacombe should not take these children away from school for this or any other purpose, but his action in this respect is on a par with some of his previous performances, and of which the Department have had notice.

DEPARTMENT OF INDIAN AFFAIRS CANADA

Ottawa, April 2, 1919.

MEMORANDUM.

Mr. Scott,-

Mr. Agent Macdonald writes that Thos. Wattunee, one of the drivers for the Red Pheasants school, has made application for an increase of 50 cents a day. He is now paid at the rate of $1.50 and the Department is also paying another driver for bringing the Stoney children to the school at the rate of $1.00 a day.

The driving of these children is costing the Department about $500.00 per annum. If Wattunee's wages are increased, the other driver will likely ask for an increase also, which, if granted, would bring the cost of transport up to about $700.00 a year.

The average attendance for the past two years has only been thirteen and the highest enrolment thirty-one. The teacher, in his last annual report, states that all the children live within three miles of the school and that the average distance of the pupils' homes from the school is only two miles.

The driving of the pupils to school in the Carlton Agency was discontinued sometime ago, without there being any appreciable difference in the average attendance.

If Wattunee is not willing to continue for $1.50 a day I would be inclined to accept his resignation, which Mr. Macdonald says he handed to Mr. Rowland. The children should be able to get to school during the spring and summer, even if they have to walk.

In reply to Dept Letter No117054-1 April 29th I beg to report that up to date I have been unable to get any one to drive the Stoney children to school, they would not even consider $2.00 per day, which is all it is worth. At a meeting there yesterday I told the band that unless they made arrangements to get their children to school at an early date that steps would be taken to enforce the act.

If they do not produce a driver I would advise that Thos Wattunee the driver for Red Pheasant be given this work and drive for the two Reserves at $4.00 per day, as the Stonies live mostly in a Villiage and are not scattered like the Red Pheasant Reserve.

DEPARTMENT OF INDIAN AFFAIRS

Ottawa, April 10, 1920.

MEMORANDUM.

Mr. Scott,-

His Lordship the Bishop of Saskatchewan in a memorandum to this Department states that the teacher of the Red Pheasants School will be leaving on June 30th, next. He requests to be informed as to what salary the Department will pay for a teacher having a Normal School Certificate. He states that he has a married man in view, the wife of whom is a splendid all round teacher, and further asks to be informed as to whether there would be work for both of them, and also asks whether a single male or female teacher would be preferred instead.

With reference to the question of salary, we are, in several instances, paying $900.00 per annum, which is much lower than the salaries paid in the provincial schools. I think there is no doubt that to obtain a competent teacher we will have to pay at least $900.00.

There is no need for the services of a married couple, as field matron work has been discontinued, not having met with much success. I think that a female teacher having the necessary qualifications would be the most suitable for this school.

I shall be pleased to be informed as to the salary that will be allowed and also whether a married couple or a female teacher be engaged.

There is an enrolment at this school of 25 pupils, with an average attendance of 15. The present salary paid is at the rate of $600.00 per annum.

Ottawa, April 15, 1920.

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's memorandum of the 31st ultimo regarding various matters in connection with the Indian day schools under your auspices in the Province of Saskatchewan.

In reply, dealing with the case of each school in the order in which they are mentioned in your memorandum, I beg to say, first,- with reference to the Fort a la Corne Day School, as you were informed by letter of January 13th, last, the question of providing educational facilities for the James Smiths Reserve is being considered by Mr. Commissioner Graham. He has asked that this matter stand in abeyance until next summer, when he will personally investigate and advise as to the best plan to provide educational facilities for the children of this reserve. He will consider the erection of a teacher's residence at Fort a la Corne; moving the residence from the James Smith's School; the re-opening of this school, or the removal of these schools to a more central point on the reserve, and report as to which of these schemes he considers to be the most advantageous.

Second,- Thunderchild's Reserve. The question of providing a day school for the children of this reserve cannot be favourably considered at thepresent time. It is hoped to be able to provide for the eduontion of these children in residential schools.

Third,- Red Pheasants. It is noted that the teacher will be leaving on June 30th, next. The Department will be prepared to pay a salary at the rate of $900.00 per annum for a teacher with a Normal School Certificate. There is no need for the services of a married couple at this school, as the field matron work has been discontinued and there is no need for a dispenser. It is considered that a single female teacher would best meet the requirements at this school, and the Department will be pleased if you will endeavour to secure the services of a female teacher with a Normal School Certificate in time to take charge upon the re-opening of the school after the summer holidays..

Fourth,- Big River School, Carlton Agency. In November, last, Your Lordship brought to the attention of the Department the question of re-opening this school and appointing a teacher. Mr. Agent Weir was instructed to inform you that a salary at the rate of $600.00 per annum would be provided and to request that you endeavour to obtain a suitable teacher. The Department will be prepared to pay a salary at the rate of $900.00 per annum for a teacher with a Normal School Certificate.

With reference to the accommodation, the present house is owned by the Church and it is considered that Your Lordship should arrange to have it repaired and made comfortable to provide the necessary accommodation. Mr. Commissioner Graham is being written to regarding school matters on this reserve and requested to advise the Department as to his views in connection with the carrying on of the day school and the repairs necessary to the school building. As he is familiar with the conditions at this point the Department will await his decision regarding the re-opening of the school.

Fifth.- Regarding the salaries the Department is prepared to pay for qualified teachers I beg to say that a salary at the rate of $900.00 per annum will be paid to teachers having Normal School Certificates. The names, qualifications and experience of teachers nominated by you should be submitted for approval in each case.

Mr. J.M. Marshall, Teacher at Red Pheasant has tendered his resignation to take effect June 30th or at the end of this quarter, on account of his health. This is to be regretted, as Mr. Marshall has been making a great success of this school and is trusted and liked by the Indians of both Reserves.

In filling this position I would recommend that a man and wife be hired to act as Teacher and Field Matron, as they have been without a Matron since Mrs. Marshall's resignation last summer. Of course if the woman has children they are not a success, as Field Matrons and not able to give the time to the Matron's work that they should. RED PHEASANT DAY SCHOOL.

This school is on the Red Pheasant Reserve, close to the boundary of the Stony Reserve and the children from both reserves attend it, being driven to and from school each morning and afternoon. The teacher Mr. J. M. Marshall takes a genuine and personal interest in the children and the progress in the last year has been exceptional. Mr Marshall has the confidence of the people of both the reserves and the results can be seen in his quarterly reports and averages. A noon meal is served to the children each day by Mrs. Marshall.

It is to be regretted that Mr. Marshall has tendered his resignation to take effect at the end of the next quarter as he will not be easily replaced.

The school and teacher's residence are good stone foundation, frame and shingle buildings, well lighted and sanitary.

I have to acknowledge receipt of your letter No. 117054-1 of the 16th instant, in which you inform me that His Lordship the Bishop of Saskatchewan has been advised that Mr. Marshall was giving up his duties on the 30th of June next. I also note that His Lordship has been informed that there would be no need for the services of a married couple at this school.

I might state that a married couple is exactly what is needed at this point and is what Mr. Macdonald recommended in his letter. The man could act as teacher and the woman as Matron. If we do not engage a married couple, surely we could not expect a lady teacher to live on the prairie alone among a lot of Indians. I think His Lordship should again be communicated with and put right on this matter.

Dear Mr. Graham,-

Your letter of April 23, last, regarding a teacher for the Red Pheasant school, has been brought to my attention. His Lordship the Bishop of Saskatchewan, in writing, stated that he had in view a married couple , the wife being a qualified teacher.

As there will be no work for the husband in this case, it was not considered advisable to make such an appointment. The Department had in mind your previous reports, regarding the lack of efficient work on the part of field matrons, and it was considered that it would be more advisable to have a single, qualified teacher undertake the classroom work. I, however, would have no objection to the appointment of a married couple if the wife is competent to do the field matron work, and the husband is a qualified teacher. It is almost impossible, however, to obtain the services of people of this kind at the present time. His Lordship, however, will be informed that, if he can secure the services of a competent married couple, the Department will make the appointment.

Yours very truly,

Deputy Superintendent General.

Right Reverend Sir,-

Referring to that section of official letter of April 13th, last, regarding the Red Pheasant Indian Day School, I beg to say that, in re-considering the matter the Department feels that perhaps it would be impossible to secure a female teacher to live alone at this school.

In view of this fact the Department would approve of your securing the services of a married couple, provided that the husband is a qualified teacher and that his wife would be competent to do the field matron work.

If you are able to secure the services of such a couple you will be good enough to furnish the Department with their names and qualifications.

Dear Mr. Scott:

I have your letter No. 117,054 of the 3rd instant regarding a teacher for the Red Pheasant School, and note that you are communicating with the Bishop of Saskatchewan and informing him that if he can secure the services of a competent married couple, the husband can be engaged as teacher and the wife as Field Matron.

I have not forgotten my previous comments on the lack of sufficient work on the part of Field Matrons, but the point I wish to emphasize is that it would be difficult to retain a lady teacher, who was compelled to live alone on the prairie among Indians.

I realize it is difficult to obtain the services of people of this kind at the present time, and I hope His Lordship, the Bishop will be able to secure a competent couple who can perform these services satisfactory.

II Red Pheasant's Reserve School.:- The teacher Mr Marshall leaves on the 30th June. I am in correspondence with twb possible qualified teachers. I hope to get a man and his wife both well educated and with some experience in Ind'n schools Alberta. There is a rumour thet the I.D. (i.e. either Commissioner Graham or the local Indian Agent) talkes for advertizing for a teacher Please dont let them. We would much rather continue to find the teacher. It has always been an Anglican school and an Anglican reserve. The Rom. Cath's are very busy w with propaganda and underground working to get the rs reserve.

Sir,-

The Department has received a communication from His Lordship the Bishop of Saskatchewan regarding the securing of a teacher for the Red Pheasants Indian Day school, to succeed Mr. Marshall after the summer holidays. He states that he is in correspondence with two possible qualified teachers and that he hopes to get a man and his wife, both well educated and with some experience in Indian schools, and requests that the nomination of a teacher be left entirely in his hands.

It is considered that it would be advisable to comply with His Lordship's request.

Right Reverend Sir,-

With reference to that portion of Your Lordship's communication of the 25th ultimo regarding the securing of a teacher and his wife to take up duties at the Red Pheasant's Indian Day School after the summer holidays next, to succeed Mr. Marshall, I beg to say that Mr. Commissioner Graham is being informed that you are taking the necessary action to secure a teacher and that this matter be left in your hands.

It is hoped that you will succeed in obtaining the services of a married teacher and that he and his wife will have the necessary qualifications for a teacher and matron respectively. The name, age, qualifications and experience of the parties secured by Your Lordship should be forwarded for the consideration of the Department.

You will be advised at a later date concerning the school at Round Plain on Reserve No. 94A.

Dear Sir,-

Re Red Pheasants' Indian School.

We have now a possible teacher in prospect for this School and desire to know what remuneration will be provided by the Department. The party consists of a man and wife, the latter having good normal School Certificate, and both have had experience in Indian work at the Mackay Boarding School. Latterly the wife has been teaching in the school at Big Eddy near The Pas. The matter was taken up with Mr. and Mrs. Bird before the Bishop of Saskatchewan left for England. In his absence and that of Archdeacon Mackay at Lac la Ronge I have been taking up the matter as Bishop's Commissary and would be glad to have a definite offer to make to them for their acceptance before submitting their names to you for the appointment. I understand that the stipend for a teacher with the necessary qualifications is now $900 a year. This would be, I take it, for the teaching only, and the Bishop gave me to understand there would be a further allowance for a married couple.

I shall esteem it a privilege to have an early reply so that there may be no delay in making an appointment.

Yours faithfully,

Very Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's letter of the 27th ultimo, with reference to securing a teacher for the Red Pheasant Indian Day School.

In official letter of June 1st, last, addressed to His Lordship the Bishop of Saskatchewan, the Department expressed the desire to secure the services of a married teacher, provided that he and his wife had the necessary qualifications for the duties of teacher and matron, respectively.

From your letter it appears that Mrs. Bird would act as teacher. No mention is made of what duties Mr. Bird would perform. The Department does not, therefore, feel in a position to sanction their appointment as it is felt the greater success will be met with if a married couple were secured with the qualifications outlined in official letter of June 1st.

Very Reverend Sir,-

I have to acknowledge the receipt of your telegram of the 16th instant with reference to the appointment of Mrs. Bird as teacher of the Red Pheasants Indian Day School.

In reply I beg to confirm the following night letter-gram,which is being sent you today,- "Department cannot consent to appointment of Mrs. Bird to Red Pheasants School unless husband is a qualified teacher and Mrs. Bird will perform field matron work".

As you have been informed the Department desires to secure the services of a married couple, the husband to be a qualified teacher who will perform the duties in the class-room while his wife will act as field matron. As it is not stated what qualifications Mr. Bird possesses nor what duties he will perform, the approval of their appointment cannot be considered until this information is furnished. If he is a fully qualified teacher it would consent to his appointment to that position and that of his wife as field matron. A married couple should be secured with the necessary qualifications as teacher and matron respectively and the Department must insist, in the interests of the work on this reserve, that a married couple having the necessary qualifications for these positions be secured.

Re Red Pheasants' Indian School.

On behalf of the Bishop of the Diocese of Saskatchewan I beg to nominate for the vacancy in this school Mr. and Mrs. E. V. Bird, now at Big Eddy, The Pas, Man. Mr. and Mrs. Bird have both been engaged in Indian work at the Mackay Boarding School, The Pas, and latterly Mrs. Bird has been teaching in a school near there. Mrs Bird holds a second class Normal Teachers' Certificate for the Province of Saskatchewan and taught for some time in the public schools of this Province. She left this work to go into Indian work at the Mackay School, relinquishing a much larger salary from Missionary motives. Both are desirous to give their lives to help the Indian.

In view of the fact that they must go almost immediately if the school is to be opened at the proper time I have instructed them to be ready to go as soon as I receive word of their appointment by the Department. Will you please wire me whether you accept this nomination or not and please follow at the earliest date possible with instructions in reply to my letter of July 27th.

Rev. Sir,-

I have to acknowledge the receipt of your telegram of the 18th instant in further reference to the appointment of Mr. and Mrs Bird as teacher and matron respectively on the Red Pheasants Reserve.

In reply I beg to confirm the following telegram of today's date:- " Department will approve of appointment Mr. Bird as teacher and Mrs. Bird matron Red Pheasants Reserve".

The appointment of Mr. Bird as teacher is approved on the strength of your recommendation and in view of the fact that he formerly taught in the Mackay Boarding School and had experience as a pupil teacher in England and also that Mrs. Bird will be responsible for the teaching in the class-room and that he will act under her direction, also that, as stated by you, the appointment is approved by Mr. Agent Macdonald. I may add, however, that the Department is not satisfied with the qualifications as teacher which Mr. Bird possesses. His appointment is approved on the understanding that his retention in the position will depend upon the success with which he meets in the work. The salary provided for the teacher at the Red Pheasants School is $600.00 per annum and for the field matron $300.00 per annum, with bonus additional during the time it is continued to teachers in Indian day schools.

Instructions will be sent regarding the duties to be performed by the field matron.

Mr. Commissioner Graham and Mr. Agent Macdonald are being informed of the appointment of Mr. and Mrs. Bird.

Sir,-

I have to acknowledge receipt of your letter No. 105-6-1 of the 20th inst. advising me of the appointment as Teacher and Field Matron respectively on the Red Pheasant Reserve, of Mr. and Mrs. E.V.Bird. I note that the Department is not altogether satisfied with the qualifications which Mr. Bird possesses for the duties as teacher, but that he is prepared to teach under Mrs. Bird's directions, and that the latter will be responsible for the teaching as well as attending to the Field Matron work. This does not appear to me to be a satisfactory arrangement, for if Mrs. Bird is to direct the teaching at the school, her work as Field Matron will probably suffer.

In view of the circumstances narrated in your letter, I am requesting Mr. Agent MacDonald to report to me as to the success of this arrangement.

Mr. and Mrs. Bird, out of their interest in the welfare of the Indians gave up positions from which they derived a joint income of $175 a month, besides free house, to accept this work. In view of their experience in Indian work, their knowledge of its difficulties, their qualifications, and their readiness to sacrifice their own personal interests for the work, I feel that no mistake has been made. Very Reverend Sir,-

I have to acknowledge the receipt of your letter of the 1st instant, in which you inform the Department that Mr. and Mrs. Bird, who have recently been appointed as teacher and matron respectively on the Red Pheasants Reserve, have proceeded to take up their work.

The bonus allowed is at the rate of $150.00 per annum, each. This bonus, which is appropriated by parliament, is for the fiscal year ended March 31st, next, only.

The salary of $900.00 allowed for teachers having Normal School certificates will also be supplemented by the bonus at the above rate. I may say that this salary will only be paid in cases where teachers having Normal School certificates are appointed to schools in which there is a good average attendance. In cases where the average is small the Department would not feel warrented in paying salaries at that rate.

RED PHEASANT DAY SCHOOL.

This school is situated on the Red Pheasant Reserve and serve the Stony Reserve as well. The school is a modern building 22 x 24 ft. with basement. It is heated with a hot air furnace and is a good frame building on a stone foundation. The walls and roof require repainting as the paint has not been renewed since the building was erected seven years ago. The teacher's dwelling and pupils dining room is also a commodious frame building. The interior of the dwelling has been recently kalsomined throughout by the teacher. The outer walls and roof require painting.

The old well is situated about 100 yards from the school at the edge of a slough. It does not provide sufficient water and should be deepened at once and put in order and a pump provided. The water supply is now hauled from the farm house over a mile away.

Mr. F. V. Bird and his wife have just recently been placed in charge as teacher and field matron, respectively. I feel satisfied that the Department has made a good selection in these people both of whom have had considerable experience at teaching Indians. A large garden has been planted and allowed to become a forest of weeds. Mr. Bird, although only two weeks at the school has got it cleaned up and is also getting the premises neat and tidy. Two drivers are employed to bring the children to school. The number enrolled is 25, six girls and nineteen boys. The average attendance during the past year is 20, which is good for an Indian day school. The class standing shows 19 in Standard 1 and 6 in Standard II. As the school has just been re-opened the attendance was small only six being present on the date of my visit. They looked bright as well as being clean and tidy.

Sir: -

I beg to inform you that I am in receipt of a letter from Agent Macdonald in which he informs me that he has received and accepted the resignation of Mr. and Mrs. E.V.Bird, teacher and field matron at the Red Pheasant and Stoney Reserves to take effect August 20. I understand Mr. and Mrs. Bird are going to take charge of the MacKay Boarding School at The Pas.

I wish that the Department would make a careful selection for the positions that are being vacated as it is important that we should have an extra good teacher and matron at this point.

Your obedient servant,

Right Reverend Sir:

I have to inform Your Lordship that Mr. Commissioner Graham, of Regina, has accepted the resignation of Mr. M. V. Bird, who has been teacher at the Red Pheasant Indian Day School, south of Battleford. This is a promising school, and I wish to urge that, when you are arranging for a new incumbent, a man properly qualified as a teacher be chosen.

The Department has, in the past, allowed a salary of $600, supplemented by $150 bonus. In the event of a certificated teacher being appointed, we are prepared to allow $800 per annum, plus bonus.

The position of field matron for the Red Pheasant Reserve has been filled by Mrs. Bird, the wife of the teacher, and the Department can likely arrange with the Civil Service Commission to have the wife of the new incumbent act in this capacity, provided she is qualified and willing to assume the duties. The salary of the field matron is at the rate of $300 per annum, supplemented by any bonus provided by law.

I trust that Your Lordship will be able to co-operate with the Department, and that satisfactory officers will be nominated in the very near future.

Yours truly,

J. D. McLean,
Acting Deputy Superintendent General.

Dear Sir;

Referring to your letter No. 105-6-1, of the 11th inst. which has been placed in my hands by the Bishop of Saskatchewan, I have conferred with the Bishop regarding a teacher to take the place of Mrs E.B. Bird, at the Red Pheasant Indian Day School. This is, as you state a promising school, and we are anxious to follow your instructions, and have the work taken up by properly qualified Officers.

I note that your wish is ~~that~~ "a woman properly qualified as a teacher be chosen". We will endeavour to find a qualified male teacher whose wife could fill the office of Matron. Such a combination however is very difficult to find

May I ask if the Department would favour the appointment of two lady workers, such as we have at Little Pine's, ~~School~~ where the School is an undoubted success.

There is a Miss Schultz, who has lately returned from Lac la Ronge, where she has been teaching in the Boarding School at that place. She is not a certificated teacher, but she has had long experience in teaching Indian Schools, and she has good recommendations, among them one signed by Ourselfs. If ~~I~~ would the Department favour her appointment if an assistant were found who could fill the office of Field Matron?

Very Rev. Sir:

I have your letter of the 22nd instant, relative to the appointment of a teacher at the Red Pheasant Indian Day School. I note that you are bending your energy towards a satisfactory solution of the difficulty.

I regret that the Department cannot give favourable consideration to the appointment of Miss Schultz. Her services, when in the employ of the Department some years' ago, were only fairly satisfactory. I am pleased to state, however, that the Department will approve of the appointment of a lady teacher on condition that a field matron also is found. The salary payments in this case will be at the same rate as those mentioned in official communication to His Lordship the Bishop of Saskatchewan of the 11th instant.

I should be grateful if you would continue your efforts to secure satisfactory incumbents for these positions at the Red Pheasant Indian Day School.

I beg to acknowledge the receipt of your letter No. 105-6-1, of the 28th ult. referring to the securing of suitable workers for Red Pheasant School in the Battleford agency. I am making every effort I can to secure satisfactory incumbents for the positions at this school.

I am writing now to ask if the Department would consider Mrs and Miss Godfrey suitable as Teacher (no) and Field Matron (53) respectively. They were for some years in charge of the South Edmonton School, and later the Sturgeon Lake School. Mr Godfrey went overseas in the war, was severely wounded but has I think quite recovered, and is now in the Government Land Office in Winnipeg. I should be greatly obliged by an early reply, but at the same time I shall be on the look out for other likely workers.

Duncan C. Scott Esq
Ottawa. Ont.

As on former occasions you have kindly allowed me to address you personally, I am again soliciting your consideration of a matter which is troubling me.

In June 1922 the Ven. Archdeacon J A MacKay again expressed a wish that Mr. Godfrey & I would return to the Indian work, as he desired to have someone to offer to the Department for the Little Pines Indian day school who would be acceptable to the Dept. on account of successful work previously accomplished.

As Mr. Godfrey's health (the breakdown of which had necessitated us leaving Sturgeon Lake) was completely restored, we willingly offered to take up the work. However, the Very Rev gentleman notified us some months later of the Dept's decision not to re-open Little Pines School.

On the 8th inst. I received a further letter from the Archdeacon, proffering the positions at the Red Pheasant Indian day school to the wife and myself, and we telegraphed him (as requested) "Gladly accept Red Pheasant Mr. Godfrey & self."

I am now in receipt of a letter from him in which he advises me that his recommendation was not accepted, and the Dept. stated that it must have a certificated teacher.

Sir, apart from Mrs Godfrey's First Class English Certificate, I have never claimed to be certificated, but have worked in conjunction with Mrs Godfrey's direction, and have always understood from former Indian Agents Messrs McArthur and Borthwick, as well as from Mr. Inspector Chisholm, that the teaching given and the results obtained by each of us were scarcely equalled in the West, and as far as their knowledge went was not excelled.

Allow me, Sir, to say that I know that there are few teachers in Canada to-day who can excel Mrs Godfrey as such, and as I fully copied her methods and never attempted to alter unless we both saw fit, I have always attributed my success at the Sturgeon Lake School as owing to my wife's training and experience.

The fact that the Ven Archdeacon MacKay has offered two schools to us, and that former Bishop Newnham offered me again the Sturgeon Lake School in 1917 (at which time I was taking medical treatment at the Military Hospital Saskatoon, owing to wounds received in

in France, and not physically fit at that date to take a School) should be proof that the work in which we gave our best is standing the test of time, and we have hitherto always flattered ourselves that the Dept. itself fully recognised the success of the united efforts of Mrs Godfrey + myself

Having sincerely the good of the Indians at heart, I have several times since sent in an application for an appointment as Indian Agent, but the usual verdict of the Civil Service Commissioners was that "Mr. — was the successful applicant." In my applications I have always referred to my experience with the Indians both before + when teaching school, and given as a reference my record in the Indian Dept. It would appear that these applications have been futile on the ground that the reference given was not sufficient to warrant the Dept. again employing me as a teacher in an Indian school.

Among the Indians themselves there is a general desire to have our presence with them again. When casually calling in at a meeting of the Anglican Synod held in Prince Albert in 1922, an Indian from Sturgeon Lake (one William Charles) immediately brought one of the clergy to me, to introduce the Rev Canon Paul to "the teacher whom the Indians wanted back", and, Sir, I had left them eight years before, and have never been in that Reserve

Reserve since. I felt flattered, but as the wife and I have been repeatedly appealed to by the Indians at Fort a la Corne to return to them there (where I was but a silent and un-official helper) I was not wholly surprised.

Can you wonder, Sir, that we are taking the Dept: recent decision much to heart?- not so much on account of loss of position applied for, but that it would seem that our former sacrifice in the old days when the Indian Day school work was in the pioneer stage, and the success attained thereto, is as a dead-letter and wholly forgotten by the Department of Indian Affairs

As a proof of the above statement of success in the pioneer days, may I quote from a treasured letter in Mrs Godfrey's possession from Hon. David Laird, which reads

Winnipeg 2nd Oct 1907

" . Madam

I am very pleased to have a very gratifying report from Mr Inspector Chisholm in regard to your work at South Fort a la Corne.

I wish to inform you that the Department carefully considered the request, made by Archdeacon MacKay, for your appointment. It is desired, if possible, to obtain the services of a qualified teacher for the important work at this school. Dear Sir-

Referring to previous correspondence regarding a teacher for Red Pheasant Indian Day School, which is still vacant, I beg to inform you that an application has been made oy Mr. Geo. F. Bradley, of Naicam Sask. I am not personally acquainted with Mr. Bradley. He states that he has had twelve years teaching experience, that he has a second class certificate for this Province, that he has been Principal of a two roomed village school for two years, and served overseas for three years. He is 34 years of age and married. Mrs Bradley, He states, is not a trained nurse, but she has had much experience in nursing. She has an excellent knowledge of sanitary requirements, and he feels confident that she would prove an enthusiastic Field Matron.

I have asked Mr. Bradley for referrences. If his statements are confirmed, may I ask what joint salaries the Department would offer?

Very Reverend Sir:

I have your letter of the 10th instant, in which you inform the Department that you are in correspondence with a Mr. G. F. Bradley, in connection with the vacancy at the Red Pheasant Indian Day School. In view of Mr. Bradley's qualifications, a salary of $800 for the ten teaching months, plus any bonus provided by law, will be allowed if he is appointed.

The position of field matron for the Red Pheasant Reserve is also vacant and the Department can, in all probability, arrange with the Civil Service Commission to have the wife of the day school teacher act in this capacity. Mrs. Bradley's qualifications are satisfactory, provided her household duties would not interfere with her field matron work. You should intimate whether or not there are any children in the family and ascertain how many hours per week Mrs. Bradley would be prepared to devote to the work on the reserve. The salary allowed for the field matron at this point is $300 per annum, supplemented by any bonus provided by law.

Little Pine's Reserve,

October 29th, 1923.

Mr. G[illegible] F. Bradley,
Naicam, Sask.

Dear Mr. Bradley:-

Thank you for your letter of the 16th inst. with enclosure. I have received a letter from the Indian Department dated 17th inst. in reply to mine recommending you for the Red Pheasant School, in which letter it is stated, "In view of Mr. Bradley's qualifications, a salary of $300 for the ten teaching months, plus any bonus provided by law, will be allowed if he is appointed".

"The position of field matron for the Red Pheasant Reserve is also vacant and the Department can, in all probability arrange with the Civil Service Commission to have the wife of the day school teacher act in this capacity. Mrs. Bradley's qualifications are satisfactory, provided her household duties would not interfere with her field matron work. You should intimate whether or not there are any children in the family and ascertain how many hours per week Mrs Bradley would be prepared to devote to the work on the reserve. The salary allowed for the field matron at this point is $500 per annum, supplemented by any bonus provided by law."

As the bonus at the present time is I believe $150, this would mean that you would receive $950 and Mrs Bradley $450, altogether $1400, the same as I understand, you are receiving in your present situation.

As I stated in my former letter, the Department supplies all the fuel. There is at the present time a year's supply of wood fuel piled up conveniently to the house and school. Also there is a supply of vegetables, stored in the basement of the residence.

With regard to furniture, there is not any in the residence of much account. As you intimate that you have a good supply in your present residence, it would probably be advisable for you to bring with you what you really need.

There is a good kitchen range, with all the utensils required for the preparation of the mid-day meal for the pupils, also dishes, plates, cups, &c.

In seeing after the preparation of the mid-day meal Mrs Bradley would generally be occupied during the forenoon, but I would assume that in the afternoon she would be free for any duties that might require attention in connection with her office as field matron.

I am hoping to be able to spend a week or so with you at Red Pheasant's, to help you to become acquainted with the people and the work, and to make a fair start.

I am at present living mostly at a similar school in the Battleford Agency. The work at Little Pine's is progressing successfully, and I hope to see Red Pheasant's school equally successful.

I am sending a copy of this letter to the Department with the request that if your appointment is decided on, you should receive notice to that effect direct from head-quarters.

Kindly let me know if you receive notice of appointment, in order that I may be able to make arrangements to give you all the help I can.

Hoping that you will receive the appointment, and that you will find the work congenial and encouraging.

Reverend Sir.

We were very pleased to receive your letter of the IO" inst. and we are adding further particulars which will perhaps assist you in making your report to the "Department".

As I stated in my last letter I hold a Second Class Professional Certificate for this province the number of same being [redacted] I49_20.

I have achieved remarkable success amongst our Scandanavian friends and de-light in the work .I have always been connected with the Church and have worked extensively with Sunday Schools and Childrens Clubs.

With regards to Mrs Bradley I would like to mention that she is an excellent cook and has had much experience in the care of childrem. She is quite capable of seeing to the preparation of the mid-day meal.

She is a good needlewoman and a great social worker. She is a thoughtful and patient nurse and much interested in the work .

I consider it a goodopportunity to be able to carry on with Missionery work in this country as I have always had an ambition in that direction.

It is somewhat ~~different~~difficult to get a testimonial from our New Canadians but Iam asking Mr Brigham ex Sec. Tres. of one of these districts to write you in this connection.

My present inspector is Dr. F. W. Harrison of Tisdale and I know he will be willing to answer any questions you mat put to him and I confidently refer you to him.Rev. T.Geach of Pleasant Valley and Rev. F. A. Sharpley of Naicam Will testify to my rxperience with boys clubs.

October 30th, 1923.

Sir;-

I beg to acknowledge the receipt of your letter No. 105-6-1, of the 17th inst. and in reply I enclose herewith,
1. Mr. Bradley's letter to myself containing information which the Department should have,
2. A testimonial from Rev. F. A. sharpley in favour of Mr. Bradley,
3. A copy of my letter to Mr. Bradley.

If the Department decides to appoint Mr. and Mrs Bradley to the Red Pheasant school, I would ask you kindly to notify Mr. Bradley direct, as soon as may be convenient. It would save time, as I am ver inconveniently situated with regard to mail communication, and to no tify me first would cause considerable delay. The school has now been vacant for some time, and should be opened as soon as possible.

I hope Mr. and Mrs. bradley will be accepted by the Department.

Sir:

I have to inform you that the Department has approved of the appointment of Mr. G. F. Bradley, of Naicam, Sask., to the position of teacher at the Red Pheasant Indian Day School. Mr. Bradley will be allowed salary at the rate of $800 for the 10 teaching months, plus any bonus provided by law. He has been instructed to communicate or report to you. I shall be pleased if you will give him any assistance possible as he takes up his new duties.

The Department will make arrangements with the Civil Service Commission, if possible, to have Mrs. Bradley appointed field matron. If success attends this effort, salary will be allowed her for her reserve duties at the rate of $300 per annum, plus any bonus provided by law. Mrs. Bradley is qualified to nurse, and, although she has two children of her own, is prepared to give the necessary time to the preparation of the noon-day meal for the children at the school and to the field matron's activity in the afternoon. Her appointment will be temporary for the time being. They will look to you for all their instructions. I have requested Mr. Bradley to write to you, intimating the probable date of the commencement of their duties.

Your obedient servant,

Sir:

I have to inform you that the Ven. Archdeacon J. A. MacKay, at present at Paynton, Sask., has forwarded your application for the position of teacher at the Red Pheasant Indian Day School. It is noted that you have a Second Class Professional Certificate, and I am pleased to state that the Department will approve of your appointment to the position at a salary of $800 for the 10 teaching months, plus any bonus provided by law. There is a residence provided, and, although it is partly furnished, it would be advisable for you to arrange to use your own. The kitchen range is, however, in good condition. You should correspond immediately with Mr. Indian Agent S. L. Macdonald, of Battleford, who has been informed of your appointment. You may look to him for all instructions and advice and for assistance in connection with your new duties.

The Department will also temporarily approve of the appointment of Mrs. Bradley to the position of field matron on the reserve. I note that she is qualified to do social work and to nurse. It is understood that she will be responsible for the preparation of the noonday meal for the children who are attending the school, and that she will become active on the reserve in the afternoons, doing field matron's work. Salary will be allowed her at the rate of $300 per annum plus any bonus provided by law and the Department will endeavour to arrange with the Civil Service Commission to have her appointed to the position permanently. I should be pleased if you would report to the Indian agent, without delay, and make arrangements to proceed to the school at your earliest convenience.

Sir:

With reference to your telegram of the 27th instant, informing the Department that Mr. G. F. Bradley, who was appointed teacher of the Red Pheasant Indian Day School, was unable to accept the position, I beg to confirm the following night lettergram of yesterday's date:

> "Please take up with Church authorities matter obtaining qualified teacher - preferably married man - for Red Pheasant School. If appointment not soon made you should arrange for disposal of vegetables stored at school."

You should take this matter up with the Church of England authorities with a view to their nominating a married man having the necessary qualifications to perform the duties as teacher, and his wife to carry on the work of field matron. If a married couple having the necessary qualifications are obtained, the Department would allow them salary at the same rate as was promised Mr. and Mrs. Bradley. The name, qualifications and experience of the person nominated by the Church authorities for the position should be forwarded for the approval of the Department.

If it is not possible to obtain the services of a teacher in the very near future, you may arrange for the sale or disposal of the vegetables which are stored at the school. We hope, however, that the Church authorities will be able to obtain a teacher at an early date.

Sir:

I have to acknowledge receipt of your night letter of the 31st ultimo, in which you inform the Department that His Lordship the Bishop of Saskatchewan has sent a single man to you for the position of teacher of the Red Pheasant Indian Day School. In reply I have to confirm official telegram of this date, as follows: - "Do not install single man as teacher Red Pheasant School."

I have also to inform you that Bishop Lloyd visited the Department some two weeks ago and was informed that we would give favourable consideration to the appointment of a man and his wife, or to the appointment of two lady teachers, in the case of this school. The Department concurs in your opinion that a school activity without a noonday lunch and without field matron's work on the reserve would be a failure.

Dear Mr. Ferrier:

(1). [redacted] With reference to filling the place of Mr. Quinney, the Indian school teacher who died recently at Onion Lake; we have a splendid chance of a fully qualified teacher there, Mr. Alexander Peterson, and I have asked Mr. Thenakew to send in a full statement of qualifications and character. Both seem to be what we want, and the Indian Agent decidedly approves. Of course it is the qualified teacher stipend that is needed.

(2). Re Presents. There seems to be a very decided dearth of qualified married teachers at the present time. In April we shall have several that I know of free. In the mean time to carry on, I sent an Irishman of very good educational standing and character, to keep the work going until a suitable married teacher was available. It was arranged that the Farm Instructor's wife assisted by an Indian woman would provide the midday meal, etc. This arrangement was apparently refused by the Indian Agent, and the teacher in question in disgust has gone off to New York.

I am very sorry to lose the man, because he had offered especially for Indian work and there are not too many offers for that work nowadays. In the meantime I am advertising, because neither my private correspondence nor the two Government Educational Department circulars, have so far been able to find what is wanted.

There are plenty of bits of girls to be had, but that is not suitable.

Believe me to be
Yours very faithfully.

Most Reverend Sir,

I wish to make application for appointment as teacher in the Red Pheasant School, Battleford.

I am an English University man. having read for three years at the University of Birmingham (England). I have had thirteen months English teaching experience and four months experience in Saskatchewan. I resigned my position at Prosperity School-Rosenville, for the purpose of taking the second class Normal School training at Regina, in which I am at present engaged.

My age is twenty four years and I am married (no children) My wife would be glad to undertake the work among the Indians, and has had experience of first aid work.

I have permission from the Principal (Col Perrett) of the Normal School to accept the appointment and he would if approached by you, allow me to leave the Normal School, when you would require the Red Pheasant School to be opened.

As a reference I would refer you to Col Perrett.

I have the honour to be, with highest respect,
Your obedient servant.

Dear Mr Ferrier.

I am sending you enclosed the application of Mr & Mrs N.S. Roberts for appointment as teacher and field matron on Red Pheasants Reserve. Battleford.

As you see Mr Roberts educational standing is very good and he has had some English teaching before he came to the school at Prosperity. Saskatchewan S,D 448.

He has been in the Normal school Regina completing the work for a Second Class certificate and is now ready to go to Red Pheasant as soon as the appointment can be made.

I have had a letter from our Maple Leaf secretary in Regina very strongly recommending Mr and Mrs Roberts for this work on the Indian Reserve. He tells me that he has interviewed Col Perrett the head of the Normal School and he is quite prepared to endorse Mr Roberts application.

Right Reverend Sir:

I have Your Lordship's letters of the 9th instant, addressed to the Superintendent of Indian Education, and enclosures with reference to the appointment of Mr. and Mrs. N. S. Roberts to the positions of teacher and field matron at the Red Pheasant Indian Day School. I have noted that Mr. Roberts is professionally qualified and has had some experience. The Department will approve of his appointment to the position of teacher and will allow salary at the rate of $800 for the ten teaching months, plus any bonus provided by law.

The position of field matron is not exempt from the operations of the Civil Service Act, but the Department will temporarily approve of the appointment of Mrs. Roberts at a salary of $480 per year, plus any bonus allowed by law. I have noted that Mrs. Roberts has no children and she will be expected to prepare a noonday meal for the children who are attending the school and do field matron's work on the reserve in the afternoons. The Civil Service Commission will be asked to approve of her permanent appointment, as soon as the necessary formalities can be complied with.

I am returning the communication from the Registrar of the Saskatchewan Department of Education, which Mr. Roberts will no doubt desire to retain in his possession.

Sir,—

I have just been informed by the Rev Mr Scheeby local Missionery, that he had received instructions from the Bishop to meet the New Teacher for the Red Red Pheasant School on tonights train.

I do not know if they have the Departments Authority to send a teacher and Matron, as no Official Instructions have been received. I am not in a position to turn over schools and equipment till authorized by the Department to do so and believe that the Church Authorities should be informed of this.

My impression was that the Churches were given the privilege of recommending the Teacher and after appointment, the Teachers, schools and Field Matrons were strictly under the supervision of the Department and took their instructions from there, as well as their salaries, I will await the Departments reply before accepting these people, unless on their arrival they have letters to show their appointment has been authorized.

Sir:

I have your No. 50-302 of the first instant, with reference to the teaching services at the Red Pheasant Indian Day School. I have to inform you that on the 14th ultimo the Department agreed to the appointment of Mr. H. S. Roberts to the position of teacher and to the temporary appointment of Mrs. Roberts as field matron, but the formal approval and notification to you were postponed until Mr. and Mrs. Roberts agreed to accept the positions. Upon receipt of your letter I telegraphed to His Lordship and I am in receipt of a reply to the effect that Mr. and Mrs. Roberts are already on duty at the Red Pheasant Indian Day School.

The Department approves of the appointment of Mr. Roberts to the position of teacher, at a salary of $800 for the ten teaching months plus any bonus which may be provided by law. The position of field matron is not exempt from the operations of the Civil Service Act, but the Department approves of the temporary appointment of Mrs. Roberts, at a salary of $480 per year plus any bonus allowed by law. Sir,—

I beg to report that the Red Pheasant Day school was reopened again on the 12th, many of the Indians were absent so that a full attendance was not possible. Mr & Mrs Roberts as Teacher and Matron are showing a great interest in their work and I believe they can make a success of this school.

The New Thunderchild Day School was opened on the 15th, and the same day the teacher Miss Amy. D. Wrigley wrote me a discription of the opening and I am enclosing her letter for the Departments information. Since the date of her letter considerable more school equipment has been supplied and the Desks should be along in a few days, so that she will be able to carry on the school in the regular manner.

I was at Thunderchild on the 13th and instructed her to open the school even without equipment, if only for a half day each time till the supplies were received, this was to get the children used to the time and routine as none of them had ever been to school before.

Sir:

I have your letter of the 21st instant, informing the Department that the teachers who were appointed have taken up duties at both the Red Pheasant and Thunderchild Indian Day Schools, and enclosing a communication from Miss Wrigley regarding the opening of the latter school. In reply I beg to say it is noted that the teachers are interested and that you consider they will make a success of their work.

Regarding the equipment for the Thunderchild Day School, it is hoped that you will be able to place the order for the desks as instructed in our letters of the 5th and 10th instant, and also purchase the stove and other material required. It is also hoped that the blackboards which have been ordered through the Government Stationery Office will arrive in the very near future, and that Miss Wrigley will be able to carry on without undue inconvenience until such time as all the classroom equipment is installed. Her letter describing the opening of the school was read with interest, and we are pleased with the good attendance and interest taken by the parents.

It is hoped that there will be a steady attendance of all the Indian children of school age who are eligible to attend at both these schools.

The Secretary,
Department of Indian Education,
OTTAWA.

Dear Sir,

The Indians on the Red Pheasant and Stoney Reserves have requested me to institute Eveing Classes for them this Fall and Winter.

The request comes principally from the Stoney Indians, whom I think would be greatly benefitted, as only a small minority speak English to any extent.

In accordance with the Regulations I propose holding two sessions per week of at least one and one half hours duration at 7-0 p.m., on Monday and Thursday evenings.

The subjects of instruction, according to the Regulations, shall be English, including Composition and Literature, Penmanship and Business Forms; Arithmetic; Canadian History and Civics. I would, however, suggest that Agriculture be added or substituted in this curriculum.

If these classes are inaugurated there will be a minimum attendance of at least ten persons.

I shall be glad to have your approval together with any instructions or suggestions as to the curriculum, conduct, etc.

If this project is carried through I shall require lamps for lighting the School, as at present there are none installed.

I am, sir,
Your obedient servant,
N. Stanley Roberts.

RED PHEASANT AND STONY DAY SCHOOL

I visited this school, which is situated on the Red Pheasant reserve, on October 1st. The pupilage for this school is drawn from the Red Pheasant and Stony reserves. There are two drivers engaged to take the children to and from the school, one from each reserve. There are 21 pupils on the roll, 11 boys and 10 girls. The average attendance for the quarter ending September 30th. was 13.2. The teacher, Mr. N.I.Roberts, was appointed last May. He holds a Second Class Professional Teacher's Certificate for the Province of Saskatchewan, and appears to be fairly well qualified for his work. His wife, Mrs. Edith Roberts, acts as Field Matron for the reserve. The pupils in the school are all in the Primary Grades, and it is a difficult matter to obtain satisfactory progress in a school such as this where the attendance is irregular.

Buildings

The school buildings are in a good state of repair, and the school room, children's dining room, and teacher's residence are kept very clean and tidy. The school premises also found in a tidy condition, but noted that some repairs the fence were required. The water supply is not large t is sufficient for their present requirements and the water of a very good quality. The class room is heated by hot ir and is quite large enough to take care of any attendance which may be anticipated from these two reserves.

DEPT. OF INDIAN AFFAIRS APR 26 1926 RECORDS

Extract from Report of Inspector Murison on the Red Pheasant Day School - dated March 23rd, 1926.

Original on file 105-1-6

Mr. Stanley Roberts is teacher. He has 2nd class Saskatchewan standing. His wife is the Field Matron. She prepares the midday meal for the children and visits the homes on the two reserves. I find her very capable and energetic. Her house and children's dining-room are scrupulously clean.

There are 22 pupils enrolled. The average attendance is about 18. The children were poorly clothed and some of them looked under-nourished. The Provincial School Inspector reported favourably on the class-room work. I was not favourably impressed. The pupils mumble and do not speak up well. They were backward in answering questions. Their writing is very good.

In a letter dated April 13th, 1926, Commissioner Graham makes the following remarks regarding the above report:-

The report on the Red Pheasant School is satisfactory. The Inspector, however, points out that the children are poorly clothed and some of them look under-nourished. Mr. Murison does not agree with the Provincial Inspector's report on the classroom work.

If this was not acceptable to the Department, perhaps the Church Authorities could send some woman to do the teaching and reside with Mrs Roberts till his return from the Sanitorium. If it is allowable to get some local Woman as teacher, please advise me what salary per month would be allowed. Right Rev. Sir:

A communication has been received from Mr. Agent Macdonald, Battleford, in which he states that Mr. N. S. Roberts, teacher of the Red Pheasant Indian Day School, will require leave of absence on account of illness for two or three months. He states that Mr. Roberts was examined by a specialist and that he will have to go to a sanitorium for special treatment. Mr. Roberts is very anxious to retain his position at the Red Pheasant School and resume work when his health permits. The Agent recommends that a local woman or girl be employed as temporary teacher, who could reside with Mrs. Roberts on the Reserve until Mr. Roberts is again able to resume duties.

The Department would agree to the appointment of a temporary teacher until such time as Mr. Roberts resumes duties, and I have to request that Your Lordship will endeavour to secure a woman teacher having the necessary qualifications, and complete arrangements with Mr. Agent Macdonald for her temporary appointment. We would allow a temporary incumbent salary at the rate of $60 per teaching month. It is hoped that you will be able to obtain the services of a competent person to take up the duties as teacher at this school during the absence of Mr. Roberts, and that the arrangements will be completed in time to reopen the school after the present summer holidays. Mr. Agent Macdonald will advise the Department as to what arrangements have been made for the securing of the services of a temporary teacher, giving the name, qualifications, etc.

Dear Sir,

Re: Sickness of Mr. N.S. Roberts, Teacher of Red Pheasant Indian Day School.

As arrangements were made with the Department to keep open Red Pheasant Day School for the period July and August, I would request that the Department should pay my husband's salary for this period, especially in view of the fact that Dr. Norquay, Medical Officer for the Battleford Agency, took his vacation during the period of sickness and another doctor had to be obtained.

A considerable hospital bill was entailed also, and I understood that employees were entitled to free medical attention.

I should be glad if the Department would consider the payment of salary to my husband for the whole period of sickness, as his health was excellent on taking up his appointment here and it is now seriously impaired. If this is not possible, I should esteem it a favour if the Department would kindly inform me what they can do in the matter.

Sir:

I beg to refer to your letter of August 17th, last, and the Department's reply of the 24th of the same month, relative to the appointment of a temporary teacher to assist Mrs. Roberts in the work at the Red Pheasant Indian Day School until such time as Mr. Roberts is able to resume duties. I shall be pleased if you will state whether the services of this substitute has been secured.

Owing to the ill-health of Mr. Roberts, this school was not conducted during July and August, last, and I shall be pleased if you will state whether it reopened on the first of the present month or not. It it has not yet reopened, please state the date on which it will do so. It is hoped that the Church authorities have secured a temporary assistant to carry on during Mr. Robert's absence. If so, you should state name, qualifications, etc.

I may say that we have a communication from Mrs. Roberts in which she requests payment of salary to Mr. Roberts during the months of July and August to reimburse him for expenses occasioned by his illness. As we only pay salary for ten teaching months in the year, it will be difficult to arrange for payment to Mr. Roberts for the period mentioned, as there would, if the school reopened on the 1st of September, last, be an overlapping in salaries. We are informing Mrs. Roberts that we will be unable to decide regarding her request until we are aware of the time when the school reopened after the summer holidays.

Your early reply giving the information asked for will oblige,

Oct 21st 19 26

Sir,—

I beg to report that I have Mr & Mrs Roberts resignations, as teacher and Field Matron respectively at Red Pheasant and Stony reserves, to take effect at the end of November. Mr Roberts will not perform his duties any more, but Mrs Roberts will continue the Field Matron work till that date. Mr Roberts has been informed by the Doctors that he will not be able to teach any more for a while but will have to take outdoor occupation, in the mean time Miss Ruth Johnson as substitute teacher will continue teaching and would like to carry it on till the Xmas Holidays, but this would mean hiring a temporary Matron for three weeks and as the house is only equipped with a cook stove and no other household goods, they would hardly move out this material for three weeks work.

The attendance generally, is so poor and as the Indians of both reserves apparently use every excuse to keep their children or avoid sending them to school, that I am inclined to recommend, that the school be closed up and the boarding schools used. It is certain that the attendance does not justify, the cost of keeping this school open with two school drivers, with matron and teacher and also the upkeep of the place. the only difficulty would be the absence of a Field Matron, and this could be overcome if the Department would appoint a nurse to cover this work as well as the Sweet Grass and Moosomin Reserves, she could be boarded very cheaply at the Farm Instructors places at each of these reserves and be from one to the other as the case demanded.

It is costing well over ten dollars a day to operate this school, with rarely over twelve small children in attendance and it is almost necessary to use coercion to get them there

Sir,—

These two reserves are about half and half Anglican and Roman Catholic and it is very hard to make a success of a denominational school and this school has never been what could be called a success, if shut down for a while and any available children recruited for the boarding schools or rather compelled to go, might bring these Indians to time and if occasion warranted, the school could be reopened again.

The few that are compelled to attend are so irregular, one or two months there and amonth away, that at the end of the year, there is very little benifit to the pupil. This cannot be overcome as the parents claim they have to go away to earn a living and take the children with them, if I go after them about it, there reply is always the same, that "if you feed us we will stay" as there is no rations to feed families for this purpose I cannot go any further with it and that is about the situation of the Red Pheasant day school.

I have purchased five tons of hay for the school before knowing of Mr Roberts resignation, but have made no arrangements for Fuel and will not do so till I receive further instructions from the Department, there is enough fuel and supplies on hand to finish the present term.

Right Reverend Sir:

It has been suggested that it might be advisable to close the Red Pheasant Indian Day School at the end of the calendar year. The attendance is only fair, the average having been 15.3 for the last two academic years. The expenses of the school are quite high: for, in addition to the salary allowed, special provision has to be made for driving the pupils to and from school and for a noonday hot lunch.

Does Your Lordship believe that the children of the reserve should be recruited for the Onion Lake and other residential schools, or do you feel that the day school should be continued for the time being?

The attendance is only fair, the average having been 15.3 for the last two academic years. The expenses of the school are quite high; for, in addition to the salary allowed, special provision has to be made for driving the pupils to and from school and for a noonday hot lunch.

Do you believe that the children of the reserve should be recruited for the Onion Lake and other residential schools, or do you feel that the day school should be continued for the time being?

IN YOUR REPLY REFER TO

COMMISSIONER'S OFFICE,

NOV 17 INDIAN BRANCH

Sir:-

I beg to acknowledge receipt of your 105-6-1 of the 28th. ultimo, suggesting the advisability of closing the Red Pheasant Indian Day School at the end of the calendar year, and reply to say that I heartily concur in this move. This school has not been getting results, and the cost of management is exceedingly high, almost $12.00 a day I am told, and it seems to me a very unwise policy to keep it open any longer, in view of the fact that we have two Anglican Residential Schools where these children can be admitted, viz:- Onion Lake and Elkhorn.

I am led to believe that we will experience difficulty in getting the parents to consent to send these children away to school, and the Agent says that they will not be sent for a year. This, of course, is absurd; they should be sent to school at the first of the year without fail, and, if necessary, compulsory measures should be taken to do this. The Moosomin Indians are a hard lot to handle, but I think it would be unwise to allow the children to remain at home any length of time if the school is closed. The parents should be warned of this now, and with your authority I will have Dr. Norquay at Battleford examine each child and make a report.

Kindly advise me what action you propose taking, so that I can take the matter up with the Principal of the Onion Lake School, and also the Elkhorn School if necessary.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Reasons why the School should not be closed now:

1. The policy of Saskatchewan has worked very effectively, hand in hand with the Indian Department in the work of placing these Day Schools on a good footing. We have tried to work jointly with the Department on a part to policy and I feel therefore that it would be advisable to wait till he comes back, before the question of closing the School is raised.

2. In the meantime we can find a place where will look upon the work of the school as a course. More one children would be coming up and I feel that by Jan. next, there should be promising to the roll. I will give the school my most special attention and I do why the little ones of [illegible] will be schools.

3. I feel that once the School is closed, it is very well always of its ever being re-opened. The [illegible] for this would be given to it before it is closed.

I would therefore recommend that the Committee of the Indian Department to defer the question of closing the School at least [illegible] end of June 1927.

Dear Canon:

With reference to the request to close the Pelly Day School I have this to report:

Prior to Mr.Cohen's appointment it was difficult to find a teacher for the School; this was owing to the fact that the Indian Agent asked us to recommend a married couple to fill the teacher's and matron's positions respectively. There was difficulty to find a suitable couple then. The other person was that Miss Pearson whose health was failing and we were looking for the appointment for the school.

Mr. and Mrs.Cohen were appointed on temporary, my own impression of Mr. Cohen from the beginning, was that he was not the man we were looking for an Indian school if there is to be success. However, he had a good report from the Provincial Inspector and I could not report incompetent work on the face of that. He usually has to get his enthusiasm in our teachers, he seemed to have had none. The result was that there seemed to be lack of motive power to enable him to put his heart into his work and he failed to get the confidence and the continued support of the parents. Any teacher that shows results with the children will have the support of the Indian parents.

Mr.Cohen's health was not of the best and he asked for leave of absence a few months ago. Miss Pearson was appointed temporary to stay with Mr.Cohen's coming to act as matron.

I hear that Mr. and Mrs.Cohen have resigned, their resignations to take effect at the end of this month, however I want to find out for sure and will let you know. I find the following facts:

1. There are 4 children on the roll.
2. There are two Indians to co-operate with the school each getting a dollar a day.
3. The children get the mid-day meal.
4. There were about 14 children at school on the day I was there. If the men the work on the road could be paid per child per day.
5. Mr. Cohen, in order to give all children with the chance, to stay the time over the time that could be paid for managing for other parents if the school continue.
6. I learn from one of the owners that Miss Pearson is doing good and all that the children of the parents to favourable to her.

Dear Sir:

In the absence of the Bishop I am replying (though rather late) to your communication No.105-6-1 re Red Pheasant, Indian Day School.

I have taken this matter up with the Rev. E. Ahenakew, our Indian Superintendent of that district, and have requested him to report to me the condition of things as he finds it and any recommendations that would enable us to come to a wise decision. I beg to enclose herewith, Mr. Ahenakew's report and suggestion.

I can only add that I am in accord with Mr. Ahenakew's desire that the School should be tried out a little longer under better conditions, and that if possible, the decision of the Department should be held over until the Bishop of Saskatchewan has returned from England, and has had opportunity to give personal attention to the matter.

I know that the Bishop is very anxious to keep open any Indian Day Schools that are meeting a real need, but at the same time he is aware that the Department must consider carefully, the question of efficiency and cost. If your Department can delay decision until the Bishop's return, I am sure that he will appreciate your consideration.

Sir—

I have Department letter No.105-6-1,Dec 7th, Re,keeping the Red Pheasant Day school open till the end of the year.

When reporting to the Department about the temporary Teacher and also in reporting Mrs Roberts resignation,I explained that the teacher could not stay after Mrs Roberts left on November 30th,as there is no living equipment in the house, so when Mrs Roberts left at the end of the month,we had to close the school,as stated in my monthly report.

If a new staff is sent to re-open the school they should be advised to bring or provide themselves with necessary bedding and housek-eping furnishings, the only Department equipment is the cook stove,there is a bed,dresser,table and some chairs,that belong to the Church Authorbties which was put there for the Teachers use and is still there.

There is sufficient wood therer for this winter but if there is a possibiljy of the school being kept open next winter,more wood should be purchased,as only green wood is available and has to be purchased a year ahead to be of any use.

Very Rev. Sir:

Relative to previous correspondence regarding the continuing of the teaching activities at the Red Pheasant Indian Day School, I now beg to inform you that the local Indian Agent states that this school has been closed since the end of November last, as both teachers gave up duties on that date and left the Reserve.

I have to request that a nomination be made of a suitable teacher to carry on the work during the balance of the present school year, viz. to June 30th, next, and I shall be pleased to have the name, qualifications, experience, etc., of the teacher secured. It is thought that until the question of the continuing of this school after the end of the present school year is definitely decided it would be satisfactory if the services of only one teacher were obtained for the balance of the school year.

The Agent states that if a new staff are sent to reopen the school they should be advised to take or provide themselves with the necessary bedding and housekeeping furnishings.

I shall be pleased to be advised at an early date of the name of the teacher whom the Church authorities have secured to carry on the work at this school for the balance of the school year.

Dear Sir,-

Re. Red Pheasant Indian Day School, No. 105-6-1.

Relative to previous correspondence regarding the continuing of the teaching activities at the Red Pheasant Indian Day School, I beg to call your attention to the following quotation from your letter of Dec.29th. " It is thought that until the question of continuing this school after the end of the present year is definitely decided it would be satisfactory if the services of only one teacher were obtained for the balance of the school year."

Yesterday I had a visit from Rev.E.Ahenakew who is now in charge of our Indian Work in the district including Red.Pheasant, and he is of the opinion that it would be difficult to test out the situation at Red.Pheasants if only one teacher is employed and the meals formerly given to pupils discontinued. We are anxious to see what can be done to build up the work there and Mr.Ahenakew believes that with the right staff good results may be obtained by the end of June, but he feels strongly that a teacher without an assistant can hardly cope with the needs of the situation.

$ 85/ per teacher 10 mos

$ 40/ per mo 12 mos

We have in view a Mr.and Mrs.Reynolds who are in every way exceptionally well qualified for the work at Red Pheasants but they could not go for the salary of one. Mr.Reynolds now holds a good position as principal of a school at Crescent Hill, Sask. He is anxious to take up the work at Red Pheasants but it would be necessary to have Mrs.Reynolds appointed as Matron at the usual salary in order that Mr. and Mrs.Reynolds could afford to make the change. Would your department please consider continuing the position and salary of Matron for the balance of the school year so that we might try out the school with Mr.and Mrs.Reynolds ?. The Reynolds could go in a month's time and that would give them about four months at Red Pheasants.

EXTRACT FROM REPORT OF MR. INSPECTOR MAGEE, dated September 27th, 1927, on his inspection of the Red Pheasant Indian Day School.

Original on File 105-6-6.

Teacher - Henry Reynolds.

Success. - Fair. An energetic and alert teacher but not fully in sympathy with his pupils who differ in mode of thought from children of white parents.

The teacher is confining his attention to reading, writing, number-work, nature work and modelling with plasticine. He has not paid much attention as yet to drawing and I suggested to him that he might use this as a means of interesting his pupils and leading them thus to a greater interest in other school work. He is also giving some attention to the practice of oral composition. The children are not advanced beyond Grade 1.

What is wanted of a teacher in such a school, it seems to me, is that he (or she) should be so in sympathy with the pupils that he would learn what interests them and make use of such material to prepare reading, number-work, and composition lessons which would especially appeal to the minds of these pupils for it is not natural that the same things would interest these pupils as is of interest to white children.

RED PHEASANT AND STONY DAY SCHOOL I visited this school on January 20th. Mr. H. Reynolds has been appointed as teacher since my last visit, and his wife as Field Matron for the reserves. Mrs. Reynolds also prepares the mid-day meal for the school children. They both impressed me as being well qualified to fill their respective positions.

There are 24 pupils enrolled: 12 boys and 12 girls. There were 19 present: 10 boys and 9 girls.

The average attendance for the December Quarter was 16.39 but an improvement was noted in the attendance for January. Two drivers are provided and there should be no excuse for not having a full attendance except in cases of sickness.

The parents are indifferent and do not appear to appreciate and take an active interest in the school. The attendance has been better under Mr. Reynolds and I look for further improvement as his influence becomes greater.

As an example of the attitude of the Indians I spoke to one man who resides not more than three

hundred yards from the school and asked him why his children were not attending. His excuse was that the driver had not called for them and if we wanted the children we should see that the driver brought them. I talked to that Indian quite forcibly.

The pupils were clean and warmly clothed althpugh some of them had a ragged appearance.

The school-room was clean but should be re-decorated. The twelve double desks are old and broken and will have to be replaced very soon.

Wash basins and individual towels are provided and the children required to clean up each morning.

Water is obtained from a well. The supply is ample and of good quality. The school premises were tidy but the fence requires repairing.

Mrs. Reynolds visits the houses on the reserves and appears to be very interested in her work.

Sir:

The Department has received the report of Mr. Inspector Murison on his inspection of the Red Pheasant Indian Day School in January, last. He states that the schoolroom, while clean, should be redecorated and that 12 of the double desks are old and broken and will soon have to be replaced. He also states that the fence requires repairs.

Please furnish a report at your early convenience as to the redecoration required to the interior of the school, and also state whether it is necessary to supply any new desks. You should also report on the repairs required to the fence. An estimate of the cost of the redecoration and repairs to the fence should be stated. If you recommend that any new desks be supplied, you should give the sizes and number of each size, also the name of the manufacturer of the desks at present in the school.

RED PHEASANT DAY SCHOOL.

This School is on the Red Pheasant reserve and close to the boundry of the Stony reserve and is to supply the needs of both reserves.

It is under the Anglican church out supposed to Non-denominational and for the use of the Catholics as well,but is not very successfull in so far as the Catholics attending,some do attend,but there is always a sort of undergound opposition from the parents and Missionaries.

The present teacher is Mr Henry Reynolds assisted by Mrs Reynolds as Field Matron and they are doing very good work,both attendance and progress being better than they have been for a long time.They take a genuine interest in the work and are good substantial people and already have the full confidence of the Indians of both reserves.

Two school drivers are employed here,one for each reserve and both have circuits of approximately seven miles to make twice a day,they also act as truant officers and usually take quite an interest in seeing the children get to school when they should.

This as well as Little Pine are improved Day schools where a hot noon meal is served for the Children and in many cases means the health of children,The Field Matrons prepare this mean,which usually consists of Hot stew with Beans,peas,Barley or rice and the usual school biscuit,some days Oat meal porridge is given as a change and the children all relish this meal.

The buildings with the exception of some interior decorating that is required and in good shape,and this will be done as soon as the school is closed for the holidays.

Now that the Dominion Goverment has become fairer and more generous (re Pensions). I beg that you will accede to my request, which I have delayed until my husband of the Battleford Court House Staff should be retired, this retirement comes into effect the end of this month after 12 years service; he is 72 years of age, his monthly salary is now $110.00; the Pension will probably be half that amount, an impossible sum for two people of our age to live on.

I am asking for a Pension for myself on account of 24 years continuous service as a Department Teacher on Indian Reserves (with never a reprimand) - at a Salary of $25.00 per month - without any other grant from Churches or outside sources. Not only did I teach, I cut out the clothes for my pupils & helped the mothers to make them; provided a daily lunch at our own house and expense, to encourage children to attend, also I acted as housekeeper for all these years - without any of the modern buildings and comforts now provided for Department Officials.

It is worth a good Pension from the time I resigned, for an educated white woman to have lived among Indians for 24 years. It would not create a precedent; for to my knowledge, there is no other Day School Teacher in Saskatchewan, with such length of service, I am now 66 years of age.

I commenced teaching 1st September 1888, in the Day School on John Smith's Reserve, Duck Lake Agency, living there with my brother who was Farming Instructor and unmarried; later several years we were exchanged with Mr & Mrs Joseph Price, Red Pheasants Reserve - Battleford Agency. My brother left Battleford for the South African Campaign - Sometime afterwards I married Robert Jefferson Farming Instructor of that Reserve & also of the Stony Reserve, I still taught until 1912.

This information can be verified from the files of both agencies.

I am sure that if it is necessary the Federal Member for this Constituency will endorse my application, as my husband has been a useful and life-long supporter of the present Government.

I am not burdening you with recommendations, but can refer you to Mr Hayter Reed for many years Commissioner and Deputy Superintendent of Indian affairs.

The children were clean and fairly well clothed. Progress is slow due, no doubt, to the irregular attendance. At present there are a number of cases of whooping cough on the Red Pheasant Reserve, so that no doubt the attendance will be held back on this account.

A noon-day meal is served and this is prepared in the teacher's residence and served in the children's dining room, which is an addition built on the teacher's residence.

The teacher here is qualified and exerts his best efforts towards the advancement of the children. His wife, Mrs. Reynolds, acts as Field Matron and I believe renders good service.

I am both,especially under the present conditions to put any employee out of a position,but at the same time would feel remiss,if I did not report,what I cannot help consider as unjustified expenditure.

I refer to the Red Pheasant Day School,this school is kept up,with a Teacher, two drivers and and a hot noon meal prepared by the Field matron at an annual cost of well over $2000.00, for an average attendance of approximately 11. making the cost per child in excess of the Boarding schools.

The attendance is poor,irregular and with the frequent absences, and the Indians apparently are indifferent and continual co-ercion is required to keep the attendance at what it is and in my estimat- with a very few exceptions is very little benifit and they might better be at Boarding schools.

The above situation is no fault of the staff or Teacher, Mr Reynolds has worked hard and Mrs Reynolds was one of the best Matrons we have ever had.This school never was a success and in my openion never will be,as stated,the Indians are indifferent are scattered over too big an area and on the move all the time.

The closing of this school for a while,might forceably bring home to the Indians, the benffits they have neglected.

Ottawa, April 25, 1932.

Dear Bishop Hallam:

Your Lordship will remember that, during our recent interview, there was one school with which the Department was not altogether satisfied. I have examined our files and I find I had reference to the Red Pheasant Indian Day School. This has been kept open during the past 4 years, at an average cost for current expenses of $2,400, with an additional $250 per annum expended on buildings, etc. The average attendance for the past year has been 11 pupils, and Mr. Indian Agent Macdonald, of Battleford, in a recent report, states the Indians are indifferent to the benefits of the school. It is true that they are scattered over a large area, but it should be remembered that there are two vans engaged by the Department for the daily journey to the classroom. These Indians move around for a part of each year, and this, of course, hurts the success of the school.

As I review the file, I find that the attendance has never been very satisfactory. Mr. Inspector Murison visited this school in January of 1928. At that time, he reported in part as follows: "The parents are indifferent and do not appear to appreciate or take an active interest in the school. The attendance has been better under Mr. Reynolds. I look for further improvement as his influence becomes greater." It is, unfortunately, true that since that time the attendance has dropped off. The Department does not believe that Mr. Reynolds is

largely responsible for this situation, but there is no doubt but what he could do a great deal towards securing a better attendance.

When Canon McKim, early in 1927, urged the Department to keep this school open, he wrote in part as follows: "We are anxious to see what can be done to build up the work there, and Mr. Ahenakew believes that with the right staff good results may be obtained".

The Department feels that this school has been given a good trial and that the time has now come when we should seriously consider closing it and recruiting the pupils for the residential schools. Mr. Public School Inspector Veazey wrote in part, in June, 1930: "Success: only fair, as conditions have not been conducive to the best results. . . . The boarding schools are the best solution. The living conditions on this reserve are not such as will stimulate education. If the children could be separated from their parents while the latter roamed about, something might be accomplished."

The Department is today writing Mr. Indian Agent Macdonald, asking him to notify the teacher and the Indians interested that the school will be on trial during the month of May. Mr. Macdonald will make a special report on or about the first of June. If Your Lordship can add anything to the information before the Department, or if you wish to make a recommendation concerning this school, please do so about the date of the agent's report, so that, at that time, the question of re-opening the school in September can be considered.

Dear Mr. Dennis

Thank you for your letter of April 25th re Red Earth Indian Day School.

Our Archdeacon Paul Prince is there early in May and I have asked him to look to you about it.

My enquiries have elicited the following information pertinent to the matter:

- There was considerable sickness [illegible] among the children last winter
- The snow was very deep last winter and this had two results:
  - The duties of the nurse drove only to necessitous in some cases.
  - some of the children who had not sufficient clothing & footwear were unable to walk to the reservations. (The great interest of the ladies in Western Relief has limited the clothing available for Indian ladies very much)
- during May there have been 29 children in attendance on several occasions.

Dear Sir,

I have heard that the Department have been contemplating closing the Indian Day School at Red Pheasant in the Battleford Agency. Last winter, owing to sickness amongst the children, an unusually severe winter, the attendance was low, but it improved as soon as the children recovered. Spring opened up. I was at the School on May 9th, & 29 children were in attendance. I hope therefore that the Department will see its way clear to keep this School open, as I am sure it is for the benefit of the Indians on both Red Pheasant & Stoney Reserves to have the school running. Mrs Reynolds, the Teacher, has been doing all she can to secure a good attendance, & her efforts appear to have been successful. Provided that there is no epidemic amongst the children I do not think the attendance will fall off so much next winter.

Yours faithfully,

Dear Mr. McKenzie:

Re: Red Pheasant Indian School,
Your Number 105 - 6 - 1

I had the opportunity of a conversation with Mr. H. Reynolds, teacher at the Red Pheasant Indian Day School recently and in telling him of your decision to continue the school I noticed a statement in your letter of April 25th on this subject that "this school has been kept open during the past four years at an average cost for current expenses of $2,400.00 with an additional $250.00 per annum expended on the place". Mr. Reynolds makes this statement in a letter subsequent to my interview "For the last five years this school has been conducted as economically as it has been possible to do so regarding repairs and renewals. The residence has only been calsomined once at the expense of the Department, in 1930. No paint except one gallon for stairs and hall has been supplied. For three years, no seed potatoes have been supplied, and this year no seed of any description has been received.

Since June of this year the following have been requisitioned:- one bag cement to repair foundation of school and chimney of residence; one spool of barb wire and 10 lbs. staples to repair pasture fence; $3.00 to moving . toilets, last moved in 1928; $3.00 to cleaning all chimneys and the stove pipes in the school and children's dining room; $3.00 and 10 lbs. nails to putting up an old shed erected by my predecessor out of second hand lumber. This shed was blown down during a terrific windstorm on June 29th. Luckily the stable was not damaged in any way.

My wife and I frequently try to impress upon the Indians how the Department are practising the strictest economy in every way, particularly since our receiving the circular from the Department emphasizing economy."

I should be glad if you would have this checked up from the requisition sheets and the account of grants which have been made. This seems to me economy which is commendable so long as the places are kept in repair. Another matter on Mr. Reynolds behalf I should like to draw your attention to the fact that his salary is $85.00 per month

less 10% which works out to $765.00 per annum. Mr. Reynolds has the same experience as some teachers who are receiving a larger remuneration.

Will you be able to allow any part payment for Mrs. Reynolds for field-matron work? Since April 1st, dinners have been cooked for the school children each school day, medicines dispensed and dressings done.

Mr. Reynolds tells me that since the school opened this fall the attendance is encouraging.

105-6-1

Ottawa, September 22nd, 1932.

Right Reverend Sir,-

I beg to acknowledge the receipt of your letter of the 16th instant, with further reference to the Red Pheasant Indian Day School. As you were informed in official letter of July 5th, last, it has been decided to continue this school in operation. Owing to regulations recently issued, it will not be possible for the Department to increase the salary of the teacher. I also regret that no payment can be allowed for field matron work.

The information given in official letter of April 25th with reference to the cost of operating the Red Pheasant Indian Day School was taken from the annual reports of the Auditor General.

In commenting on the expenditures incurred at this school in the last five years, Mr. Reynolds apparently overlooked the fact that the Department expended approximately $500 in August, 1930, in painting the buildings. With reference to the shed which was blown down during the wind storm in June, the Indian Agent estimated the cost of repairs at $85.00.

I have the honour to be,

Right Reverend Sir,-

Your obedient servant,

T. R. L. MacInnes.
Acting Secretary.

RED PHEASANT DAY SCHOOL

GENERAL

105-6-1.

Ottawa, February 10, 1937.

Right Reverend Sir:

The Department is in receipt of the Public School Inspector's report regarding his recent inspection of the Red Pheasant Indian Day School.

Reports show that no improvement has been made during the past year, and it appears that the time has come for a change in the teacher at this school. Under these circumstances, the Department considers that it would be in the best interests of the work at the Red Pheasant School to dispense with the services of Mr. Reynolds from June 30th, 1937.

The Department has always allowed Your Lordship to nominate a teacher for this school, and I would appreciate if you would arrange to select two or three teachers whom you consider might be able to handle the Red Pheasant School. They should be requested to interview Mr. S. L. Macdonald, Indian Agent, Battleford, Sask. He is fully conversant with local conditions on the reserve, and we would like to have him select, from your nominees, the teacher whom he considers most suitable.

I have the honour to be,

Right Reverend Sir,

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

COMMISSIONER'S OFFICE.

REGINA, SASK., 6th February, 1937.

Sir:-

I beg to forward herewith Inspector Innes' report on the Red Pheasant and Stoney Indian Day School in the Battleford Agency.

This report shows that no improvement has been made during the past year. A year ago the question of either transferring or dispensing with the services of this teacher was under consideration, see your No. 105-6-6, dated the 16th January, 1936. My recommendation is to dispense with the services of the teacher.

I am not in favor of transferring a teacher who has fallen down in one school to another. In my opinion there has been too much of this done in the past. If a teacher is a 'square peg in a round hole' in one school, he will be the same in another. It is not as though we were transferring him to another occupation.

I think the time has come when the Department should have some say in the selection of our school teachers. In my opinion, the Department should require that the teacher receive the approval of the Indian Agent before being appointed.

Many of our teachers take no interest in the children outside the school. There are a few who do and the improvement in such districts is remarkable.

Your obedient servant,

Thos. Robertson, D.D.S.,
Inspector of Indian Agencies,
Saskatchewan.

Dear Sir:

I beg to submit herewith my monthly report for the Battleford Agency for the month ending Sept. 30th, 1936.

No. 7 Thunderchild

The schools are all going with a fair attendance, and the health of the children generally has been good to date. The attendance is very good as usual at the Little Pine Day School, and is holding up well at the Red Pheasant Day School, and will improve there as soon as the hay camps are broken up, and the Indians come back to their regular homes. I can also report an improvement in the attendance at the Thunderchild Day School, and it is hoped there will still be a few more when the Indians settle down for the winter.

All the schools in the agency were visited during the month with the exception of Beauval, and it is my intention to visit that school shortly, and will report conditions there in my next report.

Ottawa, April 24th, 1933.

Right Reverend Sir,-

The Department is in receipt of your letter of the 13th instant, with reference to the Red Pheasant Indian Day School.

As you are, no doubt, aware, our appropriation this year has been considerably reduced and it has been found necessary to curtail expenses as far as possible. The driving of the children amounts to a considerable sum each year and, in a report received from the Indian Agent, he states that, on the Red Pheasant Reserve, there are about five families, all of whom are within a mile and a half from the school. The Agent considered that the ten or twelve children belonging to these families could easily walk to the school and he was, therefore, instructed to discontinue the driving of these children from March 31st, last.

It was further decided to continue the driving of the children from the Stony Reserve until the end of the present school year in June, next. Before the school reopens after the holidays, the Department will decide if funds can be found to continue driving these children for the next academic year.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

A. F. MacKenzie.

INDIAN AFFAIRS
APR 18 1933

April 13, 1933.

My dear Mr. MacKenzie:

The Indians on the Red Pheasant Reserve are very disturbed over the rumors which have reached them regarding the Department's reported reluctance to continue the school at Red Pheasant. The withdrawing of one of the drivers who collect the children for the Day School will make it very difficult for some of the children to reach the school. The Indians fear that it will put down the average of their attendance and they are most anxious to retain the school. You, no doubt, have been advised from other sources that the average attendance for the term October to December was 23.28 out of 27 on the roll (percentage 86.2), from January to March 10th the average is 19.56 out of 27 on the roll (percentage 72.4). Considering the weather for the months involved since the New Year, the attendance has been very good. There was also an outbreak of 'flu during January and February. The Archdeacon who knows the situation very well writes: "I do not think the Stony Indians could be expected to send their children to school from their new farms across the railway, some of which are seven miles from the school. It is considerably cheaper for the Department to provide transportation for those children than to give them a school of their own." You will notice that some of the Indians in their anxiety to retain the school privileges had thought of moving in nearer the school but this would hamper very much the Department's encouragement of farming among the Indians, because they must scatter where there is suitable land." The Archdeacon is of the opinion that it would be advisable to continue both drivers for the school and that the Stony driver at least should not be discontinued.

I am sending you herewith a petition which has come in from the Indian Bands.

I hope the Department will be able to retain this school which the Indians value so much.

Yours sincerely,

W. T. Saskatoon

A mass meeting of the above bands of indians was held on March 16th to discuss the future of the School.

We are much concerned about its threatened closure and earnestly appeal to your Lordship to approach the authorities at Ottawa on our behalf. The discontinuance of the School vans will have a marked effect on the attendance and this may influence the Dept to close the School.

Some of the parents are so far away from ~~from~~ the School (3 to 7 miles) that it would be an impossibility for them to send their children.

Several of the parents thought at first to build small houses near the school, but after careful consideration it was felt that such a plan would seriously interfere with farm operations

However, if the Dept are still determined discontinue the School Sisters we earnestly appeal to your Lordship to use your influence in favour of our school. We want our children

Dear Sir:

The Department has recently received the report of the Public School Inspector regarding his inspection of the Red Pheasant Indian Day School. This report shows that no improvement has been made during the past year, and, consequently, it has been decided to dispense with the services of Mr. Reynolds from June 30th, next.

Right Rev. W. T. Hallam, M.A., D.D., has been requested to select two or three teachers whom he considers might be able to handle the Red Pheasant School. He is also being requested to have his nominees interview you, and you should select the one whom you consider would be the most suitable for the position. In making this selection, you should consider not only professional qualifications but also the importance of a teacher taking a continued interest in the children outside of classroom hours.

When you have definitely decided on one of the Bishop's nominees, you should advise the Department, giving name and full information.

About May first you should advise Mr. Reynolds that his services will not be required after the end of June.

Dear Sir:-

With reference to your No. 105-6-1, dated the 10th instant, regarding the Red Pheasant Day School, Battleford Agency, I wish to express my appreciation of the stand you have taken on this matter. Heretofore, our Agents have taken very little responsibility for school conditions, as they felt it was to a great extent outside their jurisdiction.

This will place the responsibility on them and will, I am satisfied, have a very beneficial effect.

Previous to my coming here, the Agents were not given a copy of the School Inspector's report. A copy is now being supplied them.

Sir,

I beg to advise the Department that I am in receipt of a letter from Mr. Henry Reynolds, whose resignation has been accepted for June 30th, requesting that he be released on June 11th as he can at that time get another position. As jobs are hard to get at the best of times, I would recommend that his request be allowed. In any case it would hardly be fair to hold him to June 30th and cause the loss of his new position.

It might be possible to get some local teacher to complete the last twenty days but personally I think that if the school were closed on that date for the term that it would not be any serious loss to these children.

I have informed Mr. Reynolds that he would be further advised on receipt of a reply from the Department.

H.Y.D.

Dear Sir,-

With reference to your letter of the 28th ultimo, the Department allowed you 11/30 of your monthly salary of $85.00, or $31.17, for the period you taught the Red Pheasant Indian Day School during the month of June.

Present regulations require that, in paying salaries for broken periods, the total number of days in the month must be taken into account.

Yours truly,

R. A. Hoey.

Sir:-

Per Department Letter No.105-6-1, Feb 10th, I beg to advise the Department, that I have now received from th Right Rev Bishop of Saskatoon, dated July 30th, letter recommending two Teachers for the Red Pheasant Day school. Mr B.T.Plunkett of Fort a La Corne and Mr E.A. Morgan of Elstow.Sask,Both of whom have now applied in person. I mihht add,that a Miss Mariet McDonald also applied but being single does not qualify as well as a married couple.

Mr Plunket reported here a week ago, but some reports I hadX received were not to his advantage and he did not seem aggressive enough for this particular school.

Mr Morgan called on this date, he holds a first Class Certificate, is well qualified for manual work and appeared to me to have all the qualifications for a good Indian Teacher, he has never taugh any Indian school before, but this might be more to the advantage of all, than otherwise, he has a wife and two children and Mrs Morgan who came with him,has had experience in Nursing and is fully qualified for first Aid work, is a bright cheery woman and would be a good addition to any Community.

I view of the above, I would recommend,that Mr Morgan be appointed Teacher to fill the Red Pheasaht vacancy and as he has the offer of another school I would ask the Department to Wire Mr Morgan, so that he can notify his other school and move his furniture, as the time of opening the school is now short. I have informed him that in the event of his appointment, that he will receive full instructions from the Superintendent of Schools.

A copy of this letter is being forwarded to Right Rev W.T.Mallam, D.D. Bishop of Saskatoon, for his advice.

Your obedient servant,

S. J. Macdonald

The schools all reopened again at the first of the month, with good attendances that are well over last year's attendance and they have all been visited and everything in this respect is going in good order.

The same teachers are at Little Pine and Thunderchild Day schools, but a new teacher, Mr. Morgan has taken over the Red Pheasant school and already a big improvement is noticeable in every respect, it is his first experience at an Indian school and I believe this will be to the benefit of both the school and the Indians.

Red Pheasant School

This school is a good demonstration of what can be done by a man and woman who consider their duties extend beyond teaching the children to read and write.

Mr. Morgan, in addition to teaching the regular classes, instructs the boys in gardening, etc. Mrs. Morgan teaches sewing, knitting etc. In addition to this, Mrs. Morgan, assisted by Mrs. Lockhard the Farming Instructor's wife, has organized the women into a Homemakers' Club. They have 32 paid-up members at the present time. This club meets regularly and instructions are given in sewing, knitting, craft work, kitchen science, etc. At one time they set aside certain meetings for social entertaining, but the women of the reserve asked that these social meetings be discontinued and all given to lessons and study.

Average attendance 1936-37, 15. for 1937-38, 22.5. At the present time the average is 32.

Dear Sir:-

In view of the exceptionally good showing both in attendance and progress at the Red Pheasant Day school, I would strongly recommend, that the Teacher Mr E.A.Morgan,be given an increase in salary,Teachers of this class are hard to get and when we get one, it is only proper,that they should receive encouragement, we give all possible here and you have backed his efforts to the limit,but the results he is showing,merit an increase,he has made this into a real school,something that it never was before and both he and Mrs Morgan are doing great work at these reserves,not only in the school but in the family life of the Indians and after only one year,their efforts are reflected in nearly all the homes and the whole attitude of the Indians to the school has made a right about face and outside of the Teaching, it is looked on as a social headquarters for the Indians.

Besides the regular sewing and knitting classes by Mrs Morgan,she has regular meetings of the woman,where sewing,housekeeping,care of children etc,even home garden ing is taken up as the Homemakers club and they are getting results.

Mr Morgan might be classed as a handyman, fair Carpenter and can turn his hand to any odd jobs and helps and advises the Indians on home building and has model plans for Indian homes,that he is trying to get them to follow as new homes are built, so it can be seen,that they are spreading their activities to cover all home life and work and results of this discription are of great value to both the Indians and the Department, and I trust,that this will be given consideration.

IN YOUR REPLY REFER TO
NO. 302-11
ALSO TO DATE OF THIS LETTER

Dear Sir:

I am in receipt of the attached letter from Mr. Macdonald, Battleford, recommending an increase in salary for Mr. E. A. Morgan, teacher, Red Pheasant Reserve.

I can only endorse all Mr. Macdonald states in his letter. Mr. and Mrs. Morgan have made a real effort. They have not only increased the attendance, but have inspired the children and the members of the Band with a desire to learn and to improve their home conditions. Neither hours nor holidays count with them. They are on the job 24 hours a day if necessary. In their efforts they have been well supported by the Farming Instructor and his wife, Mr. and Mrs. Lockhart. Mrs. Lockhart has devoted a great deal of time, together with Mrs. Morgan, in carrying the educational work into the homes. In this instance I can truthfully state we are receiving the services of four people while only paying for two.

I have no hesitation in recommending Mr. Morgan's salary be increased to $1200.00 a year, not only in recognition of the work he is carrying on, but also because it would be a tragedy if we were to lose the services of these two people.

Dear Sir:

I am in receipt of your letter of the 30th ultimo with reference to Mr. Morgan, teacher of the Red Pheasant Indian Day School.

The Department appreciates that some financial recompense should be given to Mr. and Mrs. Morgan for the work that is being done outside of the school but present regulations do not permit our making any payment to a teacher other than for the work that such teacher is actually doing in the class room. I have discussed your recommendation with Doctor Stone and I understand that the Justice Department is being requested for a ruling with reference to our authority to make payments for what might be called social service work. You might bring this case to our attention again about the end of December at which time your recommendation will be further considered.

In the meantime you may advise Mr. Morgan that it has been decided to increase his salary as teacher of the Red Pheasant School from $~~900.00~~ to $950.00 a year effective from September 1, 1938.

RED PHEASANT SCHOOL

The same excellent work is being carried on in this school as reported previously. The teacher's wife and the Farming Instructor's wife are carrying on a Homemakers' Club among the women, getting splendid results. They meet every two weeks, when an address is given by the Medical Officer or some outsider on health, care of children, baking, cooking, canning, or other matters pertaining to the home. In addition to this address they are taught actual dressmaking mending, repairing, cooking, baking, canning fruit and vegetables, etc. Some of these Indian women have as high as 84 quarts of fruit, vegetables, etc. canned and put away for winter use. This is something that was practically unknown on this reserve previously.

To Dr. McGill
Report on Red Pheasant Indian Day School

I visited the above mentioned school on October 9th. At the time of my inspection the teacher was absent but I met him on his way to town, where he was attending a teacher's convention.

The school is a frame building and quite old. I was informed by the Agent that he had word from the Branch last year that a new school was to be erected here, only on a different site. The building, although old, appeared to be in a fair state of repair. I also visited the home of Mr. Morgan, the teacher, and had a conversation with Mrs. Morgan. She informed me that the house was still quite comfortable.

This institution serves both the Stoney and Red Pheasant Reserves and I am afraid the Indian children do not attend very regularly, as some of them live quite a distance from the school and it is too cold for them to walk long distances in Winter. However, as I pointed out in my general report, some of the Stoney Indians move to a village during the Winter time, where the houses are very unsanitary. There is a mid-day meal given at the school and it is cooked by Mrs. Morgan in her home.

I expect to receive a Provincial Inspector's report on this school shortly and I will then take up the matter of the attendance with the Indian Agent, as from my observation there might have been more children attending this Institution than there were.

EXD

Attendance at the Red Pheasant Day School has fallen away badly this winter. This is partly due to the fact that transportation of the children, at the expense of the Department, was reduced this term, partly due to the fact that the Indians are very poor and unable to purchase suitable clothing for the long walk for the children in the cold. In addition, there is a resentment of the Indians towards the teacher, whose heart is very much in the war, ever since it started, but not very much in the school. This man, (Mr. C.E.Morgan) had a good school until the war started, but ever since the beginning of last term, he has been trying to get into the army. I have a feeling now that, the sooner he gets into the army, the better it will be for the school. I believe, also, that for next winter, the transportation facilities will have to be restored to this school.

Dear Sir,

Enclosed please find resignation of Mr. E.A.Morgan, Red Pheasant Reserve Indian Day School teacher. I may mention that by the end of the week Mr. Morgan will have removed all of his household effects out of the school residence.

I would recommend that a single teacher be appointed with the understanding that the said teacher would board with the Farming Instructor on said reserve. At the present I do not consider that the present average warrants the expense of reopening the residence, as considerable expenses would have to be incurred on repairs. If the attendance should increase at a later date we then could re-consider opening the residence.

I would suggest that the pupils be furnished with a mid-day meal made up of biscuits, soups and a hot drink which could be prepared in the school basement.

I have pleasure in nominating to be teacher at Red Pheasant Indian Day School, Gertrude McDonald, (Mrs. T. E.). Mrs. McDonald has a second-class permanent Teacher's Certificate. She has had five years' experience in teaching white schools and two years in teaching Indian Schools. She desires to take up residence in the house at Red Pheasant. Her father, Mr. Gilmore, who was teaching Indian School in the north of this Province, is staying with her and herself and her two children and her father will make up the household. Her father will be able to do the chores about the place. Mrs. McDonald is gifted in music and indicates a great interest in Indian children. She will be ready to commence her work the first of November. Her present address is 418 Tenth Street, Saskatoon. Your early reply to this letter will facilitate her arrangements and movements.

Yours faithfully,

Dear Mr. Hobey:

Thank you for your letter of October 9th enquiring regarding a nomination for a teacher for the Red Pheasant Indian Day School for the academic year 1942/43. Since I received your first letter I have been constantly searching and I am glad to say that at last today I have found a Mrs. T. E. McDonald, who is willing to undertake the work. She has a second-class permanent teacher's certificate and has had five years' experience in teaching in white schools, and two years' experience in Indian work. I am arranging for her to see your Indian Agent at Battleford if he so desires and shall be glad to forward a formal nomination with further particulars as soon as possible. She says she would be able to undertake the work commencing November 1st.

Yours faithfully,

Right Reverend Sir:

In official letter of July 29 last I requested you to nominate a qualified teacher to take charge of the Red Pheasant Indian Day School for the academic year 1942-43. We do not appear to have received any reply to that letter and consequently I presume that the school is not yet open. I should appreciate your advising me immediately if you are in a position to nominate a teacher.

Dear Sir,

I wish to inform you that I recently inspected the Battleford Agency but when I arrived there the schools were just closing. However, I met Mrs. Ross who has been teaching on the Red Pheasant Reserve and Mr. and Mrs. C.W. Foan who have been teaching on the Little Pine Reserve.

While I was at the school on the Little Pine Reserve Mr. Foan pointed out to me that some paint and kalsomine was necessary for the interior of the school and I advised him to send a requisition for this to Agent Ostrander. He did so while I was there and I hope this kalsomine and paint will be allowed.

When I last visited the school at Little Pine one and one half years ago I was not greatly impressed with Mr. Foan. However, he and his wife impressed me much better on this trip and I believe they are capable of doing good work. Mrs. Foan especially impressed me as being a very capable young woman and in the future we will have to depend on her to handle the homemakers' work on this reserve.

On the Thunderchild Reserve Mrs. Palmer has left and I understand she is not returning to the reserve, therefore we are losing one of the most efficient women who has ever been in the Indian work. This is saying a lot but I know it is true. Mr. Ostrander suggested that when the school re-opens in the Fall Mrs. Ross who was teaching at Red Pheasant, be transferred to Thunderchild where the Palmers were, as he is of the opinion that she will work well with the farming instructor and his wife on that reserve. One evening while I was at Battleford Mr. Ostrander brought Mrs. Ross in to see me at the hotel and I had quite a chat with her. I was

well impressed with her attitude and she seemed to appreciate having this work as she and her husband lived on a dried out farm.

In considering the question of the mid-day meal at the Indian Day Schools the matter of the growing of garden vegetables has great importance.

With this in view, the fact that the day schools are closed for the months of July, August and September is regrettable as these are the gardening months.

I have wondered if there is any reason why the open and closed dates for day schools could not be altered, suggesting closing for the month of July and opening for August and September. Then, with a view to saving fuel and transportation difficulties, closing again for the months of January and February.

I discussed this with the Indians of the Red Pheasant Reserve last week and they said that they were quite favourable towards the change if the Department could make such arrangement. I have not discussed it with the Indians of the Little Pine and Thunderchild Reserves, where we also have day schools, but would do so if the Department favours the change, and I believe that the Indians of these bands, also, would agree.

Mr. J.P.B. Ostrander, Indian Agent, Battleford, Sask.

I have your letter of the 19th instant, suggesting a change in the opening and closing dates of the Indian day schools in your Agency.

For your information I may say that provision is being made in the appropriation for the fiscal year 1943-44 for a ten-month term at all Indian day schools and consequently these schools will re-open on September 1. This means that there will only be the usual two-month holiday period in July and August this year.

There are a great many reasons, both from an academic viewpoint and from the health standpoint, that make it inadvisable to operate schools during the months of July and August. The interruption that would occur in the continuity of the academic work if your suggestion were followed is considered too great to permit our considering it.

He states Mr. Gilmour often goes to the reserve and stays with his daughter. Mr. Mackie, the farming instructor for that reserve was trying to get a resolution of the band in connection with the sale of wood and Mr. Gilmour happened to be there. These are the remarks he made: "Why should they sign Timber Regulation petition?" ; "The Indians are treated as slaves by the Department? ; "Also I was looking into this business and had written to Piapot to enquire how their resolution was written. It happened to be the same as written out for the Red Pheasant Indians to sign. I think the Indians in signing this, they were signing away their rights."; "In my opinion Community Farming was following the same system as Stalin is".

Naturally the Indians refused to sign the resolution.

Indian Agent Ostrander has forwarded the resignation of Mrs. T.E. McDonald as teacher of the Red Pheasant Indian Day School, effective June 30, 1944. He writes as follows:

"As the attendance for a number of years at this school and progress made has been far from satisfactory which does not warrant the expense of operating this school, I would be very much in favour not re-opening after summer vacation."

Our records show that for the four quarters ending March 31, 1944, the enrolment varied from 16 to 21 and the average from 8 to 14. As you know, this school has been in operation for many years and, in view of the enrolment and average attendance figures just stated, I do not exactly see why the Agent considers it should be closed. It would be appreciated if you would consult him in the matter and advise what action you think should be taken.

Attention of Mr. Phelan.

I wish to acknowledge receipt of your letter No. 105-6-1 of the 7th instant. Upon receipt of it I immediately took the matter up with Mr. Ostrander and I am now in receipt of a communication from him.

Probably one reason for the number of children present on the list of the Red Pheasant Indian Day School is that some of the children who were attending Onion Lake School have been going there since it burnt down and have not as yet gone to Prince Albert to attend the school there but Mr. Ostrander has the following to say:

> "I would feel inclined to re-open this school for the next term if we had the right kind of a teacher, and the decision in this regard should rest with the Church authorities and the responsibility be theirs to get the right kind or we should not re-open the school. If there was a man and wife at this school, and transportation provided, it would be worth while continuing.."

I more or less agree with the Agent that a man and his wife are necessary at this point.

Evidently the building was condemned by the late Dr. Robertson in 1938. In all due respect to the late Dr. Robertson I wonder whether he was a qualified person to state whether a building was habitable or not. However, apparently the school building is very cold when the weather outside is down to forty degrees below zero.

In winding up his letter to me Mr. Ostrander has the following to say:

"My recommendation in this.....

"My recommendation in this connection would be that if the Church Authorities have the right kind of a teacher in sight, preferably a man with a wife to live with him and assist him, I would be in favour of the appointment being made now, and they could be getting their feet while waiting the building of a new school after the war. If their selection is a young girl with the choice of living alone at the school or boarding with the Farming Instructor and his wife, or the cast-off from some other Indian school, I am definitely against re-opening at this time and it seems that, at the present time, their only choice is either one of this description."

In conclusion I would say that I think it would be a mistake to close down this school at the present time. Let us do the best we can while the war is on and the Church should be able to get a couple that might be fit to carry this institution on for a year or so. I have been at the school in question and know what it is like, and I am going to be there again this Summer. My recommendation would be to ask the Church to endeavour to take over this school for the present time. I am sure if the school is cold we could do something to fix it up a little warmer probably than it is and I shall go into this matter when I visit Battleford Agency during the Summer.

Right Reverend Sir:

The teacher at the Red Pheasant Indian Day School, Mrs. T.E.McDonald has given up duties at the end of June. Consequently, it is necessary to secure another teacher at the Red Pheasant School for the academic year 1944-45.

Indian Agent Ostrander feels that it would be preferable to have a married man as teacher of this school. He feels that it would be a mistake to engage a young female teacher.

I realise the difficulty of securing a qualified male teacher at the present time, but I thought that it would be advisable to bring your attention the Agent's opinion in this matter.

It would be appreciated if you would give this suggestion your usual kind consideration and let me know if there is any prospect of meeting Indian Agent Ostrander's wish.

Dear Sir:

Your File 105-6-1.

In the matter of the Red Pheasant Day School Teacher vacancy I have received an application that seems very desirable from the point of view of the qualifications of the applicant.

For the work on Red Pheasant Reserve I find myself in complete aggeement with Indian Agent Ostrander that a qualified, married, male teacher could best serve the interests of the school there.

The difficulties however at the reserve which the teacher would have to face and overcome are such that it seems extremely inadequate to offer a qualified man a salary of $900.00

The attendance of the school will have to be built up considerably from the low attendance of the past year to the better average that has prevailed there of about 30 children. As no transportation is provided, the children from Stoney are not able to attend. The school building is heated only with great difficulty and the children from Red Pheasant find the excuse of a cold school during the winter a reasonable excuse for non-attendance. The teacher is required to attend to janitor duties and to prepare and serve the mid-day meal.

The applicant for the position of teacher is a married man with one 9-year old son. He holds a 1st class Sask. certificate and has 1½ year experience on Indian Reserve out of a total of 13½ years of teaching.

I should very much like to secure the services of this man but feel very doubtful that this can be done when so many other vacancies are offering salaries from $1000.00 to $1500.00.

I shall endeavor to retain the interest of the applicant in this school in the hope that the Department will consider the matter of adequate salary and send a favorable reply.

Yours faithfully,

W. E. Klein

Dear Canon Hives:

I am in receipt of your letter of the 21st instant, with reference to a teacher for the Red Pheasant School. The Department is prepared to allow a salary of $100 a teaching month, plus bonus. As the man you have in mind is married with one child, he will receive the maximum bonus of $18.42 a teaching month. In other words, his total monthly salary will be $118.42 from which, of course, there will be some deduction for income tax and also the deduction of 5% from the basic salary which is deposited in the retirement fund and returned to him with interest when he leaves our employ. I trust that you will be able to secure a qualified teacher. I should appreciate hearing from you at an early date.

Yours truly,

Dear Sir:

Your File 105-6-1

With reference to the vacancy for the position of teacher for the Red Pheasant I.R. school, I have received an application from Mr. J. N. Ross of Saskatoon. Having regard to his qualifications I recommend him for the position.

Mr. Ross is a married man, thirty eight years of age, with one son. He holds a first class teaching certificate for the Province and has had 13½ years teaching experience. I have notified him of the date of the beginning of the term and asked that he enter upon his duties immediately. I trust that his work will give satisfaction to the Department and that the children will benefit from his instruction.

It is a matter of satisfaction to me that we have been able at this late date to secure the services of a male teacher having such qualifications. This was possible, no doubt, through the assurance given in your letter of August 23rd that the salary would be $100.00 per teaching month plus bonus amounting in this case to $18.42. I should like to take this opportunity of thanking you for your co-operation in this matter.

Yours faithfully,

Dear Sir:

I regret to inform you that after a visit to Red Pheasant School and staying there overnight, Mr. Ross has decided against taking the school.

On arrival and inspection the house and property indicated that it had received little care during recent occupancy and the whole atmosphere of the place was decidedly depressing.

Mr. and Mrs. Ross were not impressed with the outlook but felt that they should remain overnight at least to consider the matter. They have come to the conclusion that it would be an impossible task for them to remain.

There are several repairs needed which would have to be attended to in any case before another teacher could occupy the house or use the school. If the house had been clean and refurbished after the previous occupant had left there might have been a different result in the visit of the Ross's.

I have no other name to submit for the present.

Yours faithfully,

W. S. Hoey

Dear Canon Hives:

I have for acknowledgment your letter of the 2nd instant, in which you intimate that Mr. Ross has decided against accepting the position of teacher at the Red Pheasant Indian Day School. It is unnecessary to state that this information was very disturbing to the officials of this Branch and to myself.

I may state, by way of explanation, that both the late Dr. Robertson and the General Superintendent of Indian Agencies, Mr. Christianson, have on more than one occasion recommended the construction of a new school on the Red Pheasant Reserve. However, in view of war conditions, the scarcity of labour, the scarcity of materials and the limited funds at our disposal, it was not possible to build this school. As a matter of actual fact, we have not been able to rebuild a dozen or more schools throughout the Dominion that have been destroyed by fire within the last two or three years, and we naturally feel that these schools should have a prior claim upon the Department. Just how soon funds will be placed at our disposal for the repair and construction of school buildings, I am not of course in a position to state. I do know, however, that it is the intention of the Government to proceed with a comprehensive building program in the immediate post-war period. In the meantime, I am communicating with the Indian Agent at Battleford, expressing the hope that he may be able to undertake the repairs necessary to justify the re-opening and operation of the Red Pheasant School.

Yours sincerely,

R. A. Hoey,

Dear Sir:

I have received an application for the position of Teacher at the Day School on Red Pheasant Indian Reserve from Mr. P. G. Kehler of Kleefield, Man.

Mr. Kehler is a married man of 34 years of age with teaching experience in the Province of Manitoba. He holds a teaching certificate First Class B permanent # 177-43, and in addition has certain practical qualifications which would be most useful in teaching Indian children.

Having regard to these qualifications and to his personal references I recommend him for this position and trust that the appointment may be made in due course.

I am pleased that this application will again make possible the re-opening of the school on Red Pheasant Reserve. It is quite difficult at this time to secure the teachers needed for the work in sight as there appears to be considerable shortage.

The house and school will need the attention of which I wrote you last September. I have already spoken to Acting Indian Agent C.S.Bell and he will be forwarding the necessary requisition in due course. May I ask that this work be done immediately so that the house and school will present a pleasant outlook when Mr. Kehler arrives to take up his work.

With regard to Little Pine School I have been unable to date to secure names for recommendation for the second teacher at Little Pine.

Thanking you for your attention and interest in the above matters. Yours faithfully, J.E. Hine

AIR MAIL

Ottawa, August 7, 1945.

Dear Canon Hives:

I have your letter of the 3rd instant, suggesting the appointment of Mr. P. G. Kehler as teacher of the Red Pheasant Indian Day School.

I have reviewed your letter of September 2, 1944, and also Mr. Hoey's reply of September 7.

In addition, we have on file a letter dated September 11, 1944, from the then Indian Agent, in which he wrote in part as follows:-

"Only six children are now available for attendance at this school unless we are prepared to put on two teams to transport the children to school. In the event that two teams are taking them to school regularly, the attendance would be about fifteen."

In addition, the Agent commented in his letter on the fact that it would take a considerable amount of money to put both the school and residence in proper condition.

If the same condition prevails this year as last year, namely, that only 6 children are available without transoirting children a considerable distance, I doubt the advisability of re-opening the school at the present time. However, I am communicating with the Indian Agent, with a view to ascertaining if conditions have changed. Possibly more children would be available this year than were there last year.

Yours very truly,

Philip Phelan,

Mr. C. S. Bell, In charge, Indian Agency Office,
Battleford, Sask.

I am in receipt of a letter from Reverend Canon H. E. Hives, Box 61, Battleford, Sask., nominating Mr. F. G. Kehler as teacher of the Red Pheasant Indian Day School.

As you are possibly aware, this school was closed at the end of June, 1944, and we have on file a letter dated September 11, 1944, from the previous Agent, Mr. Ostrander. In this letter Mr. Ostrander mentions that only 6 children were available in September, 1944, unless we engaged two teams to transport children to school. Even in that event, Mr. Ostrander stated that the attendance would be only 15. Have conditions changed this year? If so, let me know the approximate number of children who, you consider, would attend regularly if the school was re-opened for the academic year 1945-46.

A review of Mr. Ostrander's letter also shows that both the school and the residence are in bad condition and that it would involve a considerable amount of funds to make them comfortable. In the event of your considering that the re-opening of the school is advisable, you should let me have an estimate of what expenditure would be incurred in making improvements to both the school and the teacher's residence.

You will, no doubt, have on file a copy of Mr. Hoey's letter to Mr. Ostrander dated September 18, 1944.

Dear Canon Hives:

With reference to your letter of the 3rd instant and my reply of the 7th instant, I understand that before the Red Pheasant School can be re-opened considerable work will be required to repair it. The Agent feels that it will be advisable to have Mr. Kohler visit Red Pheasant Reserve and size up the situation before incurring any heavy expenditure. I believe this is a good suggestion and I trust that Mr. Kohler will be able to get in touch with Acting Agent C. S. Bell, in order that he can arrange for his visit to the Red Pheasant School.

Dear Sir:

I am in receipt of your letters of August 7th and 13th with respect to the appointment of Mr. P. G. Kehler to the vacancy of teacher on the Red Pheasant Indian Reserve.

In my letter to Mr. Kehler in answer to his application I had advised him that in due course he would be notified that the nomination forwarded to your office had been accepted and his appointment to the position verified. I understand from your letter that the Department expects that Mr. Kehler will undertake the duties of teacher in due course but this is not explicitly stated. Mr. Bell notifies me that he has had no definite word as to the appointment of Mr. Kehler.

May I ask that Mr. Kehler be notified of the acceptance of his appointment so that he may make his plans to occupy the position.

It seems a little unreasonable to ask Mr. Kehler to make a journey from Kleefeld in Manitoba merely to look over the situation before beginning his work. Mr. Kehler has been told of the type of work and the difficulties that are peculiar to work among the Indians.

The previous applicant for the position of teacher refused to remain at the school having seen the buildings in a most deplorably dirty condition. The house and school have recently been swept and cleaned so that the need for inspection for this reason has been eliminated. There are 12 or 15 children from Red Pheasant Reserve awaiting the reopening of school. It is hoped that children from the Stoney Reserve will increase this attendance.

I trust that the school will be reopened forthwith and that the appointment of Mr. Kehler be made. I am writing to Mr. Kehler again advising him that the nomination is apparently acceptable to the department but leaving it to him to decide what action he

The new Principal at the Birtle Residential School will make good I think, as he seems a very likely chap, who will take great interest in the pupils and the school. Most of the old staff are still there which is a big help to him. I have not yet been able to get a man to paint the school windows and fire escapes and doubt if I will be able to do so this fall. Battleship linoleum has been purchased for the dining room which will improve the floor there when laid. It is hard to get recruits into the school, as the Indians are clamouring for day schools on the Reserves, and I am very reluctant to use force, though I am afraid this will have to be done.

Dear Sir:

With reference to the vacancies at Day Schools on Red Pheasant I.R. and Little Pine I.R. may I assure you that every effort is being made to secure teachers for these schools so that they may open at the beginning of the new term in September.

I have been in communication with several teachers and I believe that the difficulty arises from the salary offered although none have actually stated this. I have noticed that no further communication comes whenever the amount of the salary has been mentioned.

The minimum salary offered in provincial schools is $1200.00 per annum. The teacherage, with fuel, cost of living bonus together with the isolation on these reserves seems to lack somewhat in attracting teachers to these positions.

However I am continuing the search for suitable teachers and am hopeful that nominations will be sent forward in due course.

With regard to the Little Pine School because of the promise of an experienced teacher who is not free at present to take over the school but who will definitely do so next year, the Rev. A. Spence has signified his willingness to continue his teaching for the present year. Therefore I send his nomination forward to the Department for reappointment as teacher.

I have assured him that a second teacher will be nominated to assist him when a suitable applicant comes forward. This is of course in agreement with the Department's policy of which we have

not heretofore been able to take advantage.

I am at present in communication with Miss M C Stephen of Prince Albert, and with Miss Lillian Johnstone of St Walburg, and with Miss Beatrice Gilling of Humboldt.

If at any time there is the possibility of an increase in the salary to be offered to prospective teachers, I should be grateful to have the information.

Thanking you,

Dear Canon Hives:

I have your letter of July 30, with reference to the efforts that you are making to secure teachers for the Red Pheasant and Little Pine Schools.

It has been decided to allow the teachers at each of these schools salary at the rate of $100.00 a month plus bonus of 24.1%. This will make the salary for the 10 month period approximately $1,240.00. I trust that you will be able to secure qualified teachers. Enclosed are a number of application forms for appointment as teacher, at an Indian day school. In future, each teacher nominated by you should fill out and forward to us one of these f[illegible].

Yours very truly,

The nomination of Mrs.M.A. Lindberg will be made in due course to fill the vacancy at Red Pheasant. I have asked Mrs. Lindberg to forward an application with information for your office. I was unable to use one of the forms you had sent me as the supply had already been used up by other teachers who had applied for the positions. I should be obliged if an additional supply of forms could be sent to me.

Dear Sir:

I enclose herewith the application of Mrs. A. M. Lindberg for the positiin of teacher at Red Pheasant School.

I believe that the qualifications possessed by Mrs Lindberg together with her experience among Indian Children will prove to be of some benefit to the work on the Reserve.

I have notified her that the school term should commence on September 3rd and no doubt word to this effect from the Department could reach her at once if sent by telegraph.

I trust that the nomination will meet with the approval of the Department and that the appointment will result in good work being done in the school.

I would not be in favour of granting the use of the School to the Rev. Holt. The Anglican and Catholic Churches are already established on the Red Pheasant and Stoney Reserves and as the Day School has been operated under the auspices of the Anglican Church allowing another denomination the use of the School would only be inviting trouble.

I have received your letter of July 24 and your telegram of July 27. We immediately sent you a wire confirming the appointment of Miss Greenhall as teacher of the Red Pheasant Indian Day School at a starting salary of $1,560.00 per academic year.

We also sent Miss Greenhall a similar wire as requested in your letter of July 24. However, I do hope that you are going to be able to use Mr. Day elsewhere as he has been a very satisfactory teacher with us in the past.

I would suggest that we watch the attendance carefully at Little Pine Day School during the next academic year and that if the average attendance gets over the 30 mark, we then consider the appointment of a second teacher.

Dear Sir:

I am in receipt of your telegram approving the appointment of Miss Greenhall to the Red Pheasant School.

I have also received today a letter from Miss Greenhall in which she informs me that after consideration she deems it unwise to take the Red Pheasant School owing to her lack of experience of reserve life and the necessity of her being alone on the reserve before gaining the experience necessary.

This leaves us without a teacher at present for the school. I shall communicate with you at once when I have heard further from Miss Greenhall. I shall also write again to Mr. Dey, and endeavour to make other contacts so that the school may open on time.

Dear Sir:

In the matter of replacement of the teacher at Red Pheasant Day School now vacant by the resignation of Mrs. A. Lindberg, I have been unsuccessful in securing a successor to Mrs. Lindberg.

Three very favorable applicants were interviewed but for reasons beyond the scope of the Department's influence made the appointment impossible.

I have therfore made further contact with Mrs. Lindberg, who has been living near the reserve and operating with her husband a small country store, to see if she would consider returning to the school for a period of one year that is until next June 30th. This course was taken after representations were made by several of the Indian parents of children attending school who were pleased with the progress of their children under Mrs. Lindberg, and an apparent desire to have the school re-opened for the current term. Furthermore Canon Sheasby has spoken in high praise of the general influence for good that Mrs. Lindberg has been among the people of the Reserve. Bishop Hallam is most desirous that the school shall be opened without any break if at all possible. It is with these circumstances before me that I make the nomination of Mrs. Lindberg for the position of teacher at Red Pheasant.

Mrs. Lindberg's application is already on file in your office so that it is not renewed at this time. Not having the salary schedule with me at the time, I assured Mrs. Lindberg that her salary would be the same as last year $125.00 per teaching month. I believe that the salary scale would grant her a higher rate of salary than that for a second class certificate and 10 years experience. Mrs. Lindberg if appointed will live in residence

Dear [redacted]:

We have your letter of the 16th instant, in which you recommend the re-employment of Mrs. Lindberg as teacher of the Red Pheasant Indian Day School.

The Department approves [redacted] suggestion and I enclose one of our regular application forms which she should complete and return. We will allow her at least the same salary as last year, and if the information regarding her qualifications justifies increased salary according to our new schedule, it will be paid to her.

Dear Sir:

Enclosed herewith please find the application form from Mrs. Lindberg for the school at Red Pheasant.

I discussed with Mrs. Lindberg the possibility of her encouraging the Indian women with their cooking, dressmaking, home furnishing &c. Mrs. Lindberg is quite willing to do anything in her power along this line, provided the women will meet with her at the school or teacherage. I agreed with her that it would be too much for her to try to visit the homes on the reserve, scattered as they are, after a day's teaching.

Yours faithfully,

Mr. R. A. Hoey,
Director of Indian Affairs,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Mr. Hoey:

I have had an enquiry, regarding the Red Pheasant Reserve, North Battleford, Saskatchewan.

The Indians would like to know whether, or not, there is any lease, covering the property on which the Anglican Mission is situated. They would further like to know whether better provision could be made for the establishment of schools on the reserve, so that the children can properly attend. There are some forty-seven children on this reserve, between the ages of five and sixteen, but only about ten attending school, because of the long distance, which they have to travel. Apparently there are a number of children on the Stoney Reserve also. The Family Allowance cheques are payable to the parents for the children, only if they attend school, and the school facilities are so far from the homes that in winter time it is almost impossible for the children to attend with any regularity.

I would like to know what can be done to remedy the situation, as apparently some of these children have over six miles to travel with no roads and no proper facilities and, in many cases, the families are too poor to provide even horses for transportation.

Apparently some resolution, with regard to the building of a school, and the moving of the present one to a more convenient location, has been sent to the Agent.

Yours very sincerely,

G. H. Castleden,

The question of the Anglican Mission owning land on the Red Pheasant Reserve was taken up with the Church authorities and they informed me that they did not own any land on the Red Pheasant Reserve.

We are at the present time conducting a survey to locate an adequate water supply for the new school to be constructed on Red Pheasant Reserve.

There are about forty four children of school age on the Red Pheasant reserve but a considerable number of them are quite capable of walking to school. Last winter was an exceptional one as far as depth of snow was concerned, but it was only during February and March that the snow became so deep. Previous to that the weather was very mild and not a great deal of snow. I do not consider it a hardship for children over nine years of age to walk to school. The Family Allowance is not cut off for irregular attendance if the child or children live a distance from school. The children on the Mosquito reserve were provided with transportation to school so that there was no reason why they were not regular attenders. Possibly the Red Pheasant people figure that transportation should have been provided for their children as well.

The question of the families being too poor to provide horses for their children to ride to school or drive is I think stretching the truth a little. Practically every family on Red Pheasant Reserve sold around a thousand dollars worth of hay last year. I know of one that came to the North Battleford Fair with six hundred dollars in his pocket and of course went home broke. Most of their troubles are caused by their own refusal to be guided by the advice of their Farming Instructor. They desire to

To put a school on the reserve that would be three miles from the furthest away home would be an impossibility. A certain number will be further away than that in any case, but I do feel that they should make a definite effort to help themselves to a certain extent in seeing that their children do get an education. With the Family Allowance cheque coming in every month and if they have any ambition to earn a few dollars I do not see why they cannot purchase a pony to take the children to school. They should not be short of feed as there is plenty of hay on that reserve every year. All they need to do is cut it and stack it. A horse is not a very expensive item in this part of the province at the present time and his feed would cost little or nothing except the labour of putting it up.

Dear Canon Mives:

In regard to the suggestions made in your letter of September 18th regarding schools in the Battleford area, may I say that a school with teacherage has been authorized for Sweetgrass Reserve and a site selected. When a contractor can be found to build the school, the children who formerly attended at Delmas will be accommodated in a day school conducted with a view to their religious affiliation. It appears that about two-thirds of the population of the Sweetgrass Reserve are adherents of the Roman Catholic Church.

The eligible Mosquito Reserve children are for the time being to be served by the Red Pheasant school where, if necessary, a second classroom will be operated along the lines adopted at Little Pine School.

For the schooling of some Moosomin Reserve children Mr. Superintendent Bell has made arrangements with the public school authorities in nearby white communities. It is our understanding that the population of this reserve is very largely Roman Catholic.

It is hoped that we may be able soon to send our Educational Survey Officer into the Battleford area and that he will have an opportunity to confer with you.

Yours sincerely,

Philip Phelan
Chief, Training Division.

Freshly painted building looks well. It should last for years. X

The new stove has not yet arrived. X

Water:
Efforts to locate a well have failed. We will have to continue hauling water. X

Enrollment:
Of 32 enrolled, 25 were present. 11 of the 15 ~~Marcegs~~ Mosquito children were present.

Furniture:
A purchase order for desks sufficient to cope with the enrollment, has been received.

Play Equipment:
This is in short supply. X

School Supplies:
There are shortages . For example, in grade 4 7 readers are needed; the school has only 3 old ones.

Management:
The teacher is admittedly an older woman with little modern training or experience, and the Provincial Inspector was not pleased, I am told, at conditions during his visit. But Mr. Assistant Birch reports considerable improvement, and certainly I could not see any evidence of bad behaviour. The children are getting accustomed to their teacher. Mr. Birch was requested to continue his frequent unheralded visits. This is not likely to entail neglect of his other functions.

Teacher:
The teacher reports that she has not yet received any installment of her salary. She admitted not having forwarded tax form T. I. Her husband is in a home for incurables in the U. S. A.

Teacherage:
A new set of steps from the kitchen down into the basement is an imperative necessity and no delay should be allowed in replacing the present dangerous installation. X

I regret to inform you that Mrs.E.F.Sears, Teacher at Red Pheasant Indian Day School, fell in class room December 16th. and is now confined in the Notre Deme Hospital with a fractured left hip. If is fortunate accident happened when school children were around, other wise outcome may have been more serious, if she had remained in school house for any length of time without receiving aid.

I am enclosing report received from Dr. P.W.Head. As Mrs. Sears will not be able to resume her duties for sometime, I would recommend that the services of another teacher be secured if possible.

I am informed by Superintendent C.S. Bell, of the Battleford Agency, that Mrs. E.F. Sears, teacher at the Red Pheasant Indian Day School, fell in the classroom on December 16th and suffered a fracture of the left hip, with the result that she will probably be incapacitated for at least three months.

As the Department is aware, Mrs. Sear's services were not very satisfactory and this might give us an opportunity to find a replacement not only for the remainder of this term, but also for the new term. With this in mind I have referred the name of a Mr. A. McMartin, of Ditton Park, Saskatchewan, to Canon H.E. Colonel Scarr

I have to refer to your memorandum of January 7, 1949, with respect to leave and Workmen's Compensation for Mrs. E. F. Sears, Teacher of the Red Pheasant Day School, Battleford Agency, Sask., who commenced duty on September 1, 1948, and sustained injury as a result of an accident on December 16, 1948, while in the performance of her duties.

Mrs. Sears being in the employ of the Dominion Government is eligible for Workmen's Compensation. The necessary forms, of course, would have to be completed in this case, that is:-

Employer's Report of Accident
Surgeon's First Report
Employer's Subsequent Statement.

Five copies of each of these forms are required,- two copies of each form to be submitted to the Workmen's Compensation Board, Sask., and ~~three~~ copies to be forwarded to this office. Accounts for medical services and hospitalization must also be submitted and these are required in quintuplicate, and must be certified to the effect that the services have been rendered.

In the case of a non-exempt Civil Servant an application for sick leave on C. S. Form 263 is required, although the sick leave granted under Section 68 of the Civil Service Regulations, is not made a charge against the employee's sick leave credit.

If, on submission of the forms above referred to the claim is approved by the Workmen's Compensation Board, either the Department will pay her salary for the time she is laid off, or the Board will pay her a percentage, which in Saskatchewan would appear to be 75% of earnings. The Personnel Section in the past has not dealt with leave and Workmen's Compensation Claims for teachers. No doubt there have been Workmen's Compensation cases and you will have a precedent.

I have for acknowledgment your letter No. 618-1(E1) of the 5, inst. which was sent to Gleichen, Alta., with reference to accident suffered by Mrs. Sears, teacher of the Red Pheasant Day School.

I interviewed Mrs. Sears in hospital and she has no idea just how accident happened. She had stepped on the small platform on which her desk is situated to call the children to attention to sing O Canada. From that point she has no recollection of what happened, and on regaining consciousness the children were endeavouring to get her to a seat, at the time Adam Mosquito happened to come in and he managed to get her to the school residence. Word was sent to Mr. Burch, Assistant, Red Pheasant, who came with his wife. At the time they thought it was only a sprain, and it was not until when there was no improvement on saturday December 18th. it was decided to move her into North Battle Notre Dame Hospital.

If I can find a substitute teacher I will immediately inform you.

Dear Sir:

As you know, Mrs. Sears, teacher at Red Pheasant Reserve fell in the class room just before Christmas and broke her hip. Dr. Head has informed me that it will be a matter of 3 months before she would be out of hospital. I have therefore taken steps to secure the services of another teacher.

An application has been received with references attached from N.J.Kroeker and I feel satisfied that his qualifications are suitable for the position of teacher on Red Pheasant Reserve. It has been my wish to secure the services of a married male teacher at that school and I hope that this man will prove acceptable. He has informed me that he would not be able to move his family at once, even delaying to the beginning of the next term, but that he is prepared to take over at once. I believe he is wise in taking this step. His teaching experience and qualifications would indicate that he would be in the $1860.00 bracket for First Class9(third grade) Teacher.

As it is desirable to have the school re-opened as soon as possible would you notify him of his appointment by wire if you are satisfied as to the nomination being a desirable one. Mr. Bell, Indian Agent, has informed me that there has been no communication from your office regarding the vacancy, but I feel that you will concur in the attempt to have the school in operation as soon as possible. I do not think that Mrs. Sears could return to the reserve after such a spell in hospital. I have ascertained from her that she will accept a position in a residential school when she is again able to return to work. That would be better than having her alone at the teacherage on Red Pheasant.

Yours faithfully,

W. E. Hiven

Work of the School:

Extremely conscientious in his work, Mr. Krocker puts forth every effort to teach the proper habits, attitudes, and skills. A great deal of preparatory work is done prior to teaching and the lessons show the results of careful planning. The teacher has a quiet sympathetic attitude toward the pupils. There is good discipline in the room. Systematic testing and recording are in evidence. Fine work has been done in Manual Training.

Teacher Mr. Nickoli Jacob Krocker Permanent First Class 699-36

Grades: 1 to 10
No. of Pupils enrolled: 31

Work of the school:
The work of the school is progressing very satisfactory under the guidance of Mr. Krocker.

Mr. Krocker is an alert and industrious teacher, and certain phases of his teaching worthy to mention are: his excellent oral discussion and development of the lessons, his use of the blackboard in developing his lessons, his methodical approach to his work, and his excellent testing material.

Some specific observations of classes were as follows:

Grade I - Number work- informal type, correlated with language. Would suggest here the use of simple workbooks.
Grade II- some variation in ability but good in fluency and expression.
Grade III- Arithmetic page 45 - progress good. Writing very good. Good teaching preparatory to seatwork.
Grade IV - Arithmetic. Evidently a weak class. Pupils were drilled in fundamentals.
Grade V - Arithmetic p.25 - Long division. Satisfactory development.
Grade VI- Better than average class, taking work much of the time with Grade seven.
Grade VII- Agood development of fractional concepts. Pupils fair.
Grade VIII- The work of this class has been held back due to the absence during harvest leave. Two or three very good pupils in this grade.

Dear Sir:

Mr. N. J. Kroeker has commenced his duties as teacher on the Red Pheasant Reserve. Due to weather conditions in the west he was unable to make train connections but we were able to take him to the Reserve by team on Thursday. He is staying for the present with Mr. Bursh, but will move into the house as soon as the renovation work which Mr. Bell contemplates is completed.

Mr. Kroeker appears to be an earnest, sincere man of quiet disposition. In his approach to his work, which is new to him as far as Indian Work is concerned, he was very thoughtful and enquiring. Knowing something of the difficulties before him and of the run-down appearance of the school property he is prepared to take on the work with the sense of obtaining a satisfying vocation and career. I was attracted to him and if his work is as satisfactory as we have been led to expect I am sure that we have a good man. His wife and two children will join him, probably after the present school term.

The school has been very satisfactorily repaired for use. The house has some minor repair work to be done and the interior is to be redecorated. For all of this I am grateful for it will be an encouragement to these people to create a home. I should like to urge thatsome considerable work be done on the grounds about the school and teacherage. The garden has been very much neglected and requires good working in order that proper use can be made of the grounds. Mr. Kroeker is able to teach gardening and I believe his Mennonite background will serve him here in good stead. The fence has all but disappeared. This should be restored since a well kept fence about an isolated property does much to create the atmosphere of respectability and prosperity. The barn at the teacherage also needs some repair work done and since Mr. Kroeker will need a cow I would recommend that this repair be done.

I should like to express by appreciation of the assistance given and of the forbearance of the Department in the treatment of the teachers we have had on the reserve during the past few years. It has been difficult to secure teachers during the time of teacher shortage and those whom we did secure have not always shown the real interest in the problem we have continually to face. It is to be sincerely hoped that the present incumbent will prove as satisfactory as my remarks above would lead one to expect.

Thanking you, and with kindest regards,

Yours faithfully,

Dear Canon Hives:

Re: Red Pheasant Indian Day School

I have for answer your letter of 12th February, 1949, and am pleased to note your satisfaction with regard to both the new teacher and the repairs carried out at the above school.

I have drawn your comments to the attention of Mr. Bell and have no doubt that he will be able to recommend the necessary repairs.

I share your hope that this teacher will prove satisfactory, and that the salary and superannuation rates will prove sufficiently attractive to him that he will remain in our service.

SUPERINTENDENT OF EDUCATION.

Red Pheasant - New School.

Mr. Ostrander has recommended a new school for the Red Pheasant Reserve. As the present buildings are adequate for the present potential school population of all denominations, it would seem that a greater need for a school exists on the Contiguous Reserve for the Mosquito or Stony band. Fifteen of these children are enrolled at the Red Pheasant school and their transportation costs this Department $3. a day.

There was formerly a school on the Mosquito Reserve under Protestant direction.

Water seems to be hard to find anywhere on the Red Pheasant Reserve. Wells have been sought at various points unsuccessfully, and water has to be hauled to the present Red Pheasant School and teacherage daily.

On the Mosquito Reserve, however, water is stated to be more easily available.

The Roman Catholic children of both these reserves were formerly sent to the Thunderchild Residential School. Some may now be in Muscowequan and Onion Lake.

In 1953 there is the prospect of seventy children of school age on the Red Pheasant Reserve and thirty eight on the Mosquito Reserve. Of the fifty children presently of school age on the Red Pheasant Reserve thirty are enrolled at the Red Pheasant School which, according to the statistical analysis which appears one folio down accounts for only half the Protestant children from that Reserve whose parents may be keeping their children at home,

claiming that transportation should be provided.

The buildings at Red Pheasant resemble those at Little Pine where we use the lunchroom as a second classroom. If the Roman Catholic population on the Red Pheasant Reserve press for a day school then we might split up the lunchroom and attempt to conduct ~~a additional~~ denominational school on the Assiniboine pattern.

The Mosquito Reserve, however, remains a one-room prospect for many years to come unless the transportation of all pupils of all denominations to the Red Pheasant School is arranged.

Considering the implications for the future, I would suggest that Mr. Superintendent Bell be requested to complete copies of the attached pro forma for the Red Pheasant and Mosquito bands. It would be well to have similar statistics for the Poundmaker, Moosomin, Little Pine and Sweetgrass Reserve.

Mr. J.P.H. Ostrander,
Regional Supervisor of Indian Agencies,
304 Post Office Building,
R e g i n a, Saskatchewan.

We have recently had a question raised on the Floor of the House with regard to our building plans next year on the various reserves in the Battleford Agency.

By coincidence, Major Clark and I were at that time discussing the Red Pheasant-Mosquito situation. I understand that some 15 of the children from the Mosquito Reserve are being transported daily to the Red Pheasant School. It would seem that a careful check will have to be made into the immediate and future needs for the children on the Mosquito Reserve. I am therefore attaching, for completion by Mr. Bell, the forms used to provide these statistics.

He advises me that the water situation on the Red Pheasant Reserve is unsatisfactory but that it is more available on the Mosquito Reserve. I am also advised that there was formerly a school on the Mosquito Reserve for the Protestant children.

If a new school is built on the Mosquito reserve, we understand that the present day school on Red Pheasant will be satisfactory, in view of repairs recently carried out there. I am sending two copies of this letter to you, in the event that you will wish to forward one to Mr. Bell.

Attention: Mr. Neary.

I have received Department letter of the 18th 618-1(E) regarding education facilities on the Red Pheasant and Mosquito Reserves of the Battleford Agency.

I have written to Mr. Bell asking him to complete and return the Statistical Forms as soon as possible. I shall make a definite recommendation with regard thereto as soon as I hear from Mr. Bell.

I am forwarding under seperate cover a Quonset School plan on which the J.R. Paisley Steel Buildings Limited of Regina have made an estimate of approximately $9,000. Perhaps you have already received a similar plan, but I thought it advisable to forward this for your perusal. I believe the price is quite attractive and I see little to criticize in this building. If we are to have combined classroom and teacherage buildingserected at approximately $9,000, we may be able to have more Schools erected this year than we originally planned.

I would be glad if you would return the Quonset Folder with Plan to me when it has served its purpose.

Dear Sir:

Re: Pay Cheque of April 14. - Stub. No. A2 - W072895

I have lost my pay cheque presumably in the post office in Battleford on April 22. I notified our Indian Office at Battleford and they ordered the Bank to stop payment of the cheque in case it shouldbe presented by someone. After a close search we have not been able to locate it anywhere. Mr. Cookburn, the Clerk of our Indian Office, Battleford, advised me to report this case to you immediately.

Kindly attend to this immediately and let me know about it. I am attaching the stub of that cheque to this letter.

Education

We were not very fortunate in the operation of the Red Pheasant Day School, of the Battleford Agency, during the present term. The school wasopened at the beginning of the term with an unsatisfactory teacher who eventually fractured her hip, resulting in the school being closed for a time. It has recently re-opened with a new teacher, whose services are promising for the future. The water supply as the Red Pheasant Day School is still unsatisfactory, and I do not know when the problem will be solved. Certainly I am not in favour of large further expenditures on the building at the present site unless we can find a satisfactory water supply.

at the Red Pheasant Ind. Day School

We had received about 20 yards of towelling from the Dept. for the 27 pupils and proceeded as follows:

Department of Mines & Resources
Indian Affairs Branch
MAY 25
P. M.
RECEIVED

I Preparation:

1. The towels were cut in equal lengths.
2. The the pupils each brought a needle and thread to school and hemmed the ends by hand.
3. I now prepared patterns with bold numbers which were traced on white canvass and were cut out in school.
4. The pupils took the towels home and sewed the numbers on and embroidered the edges of the letterH.
5. Then a loop was sewed to the edge of each towel.

II Method of Towel Check up

1. I made a list with numbers opposite their names.
2. The towels hang in that order in the hall.
3. Every 1st and 3rd Friday in a month the towels are taken home for laundering and are to be returned on the following Monday.

III Wash Routine

1. I have filled a large kettle with warm water at recess and placed it in the hall.
2. At the appointed time at noon the oldest pupil acts as supervisor helping the younger pupils to get their towels, looking after order, carrying out the slop pail etc.
3. Two other pupils take turns once a week to change the water for the pupils.
4. They wash in definite groups keeping their order, the smallest first.
5. Two large cakes of soap a month are about a standard requirement for the whole school.

The giggling and chattering tells me they areas happy as ducks enjoying life and establishing proper habits.

Sincerely,

Indian Affairs. (RG 10, Volume 6291, file 618-1, part 2)

Dear Mr. Neary,

Would it be possible for me to take leave of absence now for a year or two to take up a position on Vancouver Island under the B. C. Dept. of Education? That would enable me to qualify for the permanent first class for B. C. and I would not have to move my family here to Sask. for the time being. Then should there be no vacancy in B. C. under the Indian Dept. I'd be able to move to Sask. provided there is an opening. I have two children of school age and have to consider carefully every move I am making.

May I also take this opportunity to express my appreciation of having the privilege to work with your Dept. and to thank you for the personal touch you have extended to us teachers. The recent article in "The Standard"is making you dearer to us and we wish you God's blessing all the way.

Re: Mr. N.J. Kroeker,

With reference to Mr. Neary's letter of July 12th concerning the possible transfer of the above mentioned teacher to an Indian Day School in B.C., Inspector Davey has had some correspondence with Mr. Kroeker but has not received completed application forms and has nothing to indicate the denomination to which he is affiliated. Mr. Kroeker has in the past been very slow in replying to the Inspector's letters and if the Department could supply information regarding his religious affiliation it would probably expedite a decision.

Red Pheasant Indian Day School.

Dear Canon Hives:

I note that you have been unable to interest anyone in the Red Pheasant Indian Day School. I would suggest that we insert the following advertisement in Prairie newspapers and see whether we can interest anyone in this position:

WANTED - Protestant teacher for Indian Day School at Red Pheasant, Saskatchewan. Salary schedule First Class Certificates $1680 to $3120; Second Class Certificates $1560 to $2040. Details and application forms available from Mr. J.P.B. Ostrander, Regional Supervisor of Indian Agencies, 304 Post Office Building, Regina, Saskatchewan.

I would appreciate hearing from you as to whether you have anyone in mind for this post.

Yours sincerely,

Bernard F. Neary,

Department of Mines and Resources,
Ottawa, Ont.

Dear Sir:

With regard to the vacancy of the position of the teacher for Red Pheasant School, I have been endeavoring ever since I was acquainted with the fact of the vacancy, to secure a teacher for the school. I have today received a letter from a Mr. Silversides of Regina indicating that he is not at present interested in the school at Red Pheasant.

At your suggestion I will place another advertisement in the papers. There are several schools in this immediate vicinity without teachers and I am given to understand from the school superintendent that the teacher shortage is a matter of concern throughout the Province.

Atthe present moment I am commissioned only to act in this matter in accordance with the established procedure by which the Church authority nominates the teacher to the Department. If as your letter suggests that this method should be abrogated it should be done by the Department in communication with the Bishop. Personally, I should be sorry to see the discontinuance of this practice since I have been looking forward to the possibility of a closer co-operation between Department and Church.

I regret that the Department has discontinued the practice of sending the School Bulletins and Salary Revision Schedules as these were always a help to me in discussing teaching matters with prospective teachers &c. However I have found the regional Indian Office most co-operative and understanding in our common difficulties.

I shall inform you immediately when a satisfactory application has been received. There have been only two rejected applicants, one on account of illiteracy and the other for unsatisfactory training and also adverse comment from the Agency in which previous teaching had been carried on.

Thanking you for your interest,

yours faithfully, H.E. Hives.

Dear Canon Hives:

I have for answer your letter of November 4 and am sorry that Mr. Silversides is no longer interested in this position.

I was the one who originally suggested him as we were uncertain as to whether we could hire both he and his wife for the new File Hills Colony school.

With regard to advertising, we have been placing such advertisements for the past three years now in order to assist the Churches in locating teachers. Naturally, the applicants are discussed jointly with you before any decision is reached.

I am sorry to learn that you have not been receiving the school bulletins. On checking we find that we had not been advised of your change of address from Saskatoon and the bulletins have been going there. I am sending you attached hereto a copy of the September 1949 issue with details of the new salary schedule.

Yours sincerely,

Bernard F. Neary,

II. PROFESSIONAL & ACADEMIC QUALIFICATIONS

I attended high school at North Battleford Regina in the Province of Saskatchewan and received a Matric Certificate after successfully completing 4 years of high school. I then attended University of Saskatchewan University for a period of 4 years and received a Bachelor of Arts (Regis) degree (only where applicable; give other details on back).

I attended a Teacher Training Course at Regina Normal School in the Province of Saskatchewan for 12 months in the years 1939-40.

I hold a Superior 1st Class Teacher's Certificate of a permanent (temporary or permanent) nature in the Province of Sask. It is numbered 52-43 dated 16th August 1940. and is valid until "during the pleasure of the Minister"

IV: Re. Summer Schools:

I took 5 subjects by Summer School, Eng 2, Physics 2., Hist. 9. History 24., Math 6, Math 3b and Astronomy 11 to obtain my Superior 1st class Certificate. I have 24 classes in all to obtain my Bachelor of Sc. (Agric) degree.

I do agricultural Mechanics classes; 15a + 12a, I feel would enable me to instruct the Indian boys in motor mechanics, if equipment became available. Such classes as Bacteriology and Animal Nutrition could be applied to hygiene and Home economics which would be of value to the Indian girls.

The reason I obtained my degree in Agriculture was to fit myself for a principal ship of an Indian Residential school where Education and Agriculture could be combined to the advantage of all concerned, but I would be just as satisfied present in an Indian Day School.

Dear Mr. Ostrander:

I am enclosing herewith the first application to be received with reference to the teaching position on Red Pheasant Reserve. I believe that this applicant, Nelson A. Blackwell, has qualifications which should fit him especially for work on the Red Pheasant Reserve, and therefore recommend him for the appointment to this position.

May I suggest that telegraphic confirmation be sent to Mr. Blackwell as soon as the appointment is approved.

There are several other applications that may be returned in due course. If you are interested in receiving any of these for the vacancy on Sweetgrass or elsewhere, I would be pleased to forward them to you.

I am enclosing herewith copy of a letter received from Canon H.E. Hives, of Battleford, Saskatchewan, recommending the appointment of Nelson A. Blackwell, of Vonda, Saskatchewan, as teacher for the Red Pheasant Indian Day School, of the Battleford Agency. Also enclosed is an application form completed by Mr. Blackwell.

I have not had the privilege of an interview with Mr. Blackwell, but Canon Hives assures me that he is suitable, as is indicated by his application form. Having considerable confidence in Canon Hives' opinion, and knowing that he is very anxious to have this position filled by a suitable teacher who will stay, I would recommend the appointment of Mr. Blackwell, to be effective as soon as possible.

AIR MAIL

Regina, November 24th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to Department Army Message of the 23rd instant regarding the appointment of Mr. Nelson A. Blackwell as Indian day school teacher at the Red Pheasant Reserve, of the Battleford Agency, I regret to advise that Mr. Blackwell declined to accept the appointment when informed that his salary would be $228.00 per teaching month.

I have asked Indian Superintendent C.S. Bell to contact Reverend Canon Hives, asking him to submit a recommendation covering one of the other teachers who has applied for the position. I may say there have been many applications, and I have no doubt that we will be able to secure the services of a suitable teacher from one of these.

With reference to the advertisement which was placed in several papers asking for applications for this appointment it is my opinion that the advertisement was well thought out and I see nothing wrong with it, but apparently a number of the teachers who have applied assume from the wording of the advertisement that if they have sufficient years of experience in any school, and high qualifications, they should expect to start at the maximum salary of $3120.00. I may say that in telephone conversation with Reverend Canon Hives he seemed to be labouring under the same misapprehension. I believe it would expedite matters considerably if I was informed of the exact process by which the starting salary of a teacher applicant is decided. I regret to say that I am not at all clear on this myself, and I am, therefore, not in a very good position to advise others. I was confused, for instance, over the application of Miss Virginia Bettschen who applied for a position at the File Hills School and who has about fifteen years teaching experience, with a B.A. and B.Ed. By what process of calculation was it decided that the very maximum which could be paid to Miss Bettschen for a starting salary was $2,640.00 per annum? Compared to this Mrs. Sprague, the teacher at the Little Pine Indian Day School, of the Battleford Agency, is being paid $3,000.00 a year,

with one degree, a B.A.

I am not criticising Department officials in any way in asking for this information, but I would like to be in a better position to tell an applicant, with some degree of accuracy, what salary he or she could hope to receive if appointed. By not being able to give this information immediately we might sometimes miss the opportunity of getting a very excellent teacher into our service.

Reference your 105/2-32 - 2772
of November 24, 1949.

You are far from being the first of our officials to be somewhat confused by the terms of the salary schedule. The main difficulty seems to be with regard to the general regulation allowing a maximum only of five years' service for provincial teaching service. After all, we must be fair to those teachers who remained on in Indian schools, many of them doing a good job, during the days when our salaries were very low. It is standard practice to grant so many years of credit for outside experience and we have set a rather generous maximum at five years.

I can best illustrate this situation by the following examples:

(a) Miss B. Bettscher

Credit for provincial experience ..... 5 years

Credit for Armed Forces experience ..... 2 "

Total ..... 7 "

This means that Miss Bettscher placed on the 8th year as a Grade 3 teacher or at a salary of $2,520.00 a year
plus university degree credit of 120.00
or a total of $2,640.00

Indian Affairs. (RG 10, Volume 6291, file 618-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

(b) Mrs. Sprague -

Years of provincial experience	2 years
Indian school experience (13 years but did not attend sufficient summer schools and credit only for 9 years	9 "
Total	11 "

This would place her at the eleventh year on the scale at $2,880.00 a year but she also has a Bachelor of Arts Degree which entitles her to a bonus of $120.00 per annum. Her salary therefore is $2,880.00
plus 120.00
= $3,000.00

The main point of misunderstanding normally arises with regard to credit for provincial experience and I know you will appreciate why we give more credit for Indian school experience than for provincial experience.

The average teacher coming in to our service would get $228.00 a month as a commencing salary with credit for five years of experience and a First Class Certificate. This would entitle them to start at the sixth year as a Grade Three teacher. This five years of credit for provincial experience would be given to a teacher with 12 years of experience or one with 17 years of experience, etc. If a teacher has only 2 years of provincial experience, then she is given credit only for these two years.

I hope this clarifies the situation for you.

Dear Sir;-

I resigned the position of teacher at Red Pheasant near Battleford on July I7 giving the required month's notice, andleft there on August I7th. to come here.

As the teacher's salary is paid during the vacation monthe ,minus the bonus , I expected to receive the salary for July and the first two weeks of August, as owing to the salary being paid for the vacation , I had to remain at the above place during that period; I wrote the Agent at Battleford last October, and received no answer,

The salary was $50 per month plus bonus , and for the vacation, $50 minus the bonus , thus I feel I am entitled to $75, would you kindly let me know your opinion in the matter and whether you consider that I am entitled to the salary.

Yours faithfully

Ottawa, April 1, 1924.

Reverend Sir,-

I have to acknowledge the receipt of your letter of the 26th ultimo, in which you claim salary as teacher of the Red Pheasant Indian Day School for the period July 1st to August 17, 1923.

In reply I would point out that, in the payment of the salaries of teachers in Indian day schools, the summer holidays are not taken into account and, therefore, no salary is paid for them.

The academic year begins September 1st and ends June 30th, and, while you were in charge of the Red Pheasant school, your salary was paid quarterly. We find, however, on reviewing the payments made to you from the date you began duties, namely, September 1, 1920, to June 30, 1923, there is a balance of salary due you for the academic year 1920-21 amounting to $87.00. To explain this fully to you, the following statement shows the payments made to you during three academic years:-

ACADEMIC YEAR 1920-21.

September	qr.	1920	$63.00
December	"	1920	150.00
March	"	1921	150.00
June	"	1921	150.00

ACADEMIC YEAR 1921-22.

September	qr.	1921	$150.00
December	"	1921	150.00
March	"	1922	150.00
June	"	1922	150.00

ACADEMIC YEAR 1922-23.

September	qr.	1922	$150.00
December	"	1922	150.00
March	"	1923	150.00
June	"	1923	150.00
Total			$1713.00

The total amount you should have received for the three academic years was $1800.00 and, as shown by the above, you only received $1713.00. There is, therefore, a balance due you of $87.00, a cheque for which amount will be forwarded under separate cover.

Sir,-

I have to acknowledge the receipt of your letter of the 22nd ultimo, with reference to the amount paid you for the period you taught the Red Pheasant Indian Day School during the quarter ended June 30th, last.

In reply I beg to say that the salaries of teachers in Indian day schools is paid on a basis of ten teaching months in the school year. Your salary is at the rate of $800.00 a year, or, $80.00 a month and, as you taught a month and a half during the June quarter you were paid $120.00 salary. From this the Department deducted the advance of $50.00, leaving a balance due you of $70.00.

Bonus to teachers of Indian day schools is paid at the rate of $150.00 for ten teaching months, or, $15.00 a month and you were, therefore, allowed bonus for the same period for which the salary was paid, namely, one and a half months, and a cheque for $22.50 was sent you. As your salary was paid on the same basis as the salaries of the other teachers in Indian day schools, there is, therefore, no balance due you.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Sir:

I have your letter of the 14th instant, in which you recommend that the Red Pheasant Indian Day School be kept open during the months of July and August, next, and that the annual summer holidays be taken in September and October, and stating your reasons for making this change.

In reply I beg to say that, if you and the teacher are satisfied that there would be a good attendance during the two summer months mentioned, the Department would have no objection to giving this arrangement a trial during the coming summer. We have noted that the average attendance has been slightly lower during the quarter ended September 30th than for the ~~fifth quarter~~. The teacher and yourself are in the best position to decide as to the advantage to be gained in the change in the usual annual holiday period, and this matter will be left in your hands.

I shall be pleased if you will advise the Department at a later date as to whether the school will be conducted during the two months mentioned and the annual holidays taken during September and October, next.

Sir:

I have your letter of the 28th ultimo, informing the Department that Miss Ruth W. Johnston, who holds a second class teacher's certificate, has been engaged as temporary teacher to assist Mrs. Roberts in the work at the Red Pheasant Indian Day School until such time as Mr. Roberts is able to resume duties.

In reply I beg to say that the Department will approve of the temporary appointment of Miss Johnston. As stated in previous correspondence, the salary allowed her as substitute teacher will be at the rate of $60 per teaching month. We note that she began duties on the 21st ultimo.

In connection with the request made by Mrs. Roberts, which was referred to in official letter to you of the 23rd ultimo, relative to the payment of salary to Mr. Roberts during the months of July and August to reimburse him for expenses occasioned by his illness, I beg to say that we can allow him payment for one month's salary only during the quarter ended September 30th, last. When payment of the salaries due for that quarter are being made, a cheque to the amount of $95 will be forwarded in favour of Mr. Roberts.

A return should be prepared by Miss Johnston, showing the days she taught and the attendance between the 21st of September and the end of the same month. When this is received, payment of the salary due her will also be made.

I may add that it is presumed the Church authorities concur in the appointment of Miss Johnston.

Sir:

I beg to inform you that the Church authorities of the Diocese of Saskatchewan have nominated the services of Mr. Henry Reynolds as teacher, and his wife, Ada Isabel Reynolds, as field matron, at the Red Pheasant Indian Day School. The Department has approved of these appointments, and Mr. and Mrs. Reynolds will take up duties on the 21st instant. The continuing of the work after June 30th, next, the end of the present school year, will depend entirely upon the success met with by Mr. and Mrs. Reynolds. We are allowing Mr. Reynolds salary at the rate of $65 per teaching month, and Mrs. Reynolds, who is to perform the duties of field matron for the Indians of the Red Pheasant and Stoney Reserves, will receive salary at the rate of $40 per month for the full twelve months' period in the year.

I have to request that you will give Mr. and Mrs. Reynolds every assistance you can upon their taking up duties at this school.

April 6th 1927.

Sir:-

I beg to forward herewith, School Returns for quarter ending March 31st 1927, from the Thunderchild Residential School and the Day schools at Little Pines, Thunderchild and Red Pheasant.

I might add that the Red Pheasant Day school was opened again on March 21st, Mr and Mrs Henry Reynolds arrived on the 18th, to commence their duties as Teacher and Field Matron and seem to be a very capable couple and are going at their duties right from the start in a business like way, but weather and storms have been so bad, that they have been badly handicapped todate.

Mrs Ada.I.Reynolds was omitted in error from the March return of Employees, so a special Voucher #429, is being forwarded to the Department for her Salary from March 18th to 31st.

Ottawa, April 14, 1931.

Sir:

I have your letter of the 7th instant, relative to the application of Mr. Henry Reynolds, teacher of the Red Pheasant Indian Day School, for one week's leave of absence in June, next, in order that he can attend the Anglican Synod at Prince Albert.

In this connection it is noted that you granted Mr. Reynolds permission to keep the school open for one week during the Easter holidays, in order to make up for the period he will be absent in June. The Department approves of leave of absence being granted Mr. Reynolds to attend the Synod, and your action in granting him permission to make up for this time by teaching during the Easter holidays is approved.

Your obedient servant,

A. F. MacKenzie,
Secretary.

EX'D.

Ottawa, April 30, 1913.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd instant accepting the position of inspector of the school buildings to be erected on the Red Pheasants Reserve.

I am sending you, under separate cover, copies of the plans and specifications and wish to draw your attention to the fact that stone is to be substituted for concrete in the foundation of the school building.

Payment will be made to the contractor as the work progresses: up to 90% of the value of work performed and material on the ground upon the receipt of certificates from you. I am enclosing herewith blank certificates, which you will be good enough to fill in carefully when an advance is wanted and submit <u>in duplicate</u> to the Department. On this form you will notice that there is a space provided to show the amount of the certificate as recommended by you and also a space to show the total amount of labour and material in the building at the time the certificate was made. You should be careful, therefore, that the amount asked for does not exceed 90% of the value of the labour and material. I may add for your information that the contract price for these two buildings is $6415.00.

Dear Sir;

I beg to make a report of having made two trips to the Red Pheasant Reserve,and excavation for both buildings has been started.

Owing to the time which elapses between the inspections it will be impossible for me to give an accurate estimate of the amount of work done and the quality of material,as the contractor could cover up his work on either of these buildings in one weeks time,and at least two inspections a week are necessary.

If the Department have any regular forms which they use for inspections of this nature,kindly send me some.

This day I made an inspection on work in progress on the Red Pheasant Reserve, and found both buildings ready for the plaster,and all work has been done in a businesslike manner.

In my last report I made a suggestion that the spruce finishing lumber be substituted for fir,and also a change be made in the paint for inside work.

Will you kindly send me your instructions re this,as I am stopping all delivery of Finishing material until I hear from you.

I gave contractor instructions to place man-hole in school-house in centre of cloak room ceiling,this in order to give head-room above.

Dear Sir;

I enclose herewith Certificate # 2 entitling J,H,Storer to a payment as shown on same.

At my inspection on above date I found the plasterers just completing their work on the teachers residence,and the painters busy on both buildings.

The plastering on the school house however is delayed, awaiting a reply to my previous letter,suggesting several changes.

I found that the contractor had not followed the plans on the stairway leading to the basement, having brought them two feet nearer the kitchen than they should have been,thus bringing them in the centre of an entrance to a closet.

I instructed contractor to correct this mistake.

The roofs of these buildings will be painted a dark green, the walls white and the trimmings a light green.

SASKATCHEWAN STATUTORY CONDITIONS.

1. If any person or persons insures his or their buildings or goods and causes the same to be described otherwise than as they really are to the prejudice of the Company, or misrepresents or omits to communicate any circumstance which is material to be made known to the Company in order to enable it to judge of the risk it undertakes, such insurance shall be of no force in respect to the property in regard to which the misrepresentation or omission is made.

2. After application for insurance it shall be deemed that any policy sent to the assured is intended to be in accordance with the terms of the application unless the Company points out in writing the particulars wherein the policy differs from the application.

3. Any change material to the risk, and within the control or knowledge of the assured, shall avoid the policy as to the part affected thereby, unless the change is promptly notified in writing to the Company or its local agent; and the Company when so notified may return the premium for the unexpired period and cancel the policy, or may demand in writing an additional premium, which the assured shall, if he desires the continuance of the policy, forthwith pay to the Company; and if he neglects to make such payment forthwith after receiving such demand, the policy shall be no longer in force.

4. If the property insured is assigned without a written permission endorsed hereon by an agent of the Company duly authorized for such purpose, the policy shall thereby become void; but this condition does not apply to change of title by succession, or by the operation of the law, or by reason of death.

5. When property insured is only partially damaged, no abandonment of the same will be allowed unless by the consent of the Company or its agent; and in case of the removal of property to escape conflagration the Company will contribute to the loss and expenses attending such act or salvage proportionately to the respective interests of the Company or Companies and the assured.

6. Money, books of account, securities for money, and evidences of debt or title are not insured.

7. Plate, plate glass, pinted ware, jewelry, medals, paintings, sculptures, curiosities, scientific and musical instruments, bullion, works of art, articles of vertu, frescoes, ebooks, watches, trinkets, and mirrors are not insured unless mentioned in the policy.

8. The Company is not liable for loss if there is any prior insurance in any other Company unless the Company's assent thereto appears herein or is endorsed hereon, nor if any subsequent insurance is effected in any other Company, unless and until the Company assents thereto, or unless the Company does not dissent in writing within two weeks after receiving written notice of the intention or desire to effect the subsequent insurance, or does not dissent in writing after that time and before the subsequent or further insurance is effected.

9. In the event of any other insurance on the property herein described having been assented to as aforesaid then this Company shall, if such other insurance remains in force, on the happening of any loss or damage, only be liable for the payment of a ratable proportion of such loss or damage without reference to the dates of the different policies.

10. The Company is not liable for the losses following, that is to say:

(a) For loss of property owned by any other party than the assured, unless the interest of the assured is stated in or upon the policy;

(b) For loss caused by invasion, insurrection, riot, civil commotion, military or usurped power;

(c) Where the insurance is upon buildings or their contents for loss caused by the want of good and substantial brick or stone chimneys, or by salve or embers being deposited with the knowledge and consent of the assured, in wooden vessels, or by stoves or stove-pipes being to the knowledge of the assured in an unsafe condition or improperly secured;

(d) For loss or damage to goods destroyed or damaged while undergoing any process in or by which the application of fire heat is necessary;

(e) For loss or damage occurring to buildings or their contents while the buildings are being repaired by carpenters, joiners, plasterers, or other workmen, and in consequence thereof, unless permission to execute such repairs had been previously granted in writing signed by a duly authorized agent of the Company; but in dwelling houses, fifteen days are allowed in each year for incidental repairs, without such permission;

(f) For loss or damage occurring while petroleum, rock-earth, or coal-oil, camphene, gasoline, burning fluid, benzine, naphtha or any liquid products thereof, or any of their constituent parts (refined coal-oil for lighting purposes only, not exceeding twenty gallons in quantity, or lubricating oil not being crude petroleum nor oil of less specific gravity than required by law, for illuminating purposes, not exceeding twenty gallons in quantity, except in mercantile establishments, for sale, unless permission is given in writing by the Company.

11. The Company will make good loss caused by the explosion of coal gas in a building not forming part of gas works, and loss by fire caused by any other explosion or by lightning.

12. Proof of loss must be made by the assured although the loss be payable to a third party.

13. Any person entitled to make a claim under this policy is to observe the following directions:

(a) He is forthwith after loss to give notice in writing to the Company;

(b) He is to deliver, as soon afterwards as practicable, as particular an account of the loss as the nature of the case permits;

(c) He is also to furnish therewith a statutory declaration, declaring—

(1) That the said account is just and true;

(2) When and how the fire originated, so far as the declarant knows or believes;

(3) That the fire was not caused through his wilful act or neglect, procurement, means or contrivance;

(4) The amount of other insurance;

(5) All liens and encumbrances on the subject of insurance;

(6) The place where the property insured, if movable, was deposited at the time of the fire;

(d) He is in support of his claims, if required and if practicable, to produce books of account, warehouse receipts, and stock lists, and furnish invoices and other vouchers, to furnish copies of the written portion of all policies, to separate as far as reasonably may be the damaged from the undamaged goods, and to exhibit for examination all that remains of the property which was covered by the policy;

(e) He is to produce, if required, a certificate under the hand of a justice of the peace, notary public or commissioner for taking affidavits, residing in the vicinity in which the fire happened, and not concerned in the loss or related to the assured or sufferers, stating that he has examined the circumstances attending the fire, loss or damage alleged, that he is acquainted with the character and circumstances of the assured or claimant, and that he verily believes that the assured has by misfortune and without fraud or evil practice sustained loss and damage on the subject assured, to the amount certified.

14. The above proofs of loss may be made by the agent of the assured in case of the absence or inability of the assured himself to make the same, such absence or inability being satisfactorily accounted for.

15. Any fraud or false statement in a statutory declaration in relation to any of the above particulars shall vitiate the claim.

16. If any difference arises as to the value of the property insured, of the property saved, or amount of the loss, such value and amount and the proportion thereof, if any, to be paid by the Company, shall, whether the right to recover on the policy is disputed or not, and independently of all other questions, be submitted to the arbitration of some person to be chosen by both parties, or if they cannot agree on one person, then to two persons, one to be chosen by the party assured and the other by the Company, and a third to be appointed by the persons so chosen, or in the event of their failing to agree, then by a judge of the Supreme Court of the North-West Territories; and such reference shall be subject to the provisions of *The Arbitration Ordinance*; and the award shall, if the Company is in other respects liable, be conclusive as to the amount of the loss and proportion to be paid by the Company; where the full amount of the claim is awarded the costs shall follow the event; and in other cases all questions of costs shall be in the discretion of the arbitrators.

17. The loss shall not be payable until thirty days after completion of the proofs of loss, unless otherwise provided for by the contract of insurance.

18. The Company, instead of making payment, may repair, rebuild or replace within a reasonable time the property damaged or lost, giving notice of their intention within fifteen days after the receipt of the proofs herein required.

19. The insurance may be terminated by the Company by giving five days personal written notice to that effect, and, if on the cash plan, by tendering therewith a ratable proportion of the premium for the unexpired term, calculated from the termination of the notice; and the policy shall cease after such tender and notice aforesaid, and the expiration of the five days:

(a) The insurance, if for cash, may also be terminated by the assured by giving written notice to that effect to the Company, or its authorized agent, in which case the Company may retain the customary short rate for the time the insurance has been in force and shall repay to the assured the balance of the premium paid.

20. No condition of the policy, either in whole or in part, shall be deemed to have been waived by the Company unless the waiver is clearly expressed in writing signed by an agent of the Company.

21. Any officer or agent of the Company who assumes on behalf of the Company to enter into any written agreement relating to any matter connected with the insurance shall be deemed *prima facie* to be the agent of the Company for the purpose.

22. Every action or proceeding against the Company for the recovery of any claim under or by virtue of this policy shall be absolutely barred unless commenced within the term of one year next after the loss or damage occurs.

23. Any written notice to a Company under any of these statutory conditions, where the mode thereof is not expressly provided, may be given, delivered at the head office of the Company in the North-West Territories, or by registered post letter addressed to the Company, the manager or agent, at such head office, or by such written notice given in any other manner to an authorized agent of the Company.

VARIATIONS IN CONDITIONS.

This policy is issued on the above Statutory Conditions with the following variations and additions. These variations and additions are, by virtue of the Fire Insurance Policy Ordinance in that behalf, in force so far as, by the Court or Judge before whom a question is tried relating thereto, they shall be held to be just and reasonable to be enacted by the Company.

1. *The loss shall not be payable until sixty days after completion of the proofs of loss.*

2. *If any building herein described be or become vacant or unoccupied, and so remain for the space of thirty consecutive days, or being a manufactory, shall cease to be operated for that length of time, this policy shall be void, unless notice of such vacancy or non-occupation has been consented to in writing by this Company.*

3. *It is a term of this insurance contract, that in the event of disagreement as to the amount of damage to the property insured which has been saved in a damaged condition, the same shall be ascertained by two competent and disinterested Appraisers, the Insured and this Company each selecting one, and the two so chosen shall first select a competent and disinterested Umpire. The Appraisers together shall then estimate and appraise such damage in detail, stating separately sound value and damage, and, failing to agree, shall submit their differences to the Umpire, and the award in writing of any two shall determine the amount of such damage. The parties thereto shall pay the Appraiser respectively selected by them, and shall bear equally the expenses of the appraisal and Umpire.*

4. *This Company will not be bound by any VERBAL understanding.*

5. *If, at the time of any loss or damage to any property hereby insured, there be any other subsisting insurance covering such property, either alone or together with any other property, effected by or on behalf of the Insured subject to any condition of average or any special advantage in favour of the Insurers, the insurance of such property by this policy shall be subject to such condition of average or such special advantage in like manner.*

6. *This policy shall cover loss or damage by Lightning to the property hereby insured whether fire ensues or not provided that in case of damage by lightning to property upon which there is other insurance, this Company shall be liable only for such proportion of the loss or damage as the amount hereby insured bears to the whole amount insured thereon, whether such other insurance contains a similar clause or not. Nothing in this or the preceding sentation shall be construed to lessen the right of the Company to refuse to pay, by reason of any insurance without notice referred to in condition 8 of the above Statutory Conditions, any loss claimed under this policy.*

7. *The Company is not liable under this policy for any damages (not being damages caused by the actual burning of, or partial burning of the insured property by fire) caused or partially caused by or arising from explosion, whether such explosion originates from fire or otherwise.*

8. *If the Company should at any time decide to terminate the insurance or cancel this policy, it may do so under the above conditions without tendering with any notice to such effect a ratable proportion of or returning the premium for the unexpired term of the Insured has not in fact paid the premium referred to in the interim receipt or policy nor given to the Company approved security therefor.*

Dear Sir;

Since my first letter refering to the inside wood work on school and teacher's residence was misunderstood,I would like to have some definite word from the Dept; as to whether they do not think it advisable to have all the inside finish in these two buildings of fir lumber instead of spruce,as called for in the specifications.

My reasons for this will be found in my previous letters.

I have had a great deal of experience in the building line,and I found that spruce lumber could not be used for inside finishing work with good results.

The extra cost of placing plaster above the fir lumber in ceiling of school house will be $60.00.

This came within $2.00 of what I estimated,so I gave the plasterers instructions to do this work.

No mention is made in the specifications for [redacted] out-houses for these two buildings,and I would like to have instructions from the Dept; about same.

Yours truly,

Inspector Red Pheasant Reserve.

EXCISE

Dear Sir; Re Red Pheasant And Stoney Reserve Contracts.

The men employed by J,H,Storer on above contractor have made a complaint to me,that they are not getting their wages,and most of them have left the work and are threatening to file Mechanics Liens upon these buildings.

The last estimate to Mr Storer was used as a deposit upon another contract.

In order to protect the Dept,I would suggest that the contractor be asked to show receipts for all material and labor used in these buildings.

Kindly give me instructions re above.

Dear Sir;

Re Red Pheasant School Buildings,

Work on the above buildings is progressing very favourably, and should soon be completed.

The extra plaster has been placed between ceiling joists, and will make a far warmer building.

All the material is on the ground to complete these buildings.

No details were shown on the plans for the tables and forms in the children's dining room, so I laid these out for the contractor, giving him the width and height, and also the material to be used.

The grounds around these buildings were in a dirty condition, and the contractor was given instructions to clean up same.

A quantity of gravel left over from cement work, will be placed to form a walk between the two buildings.

Dear Sir;

Re outhouses at RedPheasant School Buildings,

During an interview I had with the Health Officer,he claimed that if boxes were placed in these buildings to receive refuse,they would only be a harbor for insects in the summer and would freeze up in the winter,making it very inconvenient to clean them out.

I would suggest that in place of boxes,a hole be dug in the ground,to a depth of five or six feet,and the building placed over this.

At this depth the refuse would practically eat itself up, and a little lime and bluestone sprinkled over occasionally,would make a healthy and sanitary closet.

Dear Sir;

Re Red Pheasant School Buildings.

During my inspection of these buildings, I had with me, Mr W.J.Chisholm of Prince Albert.

There are several small details which will have to be fixed before these buildings will be accepted from the contractor.

Most of the Teachers House will have to be re-painted, and part of the School.

Dark spots on the plaster in both buildings will have to be whitened, and a few craks plastered.

The grounds will also have to be straightened up, and all refuse removed.

Yours truly,

J McDonnell

Ottawa, September 19, 1913.

Sir,-

I have to acknowledge the receipt of your letter of the 13th instant in reference to the furnishing of the combined day school for the Red Pheasants and Stony Reserves.

In reply I beg to say that the Department considers that it would be advisable to put in double desks of the kind known as double separate, that is with individual seats, as the number of single desks that would be accommodated might not be sufficient for the children that will attend. You may, therefore, purchase desks of this kind and also a teacher's desk and chair. It is not considered necessary to expend the amount mentioned by you in the purchase of a teacher's chair, as an ordinary arm chair will be sufficient. You may also purchase window shades for the school-room.

With regard to the ranges I beg to say that the Department will supply these, as they will be used in the preparation of the mid-day meal for the pupils. Be good enough to consult those interested and ascertain what kind of a range would be suitable and submit an estimate of the cost.

The Department will also supply window shades for the residences on the Red Pheasants and Little Pines Reserves.

Sir,-

The Department regrets that your letter of August 11, last, in reference to the digging of a well, fencing and building a stable at the new Red Pheasants School was inadvertently overlooked.

The Department considers that this work should be done in connection with the school and you may arrange to have the well dug, the fence erected and a good stable built on the specifications submitted by you. The work should be done by day labour and material purchased at the closest possible prices. The vouchers must show in detail all material bought with prices and the amount of labour involved with the rates of wages paid, which must be reasonable.

Dear Sir:

Re Stoney and Red Pheasant Buildings.

Very little progress has been made on the farm buildings at Stoney Reserve, the contractor devoting his time to the extra buildings and work which was found necessary at Red Pheasant.

As there remains very little to do to complete his contract for the farm buildings, I believe it will not be long before these can be turned over to the Dept.

The School Buildings at the Red Pheasant Reserve are completed, and may now be taken over by the Dept.

The material supplied and the work done has been according to the specifications, and a very satisfactory job has been made, and ~~the Dept~~ I would suggest that the Dept accept these buildings at once, especially the teacher's house, as a quantity of rain water has accumulated in the cistern, and on my last inspection I found a thin layer of ice had gathered on the top of the water, which if allowed to gain any size will burst the

Sir,-

Reference your letter 117054-5-5 , December 27th., 1916.

I beg to advise you that I have looked into the matter of the heating of the Red Pheasant and Stoney and Littlepine Schools.

The Red Pheasant and Stoney School has four hot air registers in the school room and one in the lobby. There are two cold air registers, one in the school room and one in the lobby. I have marked these on the plan. There is a foul air register which is marked on the plan but which does not work. Instead of carrying off the foul air, the draught comes down the flue and cold air is projected into the room.

MAR 1 1917 ARCHITECT.

The heighth of the furnace top to basement ceiling is two feet four inches. The location of the furnace is marked on the plan. The distance from the earth to the joists is three feet. This building is on a stone foundation and a portion can easily be removed if excavating is required.

A stove was put up in the school room this winter and on my last visit, which was a very cold day being 30 degrees below zero with a strong wind, the room was quite comfortable. They informed me that since the stove has been in use they are able to warm the room in the morning in one hour.

In the Littlepine School there are two hot air registers which are situated in the partition between the school room and lobby. These are seven and a half feet from the floor, behind and on either side of the teacher's desk.There are two cold air registers in the school room. In the lobby there is one hot air register behing the door leading into the school room. There is also one cold air register in the lobby. The hot air register in the lobby is in the wall next to the floor. The location of the furnace as marked on the plan is correct.

The distance from the furnace top to the ceiling of the basement is two feet two inches. The height from th earth to the joists in the unexcavated portion of the basement is two feet six inches.

This building has a cement foundation and will be more expensive to remove if excavating is done.

The stove in the school room has been put up since my last visit and regards this Mr. English wrote me on the 9th inst as follows,- "I wish to inform you that the stove in the school room is now in use and is a splendid success. I light the fire about 8.45 and in a few minutes the room is quite warm. I now very seldom use the furnace in the basement. The consumption of fuel is now cut down by at least 50% , so that the stove is a success in a double sense."

I have no suggestions to offer excepting that I agree with Inspector Crombie that the furnaces should be placed more central.

Yours obediently,

J. A. Rowland

Sir,-

I beg to acknowledge the receipt of your letter dated 14th ultimo in reference to the Red Pheasant, Little Pine and Stony Schools, and in reply to inform you that as the stoves supplied are evidently heating the building to the satisfaction of the teachers as shown by your letter and no funds available for the extension of the basement of the buildings, consideration of this will be deferred until a more opportune time.

Sir:

The Department is in receipt of your voucher No. 170 covering the cost of driving the children of the Stony Band to the Red Pheasant Day School during the month of September.

In this connection I would refer you to the last paragraph of official letter of February 22nd, last, in which you were instructed to communicate with the Department before arranging for the driving of the children during the academic year 1933-34.

Payment of the account is being withheld until your reply is received stating whether or not you have further considered the matter and if you believe it would be possible to discontinue driving these children.

Sir:-

I begto acknowledge receipt of Department letter No.105-6-5, re School driver for the Stony reserve to the Red Pheasant Day School.

I have to acknowledge an error,in not reporting to the Department,but the paragrah referred to by the Department had been in my mind as being in connection with the Driving at Little Fine.My letter of Feb 16th had recommended keeping the driver on steadily at the Stony reserve,as all the families lived too far from school to be able to attend otherwise.

I regret overlooking the Departments instructions and would ask that the continuation of driving be allowed on the Stony reserve,the attendance has been good at the Red Pheasant school,with about 25 children attending last month and as long as it keeps up this way the children and school will be doing good work.

The driving from the Red Pheasant reserve will not be required,as the families with children live within reach of it.

With regard to the driving at Little Pines, I would ask the driver be used again from the 1st of December to the 15th of April as there are many small children attending who could not possibly go otherwise during winter the months and the attendance is very good at this school.

Your obedient servant,

Ottawa, October 25, 1933.

Sir:

I have your letter of the 20th instant, with reference to continuing the employment of a driver in transporting the children from the Stony Reserve to the Red Pheasant Indian Day School and also with regard to continuing the services in driving the children on the Little Pines Reserve.

In reply I have to say that, in view of your recommendation and also in view of the reasons given in your letter dated February 16th, last, the Department will approve of the continuing of a driver's service in transporting the children to and from their homes on the Stony Reserve while attending the Red Pheasant Day School. Payment for this service will be made at the same rate as previously allowed, viz.: $2.00 per day for each day the driving is done, less 10% during the current fiscal year.

With regard to the driving of the children at the Little Pines Day School, the Department will approve of this service being continued as from the first of December, next, to the 15th of April, 1934. The amount allowed will be at the same rate as previously paid for this service, viz.: $2.00 per day, less 10% for each day the work is performed.

At the end of each month, you should forward separate accounts, in triplicate, properly certified, for the amount due the drivers who perform these services.

The account which you submitted, in favour of Thomas Moosomin, for driving the Stony Band school children to the Red Pheasant Day School during the month of September, last, will be paid.

EXTRACT FROM ANNUAL SCHOOL REPORT OF
S. L. MACDONALD, INDIAN AGENT, BATTLEFORD, SASK.
FORWARDED UNDER COVER OF HIS 9-138 of April 3/34.

Orig. on 1934A-1E.

Red Pheasant Day School

This is an Anglican School, on the Red Pheasant reserve,near the boundry of the Stony reserve and acts for both, Mr Henry Reynolds is in charge.

The buildings of this school are a duplicate of the Little Pine school,but the attendance and progress is not in the same class,the Teacher makes a fair effort but is not the type for Indian teaching and would never make a success of an Indian School.The Indians on these reserves are also backward and it would be a hard proposition for any teacher.One of the Chief draw backs is denominational, about 50 percent of these reserves are Catholic and there is a natural opposition to an Anglican school.

One driver is now employed from the Stony reserve which is too far from the school through bush country for children to walk.

The noon meal has been discontinued and the pupils now bring their lunches.

Inspector's report on Red Pheasant and Stony Day School

Sir:-

I visited the above named school on January 9th. There were 12 girls and 8 boys present, out of an enrollment of 26 (13 boys and 13 girls). I was quite pleased with conditions as I found them in the classroom at this school. The children appeared bright and spoke up better than I have ever heard them on previous visits. They presented a clean and well nourished appearance. They were warmly clad, although their clothing in some instances was considerably patched.

The children are given a mid-day lunch, consisting of a bowl of vegetable soup with meat in it. At times this is varied by giving them oatmeal porridge. It is interesting to note that the pupils raised money by giving a concert, the proceeds of which were applied towards providing the ingredients for the mid-day meal. The Indian Agent gave them a quarter of beef which was of material assistance.

I am taking this opportunity of again voicing my opinion regarding the importance of providing the children at our day schools with a bowl of nourishing soup at mid-day. Many of the children who come from poor homes, arrive at the school after having very little, if any, breakfast. The mid-day meal they receive there is in many cases the only real nourishing meal they get during the day. It has been reported to me by the teachers that during the forenoon many of the children are in a phlegmatic

- condition, but -

condition, but after they have had their mid-day meal they are bright and take an interest in their lessons as well as in their play. The ingredients for the mid-day meal are inexpensive and I feel that the expense entailed in providing same is justified in view of the effect it has on the condition and health of the children. It is also an incentive to encourage attendance.

The school building is a frame structure with a cement basement. A furnace is provided in the basement, which has not been in use as the pipes are out of order, and a large heating stove is provided which adequately heats the building. The day was not warm when I visited the school, but I found the room quite comfortable. We had a meeting of the Band in the school room which lasted for several hours in the evening and the room was comfortably warm.

As the Stony Reserve is situated at some distance from the school, a driver is provided to bring the children. Until recently a driver was also provided for the Red Pheasant Reserve. This has been discontinued.

The teacher, Mr. Reynolds, appears to be giving very satisfactory service at this school.

Your obedient servant,

W. Murison.

Sir:-

I beg to forward requisition for Supplies for the Red Pheasant Day school,The material on this Outside of Pencils, would cost approximately $16.00 locally.

With regard to repairs for tank,requested by the teacher, I might say,that a new bottom was put on this about ten years ago and the tank now is not worth repairing and is so badly warn after over 20 years that any attempt at repairs would be awaste. A new tank, 6ft x 6ft, of 24 guage Galv Iron, installed complete, would cost $50.00. This school is 25 miles out of town and the tank would have to be set up and soldered in the basement.

The teacher is in a bad way for water supply as will be seen from his remarks and if funds are in any way available, I would ask that a new tank be installed.

Sir:

I have your letter of the 20th instant, enclosing a requisition from the teacher of the Red Pheasant Indian Day School. In reply I have to say that you may arrange for the purchase and delivery of the following:-

3	Glass, 24" x 12"	12	yds. Towelling,
2	tins Black lead,	1	qt. white paint,
12	bars Laundry Soap,	1	gal. grey paint,
		2	scrub brushes.

Regarding the supplying of a new water tank for the basement of the teacher's house, it is noted that the present tank is badly worn and beyond repair. The Department will approve of you arranging for the purchase and installation of a new tank, of the dimensions given in your letter, viz.: 6 ft. x 6 ft., of 24 gauge galvanised iron. It is noted the cost of this tank, including installation, will be approximately $50, and this amount should not be exceeded. After you have purchased the above authorized supplies, you should forward itemized accounts, in triplicate, properly certified, covering the expenditure incurred.

With reference to the extra desks ordered on a previous requisition, I regret that it was not found possible to provide funds in our last year's appropriation. This matter is now receiving consideration, and the order will be placed here. You will be advised at a later date.

OFFICE OF
INDIAN AGENT
Battleford. Sask.
August 31st 1935

Sir:-

I beg to forward, requisition from the Teacher of the Red Pheasant Day school for food supplies for hot Noon meal as allowed several years ago.

My understanding and from Departmental letters on file, the noon meal was abolished several years ago and the schools were given to understand that and up to date the Church Authorities have been assisting the schools to give a semi meal to go with the regulation biscuits.

$ 00.00

This requisition was made out on the strength of a letter from the Bishop of Saskatchewan to the Teacher, giving a paragraph from a letter by the Department, stating that supplies for the meal were provided when funds were available and no doubt the other teachers have the same letter and will be sending in like requisitions, so I would like something definite so as to avoid future correspondence.

Sir:

I beg to acknowledge receipt of your 258-305 of the 31st ultimo, with reference to the midday meal at the Red Pheasant Indian Day School.

The Department has already ordered 800 lbs. of biscuits for this school. If these biscuits have not arrived, you will, no doubt, receive them in the near future. Do you consider it necessary to serve a hot drink, consisting of cocoa and milk, or hot soup, in addition to the biscuits? If so, let me know what would be the probable cost per month. In the event of your recommending such an expenditure, you should keep in mind that the Department would only allow this hot drink to be served during the period November first to March 31st.

Sir:-

I beg to acknowledge receipt of Department letter No.105-6-5, Sept 6th, re Noon Meal at the Day schools at Red Pheasant, Little Pine and Poundmakers.

The Biscuits have been received,but the Teachers and Church Authorities,think that where the children come a long way,the biscuits do not cover requirements and if it is to be confined to a Hot drink or Soup,the soup would be the most nourishing. During the period mentioned by the Department,Beef is on hand for winter Rations, at 6 and 7 Cents,and would be about $3.50 per Month,Other ingredients,Rice,Pot Barley and Rolled Oats or Beans, would be about $7.00 making a total of $10.50 per Month or $31.50 per quarter as it would be supplied,this is based on Little Pine school,where the attendance is large and would not likely exceed $25.00 per quarter at Red Pheasant and Thunderchild.

The Supplies woulr have to be Purchased at Battleford for Red Pheasant, from Wilson& Magee,Little Pine Paynton and from Graig Bros Ltd, Turtleford for the Thunderchild School.

Dear Sir:

The Department is in receipt of your voucher No. 391 for $42.09 in favour of E. Prince & Son.

It is noted that this account includes the amount of $16.35 for midday meal supplies. As you were informed in official letter of October 14th, the amount of $30 is allowed for midday meal supplies at the Red Pheasant School. You will, therefore, note that you should expend only $13.65 more for this purpose between now and the end of [redacted].

The Secretary,
Department of Indian Affairs,
OTTAWA, Ont.

Dear Sir,

I beg to advise the Department that the well at the Red Pheasant Reserve has gone dry, and practically all lakes and sloughs on the Reserve have dried up. It is almost impossible to get a water supply, but in order to carry on the school it will be necessary to put in a new well.

Day School

Sinking of wells is more or less of a doubtful proposition, and no definite price can be set in advance. However, I anticipate that a new oll could be put in for approximately $75.00, and would ask you that authority be allowed for this amount, and if no water is then obtained it will be necessary to further communicate with the Department.

Dear Sir:

The Department is in receipt of your letter of the 2nd instant, in which you state that the well at the Red Pheasant Indian Day School has gone dry.

If you think there is a reasonable prospect of securing water by digging a new well, you may expend an amount not exceeding $75 for that purpose.

Ottawa, November 6, 1936.

Dear Sir:

In reviewing the return of the Red Pheasant Indian Day School for the month of September, it was found that, while 22 pupils were enrolled, there was only an average attendance of 10.

In view of the fact that the Department is paying $2.00 a day for driving children to the school, it is felt that the average attendance should be much larger if the driver is performing his duties in a satisfactory manner.

Please let me know if Thomas Bocoumin does his work in a manner that meets with your approval and also state why the average attendance for September was so low.

Sir:-

I have Department letter No.105-6-5, Nov 6th Re September attendance at the Red Pheasant Day School.

During Haying Season and till it finishes attendance is always down as the Indians are nearly all camped out of reach of the school.

During the period mentioned, 9 of the children attending were from the Moosomin reserve from which reserve, the Bhe driver works, he has been attending to his duties well and gathered all children within reach.

The attendance since that date has greatly improved.

Sir:-

As the well has gone dry at the Red Pheasant Day School and two new ones attempted this fall were a failurem it has become necessary to haul water so I had to purchase a Barrel with a cover at $5.50.

The nearest available water that is fit to use is in the Department Farm Pasture well about two Miles from the School and #### it will cost $5.00 per month to have the Water Hauled to give the School, the required supply.

This is about the best arrangement that can be made as further efforts at the present in any case to drill furthere wells, would be a waste of money.

Ottawa, December 2, 1936.

Dear Sir:

With reference to your letter of the 25th ultimo, the Department approves the purchase of a water barrel, at a cost of $5.50, for the Red Pheasant Indian Day School.

We will also allow $5 a month until April 30th, next, for hauling water to the school. At that time, you should write again to the Department with reference to securing a water supply.

Yours truly,

A. F. MacKenzie.

Dear Sir:-

R.

I beg to forward Requisition for school supplies for the Red Pheasant Day School, some material for a Storm Door for the School, Stove Pipes and Desks.

On recent requisition I had material to repair old desks and all that were fit have been put into use and still there is a shortage, there were 32 pupils the other day which is a record for this and were short six seats so I would ask early delivery of these.

The Teacher is a worker with material supplied does all his own repair work around the school and the whole situation is a decided improvement and his efforts worth encourageing.

Dear Sir,

Will you please refer to my letter no. 464-302 November 16th. 1937 and your reply file No. 105-6-5 November 23rd. in connection with school desks for Red Pheasant Reserve. I wish you would rush shipment as Mr. Morgan has not sufficient seating accommodation for pupils and cannot carry on for long under present conditions. He is doing excellent work and should be given every encouragement.

Dear Sir;-

On my last visit a short time ago to the Red Pheasant Indian Day School, Battleford, I found that the attendance had greatly increased averaging this month to date 35, the consequence is that the supplies for the mid-day meal are now exhausted and I consider this meal is of the greatest importance not only for the health of the children but as an encouragement in attendance.

I asked Mr. Macdonald to submit a requisition covering the supplies necessary to furnish this meal for the balance of this term. I now beg to attach this requisition and would recommend that it be allowed.

Dear Sir;-

On my recent visit to Red Pheasant Indian Day School I found the screens for the windows and doors in a very bad condition, all needing to be rewired. I also found they had no water cooler for the school.

The teacher is taking a very active interest in teaching these boys manual training. He stated that if the Department would supply material he would have the boys do the work.

I am attaching requisition covering this material and would recommend that the requisition be granted.

re Red Pheasant School Driver.

Dear Mr. Macdonald,

I wish to call your attention to the following facts and to the request attached.

The number of children attending the above School from the Red Pheasant Band has increased during the last year. Most of these increases are young pupils and many of them live at a distance from the School. The trails that they have to travel are through rather bushy country and are not safe for young children in winter. Would it be possible to get a driver for these children? I understand that there used to be a driver, but the number of pupils decreased and this was discontinued. A route of about six and one half miles would serve 13 children.

Dear Sir:

I am attaching a letter from Mr. Morgan, Teacher, Red Pheasant Indian Day School, addressed to Agent Macdonald, asking that a driver be allowed from December 1st to April 1st for the school children.

In Mr. Macdonald's letter he states that as Mr. Morgan's letter gives all the details, he does not need to repeat them, except that a driver would make it possible for about four more children than he mentions to attend the school.

He states that this matter was brought up at the Band Meeting which I recently attended, and that he agrees with the Indians that a three-mile trip through the bush trails is not safe for the children, as most of them are seven and eight years of age and Winter travel is often tough for adults.

Mr. Macdonald recommends that a driver be employed for the period mentioned, at the rate of $2.00 per day for school days driven.

Sept 1st to June 30

Dear Sir:

I am in receipt of your letter of the 3rd instant enclosing letter received from the teacher of the Red Pheasant School requesting authority to employ a driver to bring the children to the school from December 1 to April 1.

For some time past we have been paying at the rate of $2.00 a day for transporting children to the Red Pheasant Indian Day School. The last account submitted for this service was voucher 325 dated October 6 covering the payment for the month of September, 1938.

In view of the payment already being made it is difficult to understand to what children Mr. Morgan refers in his letter. Possibly he means a different part of the Reserve from that covered by the present driver. Please let me have further particulars in this connection but it is extremely doubtful if our funds will permit allowing more for driving children than is at present provided.

Yours truly,

Dr. Thos. Robertson,

IN YOUR REPLY REFER TO
No. 302-11B
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

REGINA, SASK., November 18, 1938.

Dear Sir:

Ref: Your #105-6-5 of November 10th,
Driver, Red Pheasant School.

I find that the driver at present employed at this school is engaged in driving children from the Stony Reserve to the school, as there are no children on the Stony Reserve within two miles of the school.

There is no driver for children living on the Red Pheasant Reserve. There was one up to about three years ago, but owing to the poor attendance, it was discontinued on the recommendation of Agent Macdonald. Attendance now has greatly increased, and the number of t children attending the school, together with the distance they have to travel, warrants the employment of a driver. A distance of two or three miles, in cold stormy weather, across a Reserve, is too much for any child. In view of the splendid work being done at this school, I think a special effort should be made to assist the children to get there.

We are facing on this Reserve the same as we face on all others--Indians scattered from one end of the Reserve to the other. Apparently no effort has been made to centralize the settlement. Our medical officers have to travel all over the Reserve to see two or three patients. Our Farming Instructors travel 50 miles where they would be able to see all the farmers by driving a distance of 5 or 10 miles if the farmers were centralized. It has cost the Department thousands of dollars through breaks in machinery due to having to haul a binder or mower five or ten miles to cut a few acres of grain or hay for an individual Indian. We have to employ drivers to haul the children to school for no reason whatever except that the Indian decides to go and build and settle four or five or six miles from the school.

I have been pressing upon our Agents the necessity of getting our farmers located centrally; of making a plan of the Reserve, laying out a road, say, east and west and one north and south, and requiring all beginners to settle along those roads before they could get any assistance from the Department. There is not any question that if a policy of this kind could be adopted and followed, our Farming Instructors would have no ground to ask for gasoline and oil. They could easily cover their territory and visit the Indians three or four times more often than they do now, with less mileage. We would also make a saving of thousands of dollars in machinery repairs, and reduce our medical expenses greatly.

I would recommend that the Department give serious consideration to the matter of having all Agents draw up such a plan for all their Reserves, requiring all beginners to build their homes in accordance with that plan, and forbidding assistance to anyone who did not comply with it.

Yours truly,

Thos. Robertson,
Inspector of Indian Agencies,
Saskatchewan.

Dear Sir:

In view of the information contained in your letter of the 18th instant you may authorize Indian Agent Macdonald to employ a driver to transport the children from the Red Pheasant Reserve to the Red Pheasant Indian Day School for the period December 1, 1938, to March 31, 1939.

It is noted that a driver can be secured at a rate of $2.00 a day for each school day.

At the end of March the Indian Agent should forward to this Branch a statement showing the number of children that the driver transported each day. This statement should be prepared and certified by the teacher.

File 302-11B

Regina, February 6, 1939.

Dear Sir:

I have a letter from Mr. E. A. Morgan, teacher at Red Pheasant Reserve, pointing out that owing to the great quantity of snow this Winter, it will be practically impossible for the children to get to school during April unless the Red Pheasant driver's time is extended to cover that month.

Mr. Morgan points out that the ground will be covered with water at that time; that owing to quarantine for Scarlet Fever, five days were missed during January; and that there will be only 13 days of school in April, owing to Easter holidays.

If funds are available, I would recommend that Mr. Morgan's request be granted.

Yours truly,

Thos. Robertson,
Inspector of Indian Agencies,

Dear Sir:

In view of the information contained in your letter of the 6th instant the Department approves employing a driver to transport the children from the Red Pheasant Reserve to the Red Pheasant Indian day school during the month of April, 1939. Authority has already been given for the employment of this driver to the end of March of this year.

Yours truly,

R. A. Hoey,

Attention: Mr. R. A. Hoey.

Dear Sir:

Re: $900.00 Appropriation for Basement & Repairs,
Little Pine Day School, Battleford Agency.
- - - - - - -

We have the same problem at both Little Pine and Red Pheasant Day School--lack of space for properly carrying on the work. We have outstanding teachers in both schools, and I think the problem at Red Pheasant is more acute than at Little Pine. We are, however, faced at Red Pheasant with the problem of water. There is at present no water supply and where the school is located, it would be very difficult to secure it.

I have discussed with the teacher and Mr. Macdonald the possibility of securing a water supply, and they inform me that it could be secured about half a mile from the present location, and the suggestion has been made that the present school be moved to a location one-half mile away. The ground is very rolling at its present location and it is practically impossible to get a playground. We are also faced with the problem of either increasing the school in size or erecting another building for a second room and an additional teacher if all the children of the Reserve are to be accommodated.

I have asked Mr. Macdonald for a report on the cost of moving the school and putting in a full basement. Pending the receipt of this report, I have asked them to take no further action with regard to the basement of the Little Pine School, and immediately upon receipt of this report I will submit it. I trust the Department will approve of my action in this matter.

I might add that the Little Pine School was enlarged some years ago, and the school and the children's dining room are both 16 feet longer than at Red Pheasant School, while the attendance at Red Pheasant is now larger than at Little Pine, and it will open next Fall with 45 or 50 children. An addition of at least 10 feet should be added to the Red Pheasant School to accommodate the children, as well as a full basement.

Yours truly,

Thos. Robertson,
Inspector of Indian Agencies,
Saskatchewan.

Dear Sir:

I am in receipt of your letter of the 20th instant in which you recommend that the amount provided in the current year's appropriation for repairs and improvements to the Little Pine school be expended at the Red Pheasant school.

The Department has no objection to expending the money in the manner you recommend but it should be kept in mind that the amount appropriated cannot be exceeded.

In order that there may be no misunderstanding regarding the amount available I may say that in the current year's appropriation the following amounts were provided for repairs and improvements to day schools in the Battleford Agency:

Little Pine	$ 900
Thunderchild	125
Total	$1025

On the recommendation of Indian Agent Macdonald in a letter dated April 4 we have authorized an expenditure of $75.00 for a cistern at the Little Pine Indian day school. This leaves an amount of $950.00 still available for repairs and improvements at the day schools in the Battleford Agency.

It is noted that as soon as you receive it you will forward Indian Agent Macdonald's report regarding improvements that might be made to the Red Pheasant school.

GENERAL

The schools have all been going with a good attendance and the children in good health and with the severe travel and weather conditions it is credit the way the attendance has held at the say schools. The attendance and progress is particularly good at Red Pheasant, in fact the attendance has outgrown the school to such an extent that I had to instruct the teacher not to take in 6 or 8 more after easter as it is now overcrowded and some provision will be required before next term.

Re: Repairs at Little Pine and
Red Pheasant Indian Day Schools

Dear Sir:

I have for acknowledgment your letter of the 23rd instant, in which you intimate that in your judgment repairs at the Red Pheasant School are more urgently needed than the repairs for which provision was made at the Little Pine School.

I note with interest your reference to the site of the Red Pheasant School and the advisability of having this school established on a more suitable location. If the present site is unsuitable, I hesitate to proceed with repairs until the condition is remedied. I have been wondering if it would not be advisable to proceed with the repairs at the Little Pine School this year, on the understanding that a fully modern school with full basement accommodation would be built to take the place of the Red Pheasant School next year. If the new school were built during the holiday season, a certain amount of the lumber at the present school could no doubt be utilized. However, if you consider the present site is reasonably suitable, I can see no serious objection to the expenditure of money on the Red Pheasant rather than the Little Pine School. I shall be glad to have an expression of opinion from you, with respect to this matter, just as soon as you can conveniently send it forward.

Copy for Information of the Secretary,
Indian Affairs Branch, Ottawa.

Battleford, Sask.,
May 25th, 1939.

Dear Sir:

Per your letter #302-11A, April 29th, re basement and enlargement at the Red Pheasant School, it runs into a fairly good figure as you can see by attached estimate of the approximate cost. I am also attaching a rough sketch of the proposed basement, which will give a clear floor space, by running the cold air intakes under the floor and making a regular hot air furnace act as a pipeless, this would be necessary to heat the basement, as the regular pipeless throws off no heat.

Much the cheapest way to do this would be by contract as by day labour it might run to anything, as the whole building would have to be jacked up on timbers, while the excavation was done and the new cement walls run in, if after the building was jacked, the Indians might be paid to do the excavating also if the contract was let for the whole job, with a stipulation that all common labor be by Indians, it would cover the same purpose.

The only way to get an exact figure would be to call for tenders, as no contractor will go out there and make a bid unless there is a chance of getting the job, and as regulations are, you cannot do this as we used to do.

At best it will be after my time when this work is done, as from tomorrow I will be away paying almost every day till June 17th and completing my final reports, which will leave this to the next [illegible].

Yours truly,

File 302-11A

JUN 1 1939
RECORDS

Dear Sir:

Ref: Your 105-2-5 of April 26th,
My 302-11A of May 23rd,
Repairs, Red Pheasant School.

- - - - -

With further reference to my 302-11A of May 23rd, I am now in receipt of a letter from Mr. Macdonald, together with estimates on the proposed work, which I am attaching.

It will be noted by Mr. Macdonald's letter that he now considers that much the cheapest way to do this work would be by contract, as the whole building will have to be jacked up on timbers while the excavation is done and the new cement walls run in. He states that the only way to get an exact figure would be to call for tenders.

It will be noted that, according to this plan, it is proposed to place a heavy duty furnace at one end of the building, the cold air to be taken in through pipes laid under the floor. This would allow practically the whole basement for community work, carpentry, etc.

As stated in my previous letter, improvements on this school are much more necessary than on Little Pine. At the same time, to expend any money on this school without enlarging it would be simply a waste. I would therefore suggest that if funds are available to proceed with this work this season, Mr. Macdonald be instructed to proceed with the repairs to the Little Pine and Thunderchild Schools and to place in next year's estimates an amount that would permit the necessary extension and repairs to Red Pheasant School.

I would appreciate your instructions in this matter.

Dear Sir:

Ref: Your #105-6-5 of May 31st, Repairs to
Little Pine & Red Pheasant Indian Day Schools.

- - - - - - -

With regard to Red Pheasant, the location of this school is not ideal, first in that the ground is rolling and does not lend itself to a good playground, and second, the water situation. We have, however, a fairly good teacher's residence that cannot be moved, consequently the building of a school on another location would mean also the building of a new teacher's residence. The playground situation could be remedied at not much expense by levelling off the ground, and, as stated in a previous letter, a well was dug to a depth of 30 feet when they struck a large rock and had to discontinue. There is, however, a certain amount of water in the present well. It is not a sufficient supply, but is, I think, a fairly good indication that water could be obtained at a little greater depth.

As pointed out in a previous letter, there will be at least 50--probably 55--children wanting to attend this school at the opening of the next session. The extending of the school 20 feet, with a full basement, would accommodate these, but when it was done, we would have a very poor school. I would therefore recommend that your suggestion be adopted, that is, that the school be left as it is this season, and a modern school erected next summer.

With regard to using some of the lumber of the old school for the new, there is no doubt a certain amount of it could be used. I would, however, suggest that the old building be left standing and used as a community hall and workshop. We have an outstanding teacher on this

Reserve, who.....

Reserve, who takes a very active interest in both the children and the young men of the Reserve. His wife also takes an interest in women's work and has one of our outstanding Homemakers' clubs going on the Reserve. The teacher himself is good in carpentry work and if he had a building or place for the purpose, I am satisfied he would organize a young men's club and get them making chairs, benches, etc., for their homes, and teach them theuuse of tools.

The old school could also be used for the Homemakers' club and I believe in this way the Department would receive much greater value than they would from what lumber they could salvage.

If you agree with my suggestions, will you please authorize us to proceed with the work on the Little Pine school and at the same time authorize me to expend any unused portion of the appropriation in digging a new well at the Red Pheasant School, as I am of the opinion that we could get both done from that appropriation, and if so, we could then ascertain whether a supply of water could be obtained before going any further with the work.

Re: Repairs to Little Pine and Red Pheasant Indian day schools.

Dear Sir:

I desire to acknowledge receipt of your letter of the 5th instant and to state that you are authorized to proceed with the necessary repairs at the Little Pine Indian day school. Should you have sufficient funds you are also authorized to proceed with the work necessary to deepen the well at the Red Pheasant school.

It is my intention to include in the estimates of next year the amount necessary to build an up-to-date school to take the place of the present Red Pheasant school.

Yours truly,

R. A. Hoey,

Ottawa, July 14th., 1939

Dear Sir:

For some time past you have been forwarding vouchers for an amount of $6.00 a month, in favour of Peter Wuttunee and Lennox Wuttunee, for hauling water at the Red Pheasant School

The amount authorized for this service was $5.00 a month, and when your vouchers have been received we changed them to read $5.00. However, in the case of Peter Wutunee we overlooked changing your vouqher No. 42, and as a result he was paid $6.00 for the mohth of April, 1939. We are now in receipt of your voucher No. 188 for covering the month of June and we have reduced this to $5.00, and also deduct for over-payment of $1.00. He will therefore be forwarded a cheek for $4.00.

In the case of Lennox Wuttnnee, he was paid $6.00 for October 1938, and also $6.00 for March 1939. We do not appear to have received any voucher for his services since that time. When forwarding the next voucher for him, it should be issued for the amount of $5.00, and you should show on the face of the voucher the over-payment just mentioned, in order that they may be duducted from the amount due him.

Please note in future that the vouchers in favour of these men should be issued for the amount of $5.00 a month each.

June 22. 1939.

Dr. Robertson,

Since writing the foregoing,Dr.Lewis has told me that nothing is being done to this school this year. This will be a great disappointment to those who expected to start their young ones this year.

May I suggest that an assistant teacher be provided and the children's dining room be used as a Primary Room for this coming year.

In general more interest is being taken in the school, and it seems a great pity to have to refuse children now owing to lack of space.

Sincerely,yours,

Dr. Thos. Robertson,
Inspector of Indian Agencies,

Re School Situation on Red Pheasant and Stoney Reserves.

Dr. Robertson,

I should like to outline in more or less detail the school situation on these two reserves.

With the arrival of the new Agent and the opening of the 1939-40 school year, I should like to be able to enforce the rule, that all children of school age, unless physically unfit, attend school regularly, either here or at a residential school, as stated in the Indian Act.

Up to the beginning of this year I was able to keep up a fair average attendance by personal contact and by explaining the requirements of the Indian Act. Then one family, Catholics, whose girl had been in poor attendance, withdrew their child and refused to send her. The school at Delmas would not take her. I reported this to the Office, and in January the father was threatened with court action unless the child attended here. I have reported that this child has not yet attended but no action has yet been taken.

Since this has taken place, another family whose attendance was poor has grown worse; the driver very frequently reports that they are asleep when he leaves the village. These are both Stoney families.

I feel that these two cases should be cleared up in order to correct the attitude of indifference to the school, which has not entirely disappeared and which was evidently very prevalent on these reserves two or three years ago.

When I took over here there was no information at all as the number of children of school age on the reserves. I have made a survey of this point and now think I have fairly good information on this point.

It appears that some of the children have not attended school upon reaching school age,seven years. They have waited until nine or ten,with the result that I have pupils of twelve and thirteen in grades one and two.

At present there are 17 Stoneys on the roll. These are picked up from the Stoney village by a driver throughout the year. About 3 miles west of the Stoney village there is a group of Stoneys as shown in the accompanying sketch. Last year I advised that those of school age in this group be sent to residential school. They,however,do not wish to send them to residential school and they have not the horse power to bring them to this school and to carry on their other work. Would it be possible to provide a driver for this group? He would serve 16 children(as per sketch). A driver would certainly be more economical than residential school grants. This driver might be paid $2 per day,and the driver from the village $1 per day. (up to now the driver from the village has always received $2 per day,but an extra driver would shorten his route). This is advising an extra expense of $200 per annum to serve 16 children.

On the Red Pheasant Reserve,I have 25 on the roll. These attended fairly well while the driver was on during the winter months,December to April inclusive. Two of these,fairly bright little girls of about 8,have missed five months schooling this year because they live about 4 1/2 miles from the school. These people are Catholics,fairly good workers and farmers. They are willing to send their children here,but we cannot make them, because the children are under 12 and they live more than 2 1/2 miles from the school. Next year there will be two more in the same situation. Would it not be more economical to retain the driver for the whole year at a cost of $200,than to send these four to residential school at a cost of about $600?

May I point out that I am suggesting these extra driving facilities for those children whom we cannot force to attend here,and as being more economical than sending them to residential school.

Mr.Macdonald has told me that he has recommended that an assistant teacher be provided for this school. With an assistant and the proposed 20 ft addition,together with a full basement, I think we shall be able to get along nicely.

There are now 42 on the roll. If my suggestions regarding drivers are carried out,I estimate next year's enrolment as 58.

Yours sincerely,

E.A.Morgan

PLEASE QUOTE
FILE 119-302.

Battleford. Sask.
July 10th. 1939.

Dear Sir,

I reply to your letter No. 302-11 of the 4th. inst. regarding the situation at Red Pheasant Day School. falls to me as Mr. Morgan has gone on a well deserved holiday.

It is noted that an adequate Day School building is to be erected on Red Pheasant Reserve to serve both the reserves next year. The school population of which is, at present 55 not counting those now attending Residential Schools at Onion Lake an Delmas. It is essential that this new building be such as to provide for two teachers doing vocational training as well as the ordinary Saskatchewan school work. For the accommodation of those now presenting themselves for the fall term it would be necessary to use the dining room as a school room with an additional teacher. If this is not done it will mean refusing admission to about 15 pupils and make the reserves an excellent recruiting field for the Press Gangs from the Residential Schools. We all feel and think you agree, that the Day School reserves should not be sending any pupils away for tuition.

It can be pointed out that the pevision of a second teacher at the minimum salary would be less of a financial burden than providing for these pupils in a residential school. There is no need to stress the value of the reserve of a school under Mr. Morgan as compared with the alternate.

Regarding the school vans for Stoney pupils this is well covered in Mr. Morgan's letter of late and it is my opinion that this plan be followed, that is that two vans be allowed, one man receiving $1.00 per school day, and the other with the longer trips being paid $2.00 per day. It is the only method by which regular attendance of the students can be maintained and the parents are constant in their request for this plan. The added cost of $1.00 per day over the plan now operating is more than justified.

It is therefore requested please that these suggestions be strongly presented to Mr. Hoey at an early date.

Should not the estimates now being prepared include an amount for the new school? What amount would you suggest?

Yours truly,

Dr. T.Robertson,
Regina. Sask.

Regina, July 17 1939.

Dear Sir:-

Re: Red Pheasant School, Battleford Agency.

On my recent visit to Battleford I discussed with Mr. Macdonald (at that time Agent); Mr. Morgan, the teacher; and Dr. Lewis, our Medical Officer, conditions on that Reserve. As you are aware, consideration was given to enlarging the present school this season, but the plan was abandoned on your suggestion that a modern school be erected there next season.

Pres. Teacher 950

The situation confronting us on this Reserve at the present time is that, aside from the children now attending residential schools from that Reserve, there will be 55 children who will want to attend day school this coming session. Our present school will accommodate 40 at the outside, thus 15 will either have to be left without a school or will have to be sent to a residential school.

800
200
1000

Mr. Morgan suggested that an additional teacher be engaged and the room now used as a dining room be used this winter as an additional classroom. He also suggested that in that case, an additional driver be secured at cost of $200.00.

As Mr. Ostrander has taken over the Agency, I referred the matter to him for a report and am now in receipt of his report, in which he recommends the suggestions made by the teacher, Mr. Morgan. that an additional teacher be provided and that a two-room school be erected next season. I do not know whether funds will allow this additional expense this season, but if so, I would recommend that the additional teacher be provided, as well as the $200.00 for an extra driver.

In support of this recommendation I would point out that in Mr. Morgan we have an outstanding teacher, not only in classroom

work but also in manual training and work of that kind. He does not spare himself in his work. In addition to carrying on school work and manual training he also has, during the winter months, a night school for the older people. Mrs. Morgan is also deeply interested in the work and is very active in carrying on the work among the women.

I would therefore like to see a two-room school established on this Reserve under the management of Mr. Morgan, as I believe it would be in the best interests of both the Indians themselves and the Department.

I am attaching Mr. Morgan's and Mr. Ostrander's letters on this matter. I might further add that the Indians' homes on this Reserve are scattered all over the Reserve. I have drawn the attention of Mr. Ostrander and Mr. Morgan and our Farming Instructor to the necessity of carrying on among these Indians similar propaganda so that we are carrying on on other Reserves, pointing out to them the necessity of the Indians building more centrally in order that they may receive better medical attention and better supervision on the part of the Farming Instructor and reduce the cost of their implements by shorter hauls. We are also further introducing this idea by refusing to assist young Indians who are just establishing themselves in agriculture unless they build within a reasonable distance of the Farming Instructor and the school.

I might also add that I am sure the prospects are that the school population will continue to increase rather than decline.

Yours truly,

Thos. Robertson,
Inspector of Indian Agencies,
Saskatchewan.

Dear Sir:

I am in receipt of your letter of the 17th ultimo with reference to the situation on the Red Pheasant Reserve. I have very carefully considered the contents of your letter but I regret that as no funds were provided in the current year's appropriation for the expenditure that would be required if a second class room were opened it is not possible to favourably consider your suggestion.

As I intimated to you in a previous communication I am prepared to recommend that a two-roomed school be erected on the Red Pheasant Reserve next year and provision will be made for this in the appropriation for the fiscal year 1940-41.

Yours truly,

R. A. Hoey,

Dear Sir:

I am in receipt of your voucher No. 443 covering the cost of stamps purchased by the teacher of the Red Pheasant Indian day school.

It has not been the practice of the Department to provide stamps for teachers of Indian day schools. Consequently the voucher which you submitted is returned unpaid.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir,

In the past $5.00 per month has been allowed for hauling water to the Red Pheasant Indian Day School and Residence. When this amount was authorized the average attendance was about twenty-two pupils, requiring about eight barrels a month. The attendance has now considerably increased and about twelve barrels of water is required.

Would the Department consider increasing the amount allowed for hauling water to Seven Dollars a month?

Dear Sir:

With reference to your letter of the 5th instant the Department is not prepared at the present time to increase the amount allowed for hauling water to the Red Pheasant School.

While I am unable to state definitely at the present time I may say that it is hoped to be able to provide funds in the appropriation for the fiscal year 1940-41 for the erection of a new school on this Reserve. In that event it might be possible to erect the school where water could be obtained.

Dear Sir:

I am in receipt of your letter of the 20th instant regarding certain vouchers for which cheques have not yet been issued.

The delay is due to the fact that we have had to transfer funds from one allotment to another and owing to the dissolution of Parliament there has been some delay in making such transfer. It is hoped, however, to issue these cheques in the near future.

Dear Sir:

The Department finds it necessary to return your vouchers 777 and 778 in connection with the transportation of children to the Red Pheasant School. The Department cannot understand why you have issued two vouchers when formerly payment was only made to James Wuttunee. It is also noted that while the latter was formerly paid at the rate of $2.00 a day you only request payment for him for a period of 13 days in March at $1.50 and at the same time submit a voucher in favour of Frank Soonias for 10 days at 50¢ a day.

Dear Sir:

With reference to requisition dated the 1st instant for supplies for the Red Pheasant School you may purchase the following seeds:

2 Bus. seed potatoes
½ Lb. carrots
2 ozs. onions
1 oz. cabbage
1 Lb. sweet corn
1 Lb. peas

You may also purchase 1 garden spade. A playground ball and football will be sent to the teacher from the Department.

With reference to the request for $25.00 for labour for reshingling the roof of the teacher's residence please let me know if the material is on hand and if not you should state what material would be required. In connection with the request for 5 packages of calsomine is it the intention of the teacher to apply this without cost to the Department?

Yours truly,

Dear Sir,

Replying to your letter No. 105-6-5 of the 3rd. inst. the reason why I submitted two vouchers for the month of March in connection with the transportation of children to the Red Pheasant Day School. On account of the heavy condition of roads during the month James Wuttunee found it necessary to engage help, he himself charging $1.50 and his help fifty cents per day for the time engaged. You will note that the amount allowed by the Department was not exceeded, It was necessary to submit two vouchers as I had issued orders for supplies against this credit.

I re-enclose Vouchers No. 777 and 778.

Dear Sir,

I have to advise you that the water supply for the Red Pheasant Indian Day School is far from satisfactory. At present it is costing the Department $5.00 per month.

It appears to me that there is now no chance of having a new School Building erected on the Red Pheasant for a number of years, would it be possible to have another well sunk at a cost of $2.50 per foot including labour and material?

There is a well close to the school showing a little water in at thirty-five, though on account of a very large stone it is impossible to go any further. I would suggest that a new well be sunk close to the well showing water, though I would not guarantee obtaining a good supply at thirty-five feet. However, if we did get a good flow it would be cheaper in the long run than paying out $5.00 per month indefinitely. There are quite a number of dry holes around the school grounds.

Yours truly,

J.P.B.Ostrander.
Indian Agent.

A.

Ottawa,
July 22, 1940.

Dear Mr. McLeish:

Attention Well Boring Division

A request has been received for authority to dig a well at the Indian day school on the Red Pheasant Indian Reserve. This Reserve is located approximately 80 miles south of Battleford, Sask.

The Indian Agent considers that water might be obtained but states that present wells in the locality are more than 55 feet deep.

I hesitate to authorize any expenditure unless there is a reasonable assurance of obtaining water and I should appreciate receiving any information you may have in regard to that section of the country.

Yours very truly,

Memorandum to:

Mr. F.C.C. Lynch,
Chief, Bureau of
Geology and Topography,
Dept. of Mines & Resources,
Ottawa.

The Director, Indian Affairs Branch, states that the question of digging a well at the Indian day school on the Red Pheasant Indian Reserve is under consideration and asks for any available information regarding underground water conditions in this section.

We have records of 19 wells in nearby areas; four of these sunk to 110 feet failed to obtain water; three others obtained limited supplies, two from depths of 75 feet and one from a depth of 22 feet; the remaining 12 obtained fair supplies of water at various depths ranging from 12 feet to 80 feet.

In the area of which the Indian Reserve is a part most wells sunk in the unconsolidated deposits strike water if continued deep enough. The depth at which water will be found varies from place to place and cannot be foretold. Though water may be obtained at a depth of 38 feet or less one should be prepared to sink to a depth of 80 feet or more.

Dear Sir:

With reference to your letter of July 10 regarding the digging of a well at the Red Pheasant Indian Day School I communicated with the Mines & Geology Branch and enclose copy of their report dated the 1st instant.

You mentioned in your letter that it would cost $2.50 a foot, including labour and material, for digging a well. Would this rate apply if it were found necessary to go 80 feet? When you have reviewed the attached report I should appreciate your advising me further. At the same time you should state the name and address of the person whom you would employ if authority were granted for digging the well.

Dear Sir:

I have your letter of the 12th instant with reference to transporting children to the Red Pheasant and Little Pines Day Schools for a period during the coming winter.

The expenditure in this regard is charged under the heading "Travelling Expenses". This item of our appropriation has been very drastically reduced during the current year and consequently we have to curtail expenditure to the greatest possible extent.

Do you consider it absolutely necessary to have the children transported as in previous years? Even if you recommend some expenditure for this purpose it might be possible to reduce the period during which the children would be transported.

When replying please forward two letters, one as regards the situation at Red Pheasant and the other at Little Pines. As you are aware we keep separate files in regard to all schools and it is extremely confusing when you refer to two schools in the one letter.

With regard to the children from the Mosquito-Stoney Band who attend the Red Pheasant School the Department will allow for their transportation an amount of $2.00 per teaching day for the period December 1, 1940, to March 31, 1941. Dear Sir:

The Department finds it necessary to return the account which you submitted in connection with the attempt to obtain water at the Red Pheasant School.

The price for digging is altogether different from that mentioned in your letter of August 24. Besides, there was no mention then that we would have to pay for the room and board of the men engaged in this work.

If it was part of your agreement with the well-diggers that their board would be supplied you should so state on the voucher issued in favour of Mr. Morgan and you should also attach to it a receipt from the men acknowledging that they have received board.

PLEASE QUOTE FILE 105

Battleford, Sask.,
9th December, 1940.

Dear Sir:

Referring to your letter of the 4th instant, No. 105-6-5, in connection with vouchers for attempting to procure a water supply at the Red Pheasant Day School, I am returning vouchers herewith and would ask that they be paid as submitted. I have not forwarded a receipt from Mr. Annear, to the effect that he and his man were given meals by Mr. Morgan for the period stated, but will be able to do so with some considerable expense and trouble, if the Department can not accept the word of myself and Mr. Morgan that the meals were supplied. I might say that the men were fed for more than 18 days, as shown in the voucher, and that Mr. Annear's team of horses, necessary for the job, were also fed from Mr. Morgan's own feed supply, there being no other feed available. However, as I could not keep the amount due Mr. Annear lower than $64.00, Mr. Morgan agreed to accept $36.00 for his payment, having been instructed by me, before the work started, that he must not allow the cost to exceed $100.00.

It is true that the price for digging is altogether different from that mentioned in my letter of the 24th August, but I did not explain this fact as I thought the reason for the change would be obvious. I was quoting on a finished well, with a supply of water and cribbed. It is obvious that we would not want to waste cribbing on a dry hole. The other reason for the difference is in the fact that, to protect the Department's interests, I arranged with this man that he would be paid only 50¢ a foot for a dry hole. It was then necessary to furnish board, otherwise he would have been working for practically nothing. He was certainly underpaid at $64.00, having been on the job a month with a man, a team of horses and a well-machine, for $64.00 and board.

Yours truly,

J.A.B. Ostrander,

Battleford, Sask.,
21st December, 1940.

Dear Sir:

I am enclosing, herewith, resolution signed by the Chief and Council of the Stoney Band for an amount of $800.00 to be expended from their Band funds, for the purpose of paying for transportation of their children to the Red Pheasant Day School and for sinking wells at the necessary points on their reserve.

In explanation I have to say that the homes on the Stoney Reserve are mostly poor, but there are some good homes built on the reserve at the farthest point from the Red Pheasant Day School. The result of this has been that the Indians who wish to have their children attend the day school, live in hovels in an Indian village near the school in the winter. Conditions in these hovels are very bad and the sanitation about the village, in the winter, is terrible, consequently I have discouraged the Indians collecting in the village. To improve matters, I have had the Indians vote money from their funds for the necessary transportation for their children, in order that they may remain in their homes during the winter, mostly a distance of about six miles from the school. They decided that they should pay two dollars per school day, for this transportation and one of their men will take care of it.

The wells are necessary at a number of the homes, where we are trying to encourage the living conditions improved, and that the cattle be increased. This can only be done by permanent water supplies at the homes. The cost of the wells will be about $2.00 per foot, including cribbing and the amount of $440.00 which they have voted should be sufficient for four or five wells. We need this many at the least.

I would be glad to have authority for the expenditures indicated, as soon as possible.

Dear Sir:

Re: Your File 128

I wish to acknowledge receipt of your letter of December 31st, enclosing a resolution of the Chief and Councillors of Mosquito Band, requesting the expenditure of $800.00; $360.00 being for payment for transportation of school children to Red Pheasant School and $440.00 for sinking wells on Moscuito Reserve. In reply I have to advise you that the expenditure of $440.00 for wells is approved.

The request for the expenditure of $360.00 for transportation for school children is not understood in view of the Department's letter of September 5th, 1940, in which you were advised that transportation would be provided by the Department for the children of Mosquito Band who attend Red Pheasant School at the rate of $2.00 per teaching day, from December 1st, 1940 to March 31st, 1941. Please advise if the amount now requested from Band funds is to supplement the transportation above referred to.

Yours truly,

George Patrick,
Chief, Trusts & Annuities Division.

Dear Sir,

I have for acknowledgment your letter No. 105-65 of t he 3rd. inst. wherein you ask for further information regarding recent request from the Stoney Band toexpend $360.00 in addition to the amount authorized in your letter of September 5th. 1940 for transportation of children to the Red Pheasant Indian Day School.

There are a number of Indians living permanently at the Stoney Village and their children attend the Red Pheasant Day School, and it was for their transportation your authorization of September 5th. Most of these Indians live in very poor houses. A number also move in for the winter months leaving very good homes, this habit I am discourging as much as possible. These Indians live from two to four miles away from the Village, as already informed the Band is willing that $360.00 be charged to their Band Funds, though not for the amount authorized in your letter of September 5th. Knowing home conditions in what is known as the Village, if we can hold the Indians in their good homes it will be money well spent.

The drinking water tank and one of the school rain-water tanks, also one of the pails used for noon-wash, have developed holes.

The remaining school rain-water tank is now being used for drinking water, and it shows signs of holes.

I do not know how much these repairs will cost, so have not filled in any amount.

re School Heating.

The above school is heated by a four-foot East-iron box stove placed approxiamtely in the centre of the room. This stove is without protection of any kind.

During cold weather it is difficult to keep the school warm,as it is too hot near the stove and cold near the walls. I think that if we could procure a galvanized tin guard for this stove, about 3' x 5' and 30" high,raised off the floor about six inches,it would tend to cause a current of air, drawing the cold air off the floor,which at all times is very cold,and so bringing about a better distribution of heat in the building.

OK

Yours truly,

E.A. Morgan

P.S. Stoves in both school room and children's dining room have cracks in the tops. These should be repaired(welded) to prevent further damage.

E.D.

Dear Sir:

I have your requisition of the 17th instant requesting certain supplies for the teacher's residence at the Red Pheasant School. It appears to the Department that whenever there is a change in teachers a new lot of supplies is always requested and invariably this includes articles which should not require replacement. However, I suppose that you reviewed the requisition before forwarding it to this office and, therefore, if you consider the under-mentioned items necessary you may arrange for their purchase:

1 Soup kettle
2 Water pails
1 [redacted]
9 Window panes
4 Blinds
Cord for blinds
1 Ordinary alarm clock
1 Galv. wash tub
1 Wash board

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

April 13th. 1942.

Dear Sir,

As the grant for transportation of Stoney Reserve children to the Red Pheasant Indian Day School, payable out of public funds expired March 31st. 1942. Will you please refer to your letter No. 105-6-5 dated January 21st. 1941, wherein authority was approved to the amount of $360.00 for the transportation of children to school payable out of Band Funds.

Will it be in order to continue transportation of children until the end of school term June 1942, chargeable to Mosquito Band Account No. 332?

Yours truly,

J.P.B.Ostrander.

Dear Sir:

I have for acknowledgment your letter of April 13th last regarding the transportation of Stoney Reserve children to the Red Pheasant Indian Day School.

In this connection I would refer you to your letter of December 16th last wherein you requested authority to pay the transportation for the period from January 5th to March 31, 1942. Why was authority not requested from January 5th to the end of the term, and further why was authority requested for the expenditure of $360.00 when it would appear that the average monthly expenditure is $40.00, and only three months remain in the term.

Yours truly,

D. J. Allan,
Superintendent, Reserves & Trusts.

The Bishop of Saskatoon requested Reverend Canon H.E. Hives to communicate with us regarding the nomination of a teacher for the Red Pheasant School. I am just in receipt of his letter and he has a qualified teacher in view. As soon as a definite nomination is received you will be further advised.

I am writing to you at this time in connection with the following statement made in Reverend Canon Hives' letter:

"The school building is heated only with great difficulty and the children from Red Pheasant find the excuse of a cold school during the winter a reasonable excuse for non-attendance."

We do not appear to have received any report from you in this connection and it would be appreciated if you would let me know if the facts are as stated by Canon Hives and, if so, what action can be taken to overcome this difficulty.

M.Christianson, Esq.,
General Superintendent of Indian Agencies, Regina.

With reference to your letter of the 16th. int. 302-11 in connection with the question of the continuation of the Red Pheasant Day School, I should point out that the attendance at this school is not as favourable as the figures on the returns would indicate. A large part of the attendance in the last quarter was made up of children of the Union Lake Anglican Residential School who were simply in the day school "marking time" until the residential school should be reopened after the fire. There are, at the present time, six children attending fairly regularly; the number would be about ten if we supplied transporation for some who are living too far away to be able to walk.

I would feel inclined to re-open this school for the next term if we had the right kind of a teacher, and the decision in this regard should rest with the church authorities and the responsibility be theirs to get the right kind or we should not re-open the school. If thwre was a man and wife at this school, and transportation provided, it would bw worth while continuing, in the event of course that the church authorities realize the kind of man and wife needed and appoint no other kind. The last teacher was hopelesss and her last term at that school was, in my opinion, so much wasted money. If the church authorities can do no better than that at the present time I certainly think the school should remain closed until something better is available.

The department should be reminded that this class-room building is not fit for use in cold weather and was to have been replaced, but replacement fell through as the result of the war and the matter is in abeyance until the war is over. Doctor Robertson condemned the building in 1938 and arrangements were made to build one in 1939 but the war intervened and I was told that nothing further was done until after the war. The result was that most of the children who were available for a day school were sent away to residential schools and there are now very few available. This should be one of the projects for immediately after the war and, coupled with the building of the school, there should be adequate transportation facilities because some of the families who will have children

With reference to your letter of the 23rd instant, 105-6-5, in connection with the proposed appointment of a new teacher at the Red Pheasant Day School, and in particular to that part which refers to the question of the heating facilities in the class-room, I have to say that nothing has been reported in recent years about this heating difficulty, for the reason that the building was condemned by the late Doctor Robertson in 1938 and arrangements made, at that time, for the erection of a new school to replace this one.

Having been informed that, as the result of the war and the resulting cancellation of all the Department's building programs, no school could be built at this point until after the war, I have not troubled the Department further with complaining about a situation which could not be remedied, and the teachers have been told, when taking over this school, that the heating of the class-room is a problem in the cold weather. I had asked Canon Hives to keep this in mind when talking to a new prospective teacher because I did not want a new one to go there and then start complaining about the heating of the class-room when nothing could be done about it.

I may say that, following my recommendation, in my letter of the 30th May, last, that the school be closed, the Department referred the matter to Mr. Christianson, and he took it up with me again; in reply to his letter, and in order to make the picture more clear to him, I mentioned the matter of the heating of the class-room building. I am enclosing a copy of this letter.

Mr. J.P.B. Ostrander, Indian Agent, Battleford, Sask.

I have for acknowledgment your letter of August 28, in which you submit additional information with respect to the condition of the Red Pheasant Day School.

In this connection I am sending forward herewith copy of a letter received by this Branch from Canon Hives. It is unnecessary to state that the information that Mr. Ross was not prepared to accept the position of teacher at this school was very disturbing to the officials here and to myself.

In view of the fact that we have no definite information with respect to the date on which the Government is likely to undertake a building program, would it be possible to have certain repairs undertaken at this particular school that would enable us to keep it open and in operation for a year or two? It would be appreciated if you would express an opinion on the desirability of banking up the school on the outside and repairing the windows and doors in such a way that heat might be conserved and draughts avoided. You might also express an opinion with respect to the size of the stove now at the school. If, however, you feel that this particular school is beyond repair, you should state so in your letter. In sending forward your recommendations, would it be possible to state, approximately, the total cost?

I am in receipt of your letter of the 7th instant, 105-6-5, in connection with the Red Pheasant Day School. I have noted, also, the contents of the letter which the Department received from Canon Hives in this regard.

Mrs. McDonald, the last teacher, made no effort to keep the dwelling house and grounds in shape and, when she left, I did not spend any money on the grounds or house because I expected that they would not be used any more and such an expenditure would then have been wasted. There is no water supply at the present school site and many wells have been sunk without getting water, consequently the water for the use of the school has been hauled in barrels and it was my intention to make sure of a water supply before deciding upon the site of the proposed new school.

Only six children are now available for attendance at this school unless we are prepared to put on two teams to transport the children to school; in the event that two teams are taking them to school regularly, the attendance would be about fifteen. The additional children would be collected, for the most part, on the Stoney Reserve.

It should be mentioned that Mr. Ross' reason for not accepting the Red Pheasant School, was chiefly the result of his wife's attitude towards it. He had been teacher at the Sandy Lake Indian Day School and, according to his wife's statement, made in my presence, they left that school because it was too quiet and hard on her "nerves". I understand that this school is well equipped and in good condition. It is certainly quiet around the Red Pheasant School and when I heard Mrs. Ross' remarks I made no effort to persuade them to stay as I do not like dealing with "nervy" women. There is the mid-day meal, sewing, etc. for the teacher's wife to help with, and steady nerves would be needed.

With regard to repairing the class-room building, and making it fit for use in cold weather, I strongly recommend (that nothing -

that nothing be done in this connection at the present time. I have not made full enquiry as to the cost because there are no workmen, either carpenters or plumbers, available to give me an estimate and there is little possibility of being able to purchase the necessary materials if we did get the workmen. These matters were not obstacles when the late Doctor Robertson made the decision that it was unwise to spend any money on this old building, but they are obstacles now. The cost of transportation will be considerably higher, if resumed at this time. It was being done for $2.00 a day for each man and team. Present wages are about $8.00 to $9.00 a day for a man and team. There is no water at the school and this would have to be hauled, which would cost at least $10.00 a month, considerably more than this if the teacher was not very careful in using the water.

In addition to all the reasons mentioned, I do not like to think that the expenditure of a large sum of money, at this time, to repair a building for which we may not be able to get a teacher suitable, would mean that we would have to continue the use of a patched-up building, with no water supply, for years to come, instead of having a good building where there is a good supply of water and I know that the Department would not consider the erection of a new building shortly after having spent a considerable sum on the old one.

Re: Red Pheasant Day School.

I desire to acknowledge receipt of your letter of the 11th instant ant to thank you for the information contained therein.

In view of all the circumstances, I am disposed to think that this school should remain closed, for the time being at least, but that a new school for the Red Pheasant Reserve should be included in the Government's immediate post-war building program and should be one of the first schools erected. In the meantime and until the new school is established, you might make an investigation with respect to the best site that might be selected, keeping in mind central location, adequate water supply and such matters.

AIR MAIL

Ottawa, August 7, 1945

EX'D

Dear Canon Hives:

I have your letter of the 3rd instant, suggesting the appointment of Mr. F. G. Kohler as teacher of the Red Pheasant Indian Day School.

I have reviewed your letter of September 8, 1944, and also Mr. Hoey's reply of September 7.

In addition, we have on file a letter dated September 11, 1944, from the then Indian Agent, in which he wrote in part as follows:-

"Only six children are now available for attendance at this school unless we are prepared to put on two teams to transport the children to school. In the event that two teams are taking them to school regularly, the attendance would be about fifteen."

In addition, the Agent commented in his letter on the fact that it would take a considerable amount of money to put both the school and residence in proper condition.

If the same condition prevails this year as last year, namely, that only 6 children are available without transoirting children a considerable distance, I doubt the advisability of re-opening the school at the present time. However, I am communicating with the Indian Agent, with a view to ascertaining if conditions have changed. Possibly more children would be available this year than were there last year.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Re: 105-6-1

Replying to your letter No. 105-6-1 of the 7th. inst. in connection with reopening Red Pheasant Indian Day School. Before any work is done repairing this school, I would suggest that Canon Hives have Mr. P.G. Kehler go out to Red Phesant Reserve and size up the situation to see if he would be satisfied with conditions there. Canon Hives is absent from Battleford on holidays, and will be away for two weeks. About a year ago a teacher who was interested went out, when he saw the layout he would not consider staying.

There are thirteen children of Red Pheasant Reserve, living 3-6 miles, and fifteen children from the Stoney Reserve living 3-6 miles away from the school who should attend.

If school was reopened transportation would have to be provided for children coming from the Stoney Reserve, two outfits would have to be provided at a cost of $3.00 per day, as on account of the location of the homes to the school, it would be out of the question for one outfit to handle all pupils. Indians of the Stoney Reserve would not consider doing the work for less.

Water is quite a question for school and residence, which has to be hauled a considerable distance.

Enclosed requisition for material and labour will cover requirements to put buildings in fair shape until such time funds are available to erect a new school in a more central location.

Unless the church authorities can obtain the services of a first class teacher, I would not be in favour of reopening school.

Dear Canon Hives:

With reference to your letter of the 3rd instant and my reply of the 7th instant, I understand that before the Red Pheasant School can be re-opened considerable work will be required to repair it. The Agent feels that it will be advisable to have Mr. Kohler visit Red Pheasant Reserve and size up the situation before incurring any heavy expenditure. I believe this is a good suggestion and I trust that Mr. Kohler will be able to get in touch with Acting Agent C. B. Bell, in order that he can arrange for his visit to the Red Pheasant School.

Yours very truly,

Depa rtment of Mines & Resources, Indian Affairs Branch, Ottawa, Canada

Recently, I had an occasion to visit the Red Pheasant Day School which was re-opened this past month with Mr. Adam Cuthand in charge. I found nineteen Red Pheasant children and one child from the Stoney Reserve in attendance.

There are about twelve children from the Stoney Reserve who would like to attend this school but on account of the distance it is out of the question for them to do so without transportation being furnished.

To pick up these children, it would mean a trip of ten miles one way and the cost would be, for a man and team, $3.00 per school day, which I consider is reasonable under the circumstances.

I would recommend that this expenditure be approved and the Band is quite in favour of charging same to their Band Account No. 332.

There are six more children of school age living about six miles from the Red Pheasant School but on account of the distance I would not be in favour of providing transportation for these children.

Department of Mines & Resources,
Indian Affairs Branch, Ottawa, Can.

There are ten children living on the Mosquito Reserve about four miles from Red Pheasant School. A better attendance could be secured if they were taken to school by a van. Their present attendance is somewhat irregular and of course will be more so as the weather gets colder.

Would you please give consideration to issuing authority to hire a conveyance and driver for five months at $3.00 per day for every teaching day.

This amount could be paid from Mosquito Band Account No. 332.

Mr. C.S. Bell, Indian Agent,
Battleford, Sask.

We have your letter of the 28th ultimo with reference to ten children on the Mosquito Reserve whom you wish to transport to the Red Pheasant School.

Officials of the various Departments of Education agree that children to ten years of age can walk two miles each way to school daily and children over ten years can walk three miles each way daily.

We note from your letter that you state that these children are living four miles from the Red Pheasant School.

Do you mean that all the children reside four miles or do some of the children reside within the distances mentioned above.

We would like to have a rough outline showing the distances these children live from the school and the number in each family. On receipt of your reply your request will have further consideration.

Mr. C. S. Bell, Indian Agent,
Battleford, Saskatchewan.

Construction of One-room Day School and Attached Teacherage - Red Pheasant.

We have now a stock of blueprints, specifications and bills of materials for our standard one-room day school and attached teacher's residence.

The Auditor General has insisted that, in future, the clauses of the Public Works Act with regard to advertising for tenders be adhered to. During the emergency war years, some variations from these regulations were permitted, but we are now required to advertise for tenders on construction of public buildings in excess of $5,000.00. Attached hereto please find a sample advertisement. It is our intention to advertise for tenders for the construction of the Red Pheasant Day School in the near future. Therefore, we would request you to advise us:

(a) The names of the newspapers in or near your agency in which you would recommend that we advertise:

(b) Post offices and other government buildings in which we should display drawings, specifications, etc.

Naturally, your own office will be one in which we will display drawings, etc. If no tenders are received after advertising, you will be advised so that other means can be considered whereby the construction of this school can be carried out during the fiscal year 1948-49. These other means

involve:

1. Direct approach to contractors when advertising has failed to produce tenders.

2. Construction on a day labour basis.

3. The erection of a prefabricated school.

With regard to (2) above, the Department, as previously stated, has a complete bill of materials for the construction of this standard school. Other agents have successfully had this school constructed this year by employing a foreman-carpenter and Indian helpers. The drawings and specifications are very clear and the Department buys all the necessary materials. I give you this information so that you can consider such a mode of construction if advertising fails.

We would appreciate receiving from you the information required in paras (a) and (b) above. We should also be advised as to the availability of hydro and water facilities and their distance from the school building.

Department of Mines & Resources,
Indian Branch, Ottawa. Ont.

I have for acknowledgment your letter No. 105-6-5 of the 30th. ulto. in connection with proposed construction of One-room Day School and Attached Teacherage-Red Pheasant Reserve.

Advertisements for tenders should be placed with the following:-

Battleford Press.	Battleford. Sask.
The Optimist.	North Battleford. Sask.
North Battleford News.	North Battleford. Sask.

Display of drawings should be sent to this office.

There is a building site about three quarters of a mile south of present Day School which would be suitable and I am given to understand adequate supply of water could be obtained. We may have to spend from $200.00 to $300.00 sinking a well. Several wells in the past have been sunk at the present school site going to a depth of 80 ft. without success. Water supply on the Red Pheasant Reserve is quite a problem.

Red Pheasant Indian Day School

Reference your 127-105 of February 10 -

In view of the information contained in your above letter, the primary consideration before beginning construction of this school will be the location of a suitable water supply.

In view of our past experience with the location of Indian day schools, it is felt that a most important feature is an adequate water supply. Therefore, you are requested to contact local well drillers and to submit a tender for the sinking of a well which will provide an adequate supply for such a school. When we are assured of a water supply, [redacted] we can advertise for tenders or decide on the erection of a prefabricated school. We will expect to hear further from you with regard to the sinking of this well.

You will recall that when you visited Ottawa we were advised that Mr. Max Campbell, M.P., had recommended Mr. Fred C. Santon, 1541 - 99th Street, North Battleford, as a good small contractor and builder, who would probably be ready to undertake contracts for the coming season. On checking your school construction program for 1948-49, I find that there are two schools projected for the Battleford Agency, namely Sweet-grass and Red Pheasant. It is presumed that you have plans in mind and that you might be interested in interviewing Mr. Santon. It is possible that he would consider one or the other of these schools on a day labour basis.

Further to my letter of February 16th with reference to the securing of a good water supply for the new Red Pheasant School. I have been able to interest a Mr. Garfield Weum in giving me an estimate on the cost of digging. It will cost $3.00 per foot for a 30" hole plus $1.60 for cribbing. At this rate a hundred foot well will cost approximately $430.00. It is quite possible that we may have to go that depth to secure an adequate supply.

Mr. Weum advised me that the cost would be the same for a dry hole less the cost of cribbing. He is the only man available who has a machine.

There is only one other well digger in the district and he has a boring machine. He has left for another part of the province and I cannot secure any definite information as to when he will likely return. I understand he usually charges about two thousand dollars and guarantees water. I think the other machine would be able to secure for us an adequate supply.

We have your letter of the 27th ultimo, file 127, with reference to securing a water supply for the Red Pheasant School.

If you feel that there is a reasonable chance of securing water you may arrange with Mr. Garfield Wesm to dig a well. It must be distinctly understood by you that the total expenditure must not exceed $430.00. It is hoped that you will strike water at less than one hundred feet and consequently the cost would be less.

Red Pheasant School:

Mr. Supt. Bell took me to this school this afternoon.

Replacement of this school is not in my opinion — and Mr. Bell and Canon Nives concur — an immediate necessity.

Admittedly the school building needs some repairs, but as it stands, it is in better condition than Thunderchild school.

If a new school is to be erected in this area it might rather be on the neighbouring Mosquito (Stony) Reserve from which children have for part of the year been transported to Red Pheasant School.

The chief factor in re-siting the school seems to be the desire to get a good well. But on the Red Pheasant Reserve a bountious well is difficult to assure. It is worth while trying to find water near the existing school. And so, with the advice of Mr. Wm. Cockburn (Mr. Bell's assistant) who was in the party, I have suggested that a shallow trial hole be dug at a spot about 70 yards south-east of the school. The true growth and contours of the land suggest that the chances of finding water here are as good as in most places. The shallow hole is to be dug

to discover whether a certain type of clay is present near the surface. If such clay is turned up, it would indicate that a shallow well would be useless, and actual boring operations would be tried elsewhere. You are aware that a limit has been placed upon the depth and cost of well-boring operations.

A decision as to the site for boring (or for not boring at the spot suggested) is expected by the end of this week.

I think the Department should repair this school, make a determined search for water, and transport the Stoney children throughout the coming school year. Meanwhile the future needs of the Stoney reserve are being studied.

Costs involved. Transportation $600.
Well $430
Repairs $470 (?)

Repairs:

1. Block up basement windows and holes between wood and top of foundation. "Floor is cold!" — no wonder!
2. Remove some siding from outer wall, insulate, and re-nail siding which was taken off.
3. Trade stove for the one in lunch-room which is in better condition.
4. Possibly tar roof.

Day School Building Programme 1948-49 - Saskatchewan

Reference your 1050 - 316 - 11A of June 9 -

Amounts included in our estimates for your day schools are as follows:

Sweetgrass (one-room)	.....	$14,000.00
Red Pheasant (one room)	.....	14,000.00
Keeseekoose (one room)	.....	14,000.00
Chitek (one room)	.....	14,000.00
Poorman's (one room)	.....	14,000.00
Pot Lake (one room)	.....	14,000.00
Valley River (two room) (new Manitoba Inspectorate)	.....	28,000.00

We have received Major Clark's report on the educational situation at Red Pheasant Reserve. He advises that Superintendent Bell and Canon Hives are in agreement with him that the replacement of this school is not an immediate necessity. Therefore we would suggest that consideration be given to transferring the Red Pheasant funds to Meadow Lake. I would suggest that Major Clark visit Meadow Lake, discuss this matter with Father Allard and consider the establishment of a day school there.

In view of your statement re the St. Francis Day School on the White Bear's Reserve, would you consider recommending the transfer of funds from Keeseekoose to this point?

It would be appreciated if we could hear from you concerning the above two suggested transfers of funds.

Red Pheasant School:

As this school has been offered to an elderly lady for the coming year, it seemed to me that you would approve action with a view to reducing complaints and assuring more comfort for the users. As previously stated, a new building is not urgently required. There are years of servica in the present installation if some work is done.

Repairs: Accordingly, I have to-day requested Mr. Supt. Bell to obtain and forward to you as soon as possible an estimate of the cost of the following:

Roof: patch as necessary and give a coating of shingle treatment

Outer finish: remove warped shiplap, insulate, and restore shiplap.

Foundation: plug cracks

Basement: plug all holes, mend windows and other outlets.

Stove: exchange with stove in lunch-room.

Pupils from Mosquito-Stony Reserve: These should be transported to Red Pheasant for the full year.

Second Classroom: The lunchroom may when it becomes necessary a year or two hence be converted as at Little Pine.

Reference is to the etemized estimate of N.C. Anderson which accompanied your letter of Aug. 23

Approval is given for you to proceed at once on all items with the following reservations

(1) The flue registers should not be removed but only covered thinly in case the furnace is later removed.

(2) If you consider that fuel can be more economically provided for a fifty inch drum heater than for the 42 inch heater mentioned, you may substitute the larger size if it is available. If there is no trade-in allowance on the old stove what disposal do you recommend for it? (Private Sale?) Your previous letter indicated that a heater was to be installed in the basement but the reason for this was not clear.

We have a photograph that shows that at least one outhouse needs repair

DEPUTY MINISTER

Re: Red Pheasant Indian Day School, Battleford Indian Agency, Province of Saskatchewan.

It has been proposed to erect a new school to replace the present Red Pheasant School, but it has not been found possible to obtain the services of a contractor. In the meantime, Major Clark of this Division visited the school and on his return recommended that instead of building a new school, we repair the present building and in his opinion, if certain repairs are made, the building will be suitable for several years.

Mr. N.C. Anderson, Battleford, Saskatchewan, is prepared to repair the roof, insulate the interior of the building and also repair the foundation and basement and repair the porches, at a total cost of $1,060.00 for material and labour.

Superintendent Bell considers that this quotation is reasonable and we would appreciate it if the Minister would approve the acceptance of Mr. Anderson's tender.

We are submitting Mr. Anderson's tender to the Minister for his approval. As soon as this is obtained, you will be advised.

The floor registers should not be removed but only covered thinly in case the furnace is later renovated. If you consider that fuel can be more economically provided for a 50" drum heater than for the 42" heater, the Department would be prepared to authorize the purchase of the former. You might let me know at what price the larger heater can be secured.

Would there be any trade-in allowance on the old stove and if not, what disposal do you consider could be made of it?

The information that we have received from Mr. Clark indicates that one of the toilets, at least, should be repaired.

Red Pheasant:

Teachrage and Bunch-room Tenants were careless and not enthusiastic in doing a little repair work.

Here is a second classroom if we can transport the pupils from Story-Mosquito reserve all year not just for the winter months.

Evidence of neglected education and maintenance. Half an hour and a dollar and a half would restore it

Water might be struck here and $6 a month saved.

I think Mr. Bell regards the first $665 as immediate and the remaining items ($457) as indicated if we can afford it. Admittedly the roof stair and exterior paint ought to go on

Memorandum:

Re: Red Pheasant Indian Day School, Battleford Indian Agency, Province of Saskatchewan.

It has been proposed to erect a new school to replace the present Red Pheasant School, but it has not been found possible to obtain the services of a contractor. In the meantime, Major Clark of this Division visited the school and on his return recommended that instead of building a new school, we repair the present building and in his opinion, if certain repairs are made, the building will be suitable for several years.

Mr. N.C. Anderson, Battleford, Saskatchewan, is prepared to repair the roof, insulate the interior of the building and also repair the foundation and basement and repair the porches, at a total cost of $1,060.00 for material and labour.

Superintendent Bell considers that this quotation is reasonable and we would appreciate it if the Minister would approve the acceptance of Mr. Anderson's tender.

Reference your letter of August 31st under file I05-6-5 (E.I) in connection with the renovating of Red Pheasant School I would recommend the purchase of the 50" drum heater. This heater will cost eight dollars more than the 42" heater, namely $70.00 instead of $62.00. installed.

It is intended to place the old heater in the basement so that in real cold weather it can be used to heat the floor. It could be disposed of if it was decided at a later date to instal a furnace. Your instructions concerning the floor registers have been duly noted and will be carried out.

Enclosed herewith is a requisition for material for the repair of the toilets. The sum of five dollars has been allowed for labour.

File: 618-5

Extract from report by C.A.F. Clark on his inspection of the Red Pheasant Indian Day School. Original on file 618-1.

Building: Freshly painted and repaired building looks well. It should last for years.

Heating: The new stove has not yet arrived. Fuel supply O.K.

Water: Efforts to locate a well have failed. We will have to continue hauling water.

Play Equipment: This is in short supply.

Teacherage: A new set of steps from the kitchen down into the basement is an imperative necessity and no delay should be allowed in replacing the present dangerous installation.

30th April, 1949.

Mr. C.S. Bell,
Superintendent, Indian Agency,
Battleford, Saskatchewan.

With reference to your letter of the 1st instant we are requesting the Departmental Purchasing Agent to secure the materials that you state are necessary for fencing the yard, erecting swings and see-saws and also a flag pole, at the Red Pheasant Indian Day School.

We approve an expenditure of $100.00 for labour. The total cost of material and labour will involve considerable expense, and consequently, expenditures on repairs at other schools in your agency may have to be reduced.

The school was opened at the beginning of the terms with an unsatisfactory teacher who eventually fractured her hip, resulting in the school being closed for a time. It has recently re-opened with a new teacher, whose services are promising for the future. MEMO FOR FILE

Father Guy reports that he learned while in the West that the Church of England were asking for a day school at Pelican Narrows. The Rev. Father states that Bishop Charlebois of The Pas is opposed to this proposal on two grounds: first, the day school would not be successful herebecause of the nomadic habits of the Indians; second, the Indian population is largely Roman Catholic.

My advice to the Department is to discourage the day school as much as possible in these northern regions as it will not pay.

A teacher is needed on this reserve for the summer. The arrangements already made for Stanley will do very well.- June 15th to September 15th at the rate of $5.00 a day which will include travelling expenses. With regard to Pellican Narrows and Stanley these should be sanctioned as soon as possible so that I can arrange for teachers for next summer. There is no house for the teacher at Pellican Narrows.

EXTRACT from Report of His Lordship the Bishop of Saskatchewan, dated Ottawa, October 9, 1924, regarding Indian Schools in Manitoba, Saskatchewan and Alberta, within the Diocesr of Saskatchewan.

Original on 160-2.

DIVIDED MISSIONS:

Where the missions are divided between the Church of England and the Roman Catholic, as in the case of "Pine Bluff," where two-fifths are Roman Catholic and three-fifths are Church of England, and in "Pelican Narrows," where three-fifths are Roman Catholic and two-fifths are Church of England, I would suggest as a solution of the problem in these and similar cases,- that the Department should provide a proper stipend for a fully qualified teacher, together with an allowance for house, and divide that total amount between each Church pro rata. If either Church declines to conduct a qualified school, then the whole sum should go to the one willing to do so under, of course, the Conscience Clauses. We of the Church of England have our own school at Pine Bluff and Pelican Narrows.

Answered that no general ruling could be given. R.O.D.

Ottawa, November 11, 1924.

Right Reverend Sir:

Your Lordship will remember that you discussed, upon the occasion of your recent visit at Ottawa, the advisability of commencing summer day school activity at Pelican Narrows. Mr. Indian Commissioner Graham, of Regina, has discouraged a day school at this point; but, as you were promised by the Superintendent of Indian Education some months ago, the Department will allow a per diem rate for the summer months for teaching services at Pelican Narrows. I regret that no capital expense can be authorized at the present time.

I have the honour to be,

Right Reverend Sir,

RECEIVED MAR 14 1925 INDIAN AFFAIRS

BISHOPSTHORPE
PRINCE ALBERT, SASK.

Tuesday, March 10th 1925.

Dear Mr Scott,

I have a very good man, available at the end of this month highly qualified as a teacher, single and of good spirit and presence, with Saskatchewan certificate, if an arrangement can be made with the Department to give the major part of the year to school work at Pine Bluff and the minor part to Pellican Narrows.

Of course I know that the Roman Catholics have the school at Pine Bluff at present but as I have already point out to you the injustice of that arrangement when the Church of England has the majority of the pupil

I have already suggested that in that case, so as to be fair to the Roman Catholics we should be given a pro rata stipend and maintenance and keep the school open only for that part of the year when the Indians are there, i.e. from 7 to 8 months.

The school at Pellican Narrows you have already sanctioned and as it only possible to work it during the months the Pine Bluff school would be closed, the two could be worked together very well indeed by a single man.

We have this man Mr Parry available at the present time in Prince Albert and I am holding him back from a White school until your decision is received.

Right Reverend Sir:

I have Your Lordship's letter of the 10th instant, with reference to the proposed day schools under Church of England auspices at Pelican Narrows and Pine Bluff. I note that you have a teacher in mind and that you believe the two activities could be handled by the same worker. I regret that I cannot authorize any salary or other expense in connection with the proposed Pine Bluff School at the present writing. I am corresponding with Mr. Indian Agent Waddy for his recommendation.

If Your Lordship is prepared to conduct a summer day school at Pelican Narrows, the Department will allow a salary for the teacher on a per diem rate - the rate to be determined by the qualifications of the incumbent. No capital expense can be authorized at the present time.

Sir:

I have to inform you that His Lordship the Bishop of Saskatchewan has asked the Department to assist financially a day school under Church of England auspices at Pine Bluff. His Lordship has been informed that we are asking you for a recommendation. In this connection, please see your 1617-116 of April 1, 1922, my 128-17-1 of April 10, 1922, and the correspondence which grew out of these letters.

You might let me have a full report as to the number of children of each religious faith at Pine Bluff at the present time. You should indicate if there is sufficient interest on the part of the parents and a large enough number of children to warrant two day schools on this reserve. You might also give me any other information you can, which will assist the Department in making a decision. Please comment on the movement of the Cumberland Band Indians to this new [redacted].

Dear Sir:

Re Frank C. Dey, Teacher: Pelican Narrows.

I have to thank you for your letter of the 23rd instant, accepting Mr. F.C.Dey as Teacher for Pelican Narrows. We shall be glad to advise you when Mr. Dey begins his work.

As you are aware, there is no school at Pelican Narrows but the church will be used in the meantime. There are no supplies of any kind and we shall be glad if you will please forward the customary supplies such as : Plasticine, Letter Cards, Readers, Scribblers, Slates, Lead and Slate Pencils, and Coloured Sticks. For the Blackboard it will be necessary to use either Hyloplate or the pliable materia l that is easily rolled up.

You will probably know what is needed in this regard but we thought it wise to make some suggestions in order to be sure that the School will be equipped as well as possible.

Dear Duncan & Kim,

I officially opened the School on the 19th of June and up to the present have been teaching on Saturdays. The term being so short I thought it best I make use of every working day. I wonder if you will be so good as to notify the Indian Dept: when I began and whether they are agreeable for me to teach Saturdays. I opened with 23 pupils and now have 41! Good progress is being made and the attendance are good.

Sorry I did not meet you in Prince Albert. Best Wishes,

I have to acknowledge receipt of your letter of the 5th instant, enclosing a communication from Mr. Frank C. Dey, teacher of the summer day school at Pelican Narrows, requesting permission to keep the school in operation on Saturdays.

In reply I beg to say that the Department will have no objection to Mr. Dey teaching each Saturday during the period the school is in operation, and we will allow his salary at the rate of $5, the same as for the other teaching days in the week. We note that he commenced duties on the 19th of June, last, and that there has been a good and regular attendance.

When Mr. Dey closes the school, he should prepare returns on the forms for that purpose, showing the names of the children in attendance, the standards or grades, the number of days attended by each pupil, and the total number of days taught by him. Dear Sir,

I have today forwarded to you my returns for the Summer School that I opened in June.

Dr Lloyd Bishop of Saskatchewan sent me on your sanction to continue Saturday teaching for which I thank you.

As I knew the School term would be short I taught school on Saturdays from the outset.

With regard to the returns you will see that I have sent in three.

As the returns show there were actually ten pupils residing in Pelican Narrows during the whole time the school was in operation. The other pupils came at all different times and left before I closed the school.

As you will see I have only given their actual absent days while in Pelican Narrows and not for the whole

We, the Indians of Pelican Narrows wish to recommend Mr Dey, who opened and taught the first school in this district, as being exceptionally capable in handling and teaching our children, none whom ever attended school before.

We would like very much to have Mr Dey continue next season as he is familiar with all pupils.

If possible that Mr Dey may return here we will be only too willing to build at our own expense a school house which would be more suitable than the present building in use, the Church of England Mission.

APR 20 1927

Dear Sir,-

The time is approaching when a teacher will be required for the school at Pelican Narrows and our Superintendent, Rev. A. Fraser, has asked me to be ready to supply the man needed. Accordingly, I have obtained the consent of Mr. E. Greville C. Holbrook of Prince Albert to take that position for the usual time and at the usual rate of $ 5.00 per teaching day. This to cover expenses. May I therefore nominate Mr. E. G. C. Holbrook for the post at Pelican Narrows to begin his duties as soon as he can get to his destination. Mr. Holbrook is well qualified in every way for the position. He is a strong young man of excellent character and holds third class certificate and has had a year of teaching experience.

3 months

Yours faithfully

Charles W. McKim

Very Rev. Sir:

I have your letter of the 12th instant, nominating Mr. E. Greville C. Holbrook for the position as teacher of the summer school at Pelican Narrows, and stating the qualifications which he possesses.

In reply I beg to say that the Department will approve of the appointment of Mr. Holbrook to teach during the three summer months only, and will allow him payment for his services at the rate of $5 per teaching day. This will be paid upon receipt of returns from him showing the number of days taught, attendance, etc. I shall be pleased to hear later as to whether he accepts and the date upon which he will reopen this school and begin duties.

Dear Sir,-

Re. No. 132-5-1 Mr.G.C.Holbrook & Pelican Sch.

Under date of April 20th 1927 you kindly informed me that your Department had accepted our nomination of Mr. Greville Holbrook for the summer school at Pelican Narrows.

Since that date Mr.Holbrook has been offered a post in the Imperial Bank and has asked to be relieved of his promise to take the school at Pelican Narrows. We felt that this request should be granted and we undertook to release Mr.Holbrook. We regret that your Department may thus be put to a little inconvenience but we are now prepared to submit another nomination in the hope that you will be good enough to make another appointment.

On behalf of the Bishop of Saskatchewan I would now beg to submit the name of Mr.George O.Lee of 915 - 6th Ave. No.Saskatoon, Sask. Mr.Lee is just completing his Normal training and will then hold a first class certificate.

I have interviewed Mr.Lee and believe him to be quite well suited to the work and conditions at Pelican Narrows. I have also supplied him with the information received from your Department.

Trusting that this will meet with your approval, I am,
Yours very truly

PETER BALLENDINE'S BAND.

The Protestant portion of the Band asked me to meet them separately as they had something of importance to put before me. I met them after the general meeting was over and they broached the question of a day school for them at Sandy Narrows. There are 40 Anglican children of school age who would attend. It is for these children that the day school is kept open during the summer months. They also asked for some provisions for their children who are attending the day school. I am not greatly in favor of day schools, but taking the number of children into consideration, it would warrant the Department keeping the school on and supplying a building. The building now in use is a small chapel in which religious services are held. This Band is of the Swampy Cree Tribe and number 437 souls, the same as lastyear. Health conditions amongst these people were fair. The doctor attended to many minor ailments, but nothing serious. He also vaccinated quite a number of children as well as some adults. Thirteen children were sent down from this Band.

The Protestant portion of Peter Ballendine's Band are asking for an improved day school, to be built at their reserve at Sandy Narrows, on Pelican Lake. The average attendance for the time this school was open this summer was 19. I leave this for the Department to decide. The Plow, harrow, and two more wheelbarrows as well as the food for day school, have been included in the estimates.

DAY SCHOOL AT PELICAN NARROWS

On August 14th, I visited and inspected a day school at Pelican Narrows. The children are Anglicans who belong to Peter Ballendine's Band and the school is open for the summer months only.

There were 12 girls and 10 boys in attendance at the time of my visit; the school has been open since June 26th last.

The pupils were learning their alphabet, figures, and how to read and write; they naturally did not know very much, but the teacher had done as well as possible during his stay here.

There is no school building here; they use the church for a classroom. No seats have been provided for the pupils and if the school is to be continued a supply of 24 single desks should be sent to Pelican Narrows, via Ross Navigation co., The Pas, Man.

matter of the location of the school with the Indians in August last, and I inspected a site they suggested at Sandy Narrows. They said they would prefer to have the school there rather than at Pelican Narrows, because there is good soil there, and they can grow potatoes and vegetables, and the fishing is better than at Pelican Narrows. They would therefore find it easier to provide food for their families at that point. Accordingly I beg to apply for the building of a school by the Indian department at Sandy Narrows, if possible next Spring. The material would have to be sent in by team during the winter, when a freight trail is kept open over the ice. A room for the use of the Teacher could be attached to the school. The Indian Agent Waddy, Fort Pas, Man. will bear out all that I have said. Mr. D. Wickenden taught the school last Summer, and he would be willing to go there again next year.

Hoping that this project will meet with your approval,

Dear Sir,

I would like to bring to your notice the following matter. The summer school for the Pelican Narrows Indians was held last summer at a point called Sandy Narrows, six miles South of Pelican Narrows, where many of the Indians have homes, and large potato and vegetable gardens. A log house belonging to one of the Indians was used for this purpose. For three years previously our Church building at Pelican Narrows was used for a school, owing to the lack of a school building. This arrangement was inconvenient, and the Indians themselves do not like it. The log building used last summer was too small and low, and it is hardly fair to keep the crowd out of this house. I talked over the

Dear Sir.

The letter enclosed from Archdeacon Paul(whois now in charge of our Indian Missions in this diocese) speaks for itself.

I have known for some time past that the Indians have been asking for this change and the last time I was at Pellican Narrows they seemed quite united on the question of the need for change owing to the food question, but they were not decided as to whether it would be better to move to some point nearer the provincial boundary line and the new railway line.

Even then the majority were in favour of moving to this place of Sandy Narrows 6 or 7 miles from Pellican Narrows. I asked the Rev Mr Fraser of The Pas to investigate the matter thoroughly and he is decidedly in favour of the change.

I understand that the Indian Agent at the Pas is also in favour of the change.

When Archdeacon Paul made the round this summer I asked him t to go fully into the question and his judgement is given in the letter enclosed.

What is wanted at Sandy Narrows is not an expensive Improved school but a good sized log building with a lean-to for the teacher to live in.

Already a good many of the Indians have houses built there because of the fishing being so much better and the only question for some time past has been whether all the rest of our people should follow their example.

I think it would be decidedly better if they did do thi this but that of course must depend on whe her the Department will aid them by putting up this log building for a school and teachers residence.

Believe me to be

Yours faithfully.

In 1927, Mr. Indian Agent Taylor urged the Department to provide a school building and teacher's residence for the summer school, which is conducted for the Pelican Narrows Indians. He recommended that it be placed on the Sandy Narrows reserve, which is a few miles south of Pelican Narrows. The Department is in receipt of communications from Bishop Lloyd and Archdeacon Paul, urging that a log building be erected early in the spring and that the material be sent in this winter by team. It is suggested that a small teacher's residence be attached to the classroom. You might let me have a recommendation and estimate of the cost in this connection. You should also indicate if you would be in a position to make the necessary arrangements for the freighting and for the erection of the school in the spring.

Venerable Sir:

I have to acknowledge receipt of your letter of the 23rd ultimo, nominating the services of Mr. Douglas C. Wickenden, a student at Emmanuel College, Saskatoon, as teacher of the Pelican Narrows Indian Summer School.

In reply I beg to say that the Department will approve of the appointment of Mr. Wickenden, and will allow him salary for his services at the rate of $5 per teaching day. Mr. Wickenden is to provide his own travelling expenses. He may teach on Saturdays. If possible, he should begin duties on or about June 1st, next, teaching to the end of September, providing the Indians remain at that point during that period.

We are informing Mr. Commissioner Graham of the approval granted for the appointment of Mr. Wickenden during the summer months.

You are being advised in a separate communication regarding the appointment of a teacher for [redacted] Lake (Chemawawin) Indian Summer School.

Your obedient servant,

J. D. McLean,

Dear Sir:-

In reference to your letter #132-5-5 of the 12th inst., regards proposed building for a classroom for the Peter Ballantyne Band near Pelican Narrows, I beg to say that the Anglican children there get no education. I have put in the estimates for two years a sum for the above but did so at the request of the Indians and the church authorities. My personal view is that if we build any more day schools in this district we may have to close up the Mackay School. There being no school for Anglican children at Pelican Narrows, it should be a good recruiting ground for the residential school.

Pursuant to our conversation today, concerning the Pelican Narrows Indian Day School, I have to state that the Department had practically decided to discontinue its assistance. However, if there is any likelihood that the Indians will remain on the reserve (Sandy Narrows) for the entire year, it is possible that the establishment of a regular day school should be considered. I should be grateful if you would discuss this with His Lordship and with others who are familiar with the situation and let me have a recommendation.

Original on No. 132-4-1.

With reference to establishing ten months' schools at Stanley and Pelican Narrows, Saskatchewan, we understand that the Department's Agents have decided that the three months' schools are not a success.

x x x x

Re "Pelican Narrows" School, the Indians have decided that Sandy Narrows would be a better site for the school than Pelican Narrows. They would leave their children there during the Winter and provide fish and wild meat as at Stanley. They were disappointed at not having a school last summer, but are pleased now at the thought of having a ten months' school.

There is no school building or teacher's residence at either Pelican or Sandy Narrows. When the summer school was held, the Church building was used for a school and the teacher lived either in a tent or in an Indian house. New buildings would therefore be needed at Sandy Narrows and all school equipment and supplies. The Indians at this point have had very little chance of getting their children educated and we strongly urge that this new effort be undertaken. Rev. E. Ahenakew talked over this matter with Mr. Russell Ferrier in Ottawa in September and I believe he will give a favourable report on the matter. Another reason why Sandy Narrows seems to be the better site is that there is good soil there and the Indians have quite large potato gardens at that point, and the fishing is better than at Pelican Narrows.

Referring to that portion of your letter of the 14th instant, regarding the establishment of a school for a ten months' period each year at Sandy Narrows instead of at Pelican Narrows, I have to say it is thought, from reports received from our officers, that a school at this point would meet with a fair amount of success. We are making a note to include an item in our Estimates for the next fiscal year to provide the funds required in the erection of a school and teacher's living quarters. If funds for the purpose are provided, the building could be erected next summer, and the school work begun early in the fall of 1931.

The reasons stated by you for having the school at Sandy Narrows instead of at Pelican Narrows have been noted.

Dear Sir,

Referring again to your letter of Nov. 20th. (no. 132-5-1) re proposed ten-months school at Sandy Narrows, I should like to suggest that it might be advantageous to have the two months holiday either during the winter trapping season, or the Spring muskrat season (March - May). During July and August the children would be home with their parents in any case and might as well be going to school, but in the winter months special arrangements would have to be made. Your officers who know those parts would know what is best. If you adopt this plan, perhaps the school at Sandy Narrows coul be opened in the summer instead of the early Fall of 1931. The children have had no teaching since Sept. 1929.

Yours faithfully,

Hope to be able to greet Adler next 1931

I have your letter of the 10th instant, relative to operating the proposed Indian day school at Sandy Narrows on a ten months' basis each year, and recommending that the holiday period be taken when the Indians are away for their winter trapping or during the muskrat season.

In connection with the holiday period, I have to say that the Department will approve of the school being conducted during July and August and the annual holiday period taken at a time considered by the local Indian Agent to be the most advantageous.

It is hoped to be able to erect a school and teacher's living quarters during the summer of 1931, if the funds required for the purpose are provided by Parliament at the coming Session.

Venerable Sir:

I have your letter of the 2nd instant, with reference to the salary that will be allowed at the Sandy Narrows Indian Day School. The Department grant for this purpose would depend on the type of worker that you nominate. If he is for teaching services only, we would naturally have to pay a higher stipend than if he were combined missionary and teacher. Further, the Department grant depends partly on the qualifications and experience of a teacher. Our scale at the other Indian day schools in your Diocese will be a guide to you. We might allow an extra five or ten dollars a month because of the situation of this particular school.

I may say that it is not at all sure that Parliament will provide funds for new buildings this year, and it may be necessary to postpone the establishment of this work for the time being.

Dear Sir,

I have been in correspondence with the Hudson Bay Company, in regard to the buildings at Pelican Narrows in Saskatchewan used until recently by the Revillon Freres Company. These buildings are offered for sale at a small figure or for rent at the nominal rental of $1.00 per year provided that the tenant keeps them in repair.

This matter was discussed at the recent meeting of the Executive Committee of this Diocese, and I have already written to Mr. Indian Agent Lovell of The Pas asking if he thought it would be possible to start a school at this point, and to make use of these buildings. He has replied that he is willing to recommend this proposal and advised me to write you on the subject.

You will remember thath some years ago a seasonal s chobl was operated at this point, but the work was handicapped through having no suitable building . The Church was used temporarily as a school. Just before the depression began, the Department had decided to erect a building; but owing to lack of funds after the commencement of the depression, the project was abandonned.

Now the opportunity has arisen of obtaining buildings almost with out cost. The store building could easily be adapted as a classroom and the residence is all ready for obcupation by a teacher. Therefore if the Department can see its way to operate a school once more at this point, we shall be very pleased to find a teacher.

According to the report of the Department by the last Census, there are 154 children in this Band between the ages of seven and sixteen, about half of whom are Roman Catholics. It would seem important that so large a number of children should have educational facilities on their own Reserve.

Yours faithfully,

Dear Sir:

Enclosed is a copy of letter just received from Venerable Archdeacon W.E.J. Paul. He is being informed that, as no provision has been made in our Appropriation for a school at this point, it is not possible to favourably consider his suggestion at the present time.

A summer school was conducted on this Reserve under the auspices of the Church of England from 1926 to 1929.

On the occasion of your next visit to Pelican Narrows, you should make a survey of the number of children of school age. You should ascertain the number of children of school age who are members of the Church of England and the number who are Roman Catholic. Do they reside sufficiently close to some central point to permit successful operation of one or two day schools? Do you consider that the operation of a seasonal school, for a period of three or four months each year, would be sufficient? Would a year-round school be feasible? Any other information that you can obtain should also be forwarded, in order that we will be in a position to decide what is the best educational policy to adopt at this point.

Ottawa, March 15, 1937.

Dear Sir,-

Enclosed is a copy of letter just received from Venerable Archdeacon W. E. J. Paul. He is being informed that, as no provision has been made in our Appropriation for a school at this point, it is not possible to favourably consider his suggestion at the present time.

A summer school was conducted on this reserve under the auspices of the Church of England from 1926 to 1929.

On the occasion of your next visit to Pelican Narrows, you should make a survey of the number of children of school age. You should ascertain the number of children of school age who are members of the Church of England and the number who are Roman Catholic. Do they reside sufficiently close to some central point to permit successful operation of one or two day schools? Do you consider that the operation of a seasonal school, for a period of three or four months each year, would be sufficient? Would a year-round school be feasible? Any other information that you can obtain should also be forwarded, in order that we will be in a position to decide what is the best educational policy to adopt at this point.

Yours truly,

T. R. L. MacInnes.
Secretary.

R

Dear Sir,

In reply to your letter 132-5-1, dated March 15th, 1937. I beg to advise that I investigated the matter regarding establishing a day School at Pelican Narrows under the auspices of the Church of England.

There are about 24 children of school age residing near Pelican Narrows, who belong to the Anglican Church. They all reside close together and could attend a school if one were established close to the settlement.

I do not think a year-round school would be feasible as most of these Indians are away on their trap lines from some time in October till May and take their children with them. A seasonal school could be established from the beginning of June until the end of September and would be beneficial.

The building the Rev. Archdeacon W.E.J. Paul spoke about is suitable but it would need some repairs, which would cost approximately $100.00. There is no equipment there at all and this would have to be supplied.

With regard to the Roman Catholic children. There are no children there of school age as they are all sent to the Guy Indian Residential School. I would be pleased if the Department would let me know as soon as possible if it is their intention to establish a school at Pelican Narrows. I could then ask for the necessary expenditure to establish the school in the estimates.

The Secretary,

My dear Mr. Hoey:

Re: Pelican Narrows

At our Indian Executive Meeting yesterday a report was presented by Archdeacon Paul and Canon Ahenakew on their recent visit to Pelican Narrows as follows:

"Need for Day School.

This matter was brought up at the meeting for men on August 26. Thirteen fathers of families were present and all voted in favour of a school. They represented 23 children, but there were other parents not present so that more children than the above 23 would be likely to attend. The people at Pelican Narrows would do the same as the people at Stanley to help to carry on a Day School on their Reserve, i.e., they would lend two houses for the accommodation of boys and girls during the winter. Two women would be willing to keep house for the children, and the men would help to provide food by giving meat and fish, and they would also put up wood for the use of the school. Only three pupils from Pelican Narrows attend Lac la Ronge Residential School. Two more children have been attending Lac la Ronge School but their fathers did not take them back this year.

Accordingly, only a very small proportion of the Anglican children at Pelican Narrows are receiving any education at all, and it is therefore very necessary that a Day School should be started for them."

You will see from this report that these children

Dear Sir:

I am in receipt of your letter of the 24th instant in which you refer to a recent letter you received from Rt. Rev. W. Burd in connection with establishing a day school at Pelican Narrows. I enclose a copy of a letter which we have just received from Bishop Burd. Possibly it is the same as the one you have.

I presume that a seasonal school only is desired at this point. Please let me know whether you recommend the school be operated in the winter or the summer. I might add that we do not wish to establish any school which would encourage the Indians to stay at home and not persue their useful avocations.

Do you consider that the Indians would be prepared to get out logs for a school and, if so, you should estimate the additional amount that would be necessary to provide a suitable building. An early reply to this letter would be appreciated.

Dear Sir,

In reply to your letter 132-5-1, dated the 31st ultimo, in connection with previous correspondence from my self and the Rt. Rev. W. Burd, in connection with establishing a school at Pelican Narrows.

The letter I received from the Rt. Rev. W. Burd was something similar to the one directed to the Department.

It is not quite clear to me just what Bishop Burd has in mind. I take it that he wants a school established at Pelican Narrows to be open the whole year around, also he wants accommodation provided for the children so that they can be boarded while the parents are away on the trapping grounds. He states the Indians would lend two houses for the accommodation of the boys and girls and two women would keep house, also that the men would help provide food by supplying meat and fish and also put up wood. I presume that he is looking to the Department to provide the other food that would be necessary and also pay the other expenses of up-keep. In fact what he is asking for is a kind of Boarding School.

I do not think his idea would be practicable. The Indians no doubt have promised to supply fish, meat and wood, but getting them to keep that promise so that the children would be well supplied with th e articles mentioned would indeed be a difficult matter. It would ultimately mean that the Department would have to provide for the entire upkeep of the school and children, including food, clothing, upkeep of building and payment of staff. Then again I would not think it would be wise to leave school children in charge of Indian women who were not their parents.

This matter of opening a school at Pelican Narrows has been taken up before. I would refer you to my letter dated Aug. 19th, 1937, which was in answer to your letter 132-5-1, dated March 15th, 1937. I am inclined to stick to the recommendations made in that letter.

The building I referred to in my letter of Aug. 19th, 1937, can, I believe, still be got. Of course we can build a new log school and the Indians could get out the logs. It would be best to figure on paying for the work, otherwise it would be difficult to get it done. The necessary lumber and other building materials would have to be taken in from Flinflon and it could only be done during the winter months. The freight rate from Flinflon to Pelican Narrows is $3.00 per cwt.

If you intend taking any action with regard to providing a school at Pelican Narrows, it should be taken right away, as it is impossible to get material into Pelican Narrows after December or early in January, as the transporation companies make their trips about that time. I do not think they would make a special trip and if they did it would be at a much greater price than that I have quoted. I believe a suitable building would cost the Department $1500.00

Right Reverend Sir:

I desire to refer to your letter of October 21 and my reply of October 31 with reference to the proposed establishment of a school at Pelican Narrows.

I am in receipt of a very complete report from Indian Agent Lovell. He is of the opinion that a seasonal school only should be established at this point. He points out that while the Indians may promise to provide food and wood at the same time if they neglected to do so the cost would have to be borne by the Department. He also doubts the advisability of leaving children of school age in charge of Indian women who are not their parents. I understand from Mr. Lovell that there is a building at Pelican Narrows that might be used for school purposes provided approximately $100.00 were spent on repairs. I am authorizing him to make repairs to this extent and advising him that we are prepared to conduct a seasonal school at Pelican Narrows during the summer of 1939. It is understood that this school will open by June 1. You might nominate a teacher to take charge of this school.

Dear Sir: Re proposed Day School at Pelican Narrows, Saskatchewan

I know that a short time ago you were in correspondence with the Bishop of Saskatchewan with regard to above school. Owing to continued ill-health, the Bishop has had to resign, and I am, therefore, writing instead of him.

Do you wish us to nominate a teacher for this school, and has it been decided by the Department to operate the school for the summer months only? I believe that was the plan which Mr. Lovell, Indian Agent at The Pas, favored. It was found at Stanley that a ten months' school was more effective than a seasonal school, but perhaps you would like the school at Pelican Narrows to be operated for the summer to begin with, and a decision could be made later with regard to keeping it open for the winter.

If it is to be operated as a summer school, I beg to nominate Mr. Walter Buxton, who is a student at Immanuel College, Saskatoon, and at the Saskatchewan University. He has not taken Normal, but he was working under the Department at Elkhorn Residential School for a time, and occasionally substituted in the school room there. He is keen to take up Indian work, and had experience with Indians at Elkhorn.

R.A.H. - 2.

The Bishop of Saskatchewan interviewed him last Fall, and was pleased with him in every way and arranged for his entry into Emmanuel College. I saw him, myself, last week, and I believe that he would make a suitable teacher for the above school. If this meets with your approval, and you wish for further information with regard to Mr. Buxton, would you kindly send to him direct at Emmanuel College, Saskatoon, the usual form for him to fill out, as I shall be out of reach of mail for the next two weeks.

It is rather an expensive journey to Pelican Narrows, and you have usually either allowed travelling expenses or given some extra salary out of which the teacher could pay his own travelling expenses. Will you kindly let me know what arrangements the Department would make about this?

EXTRACT FROM LETTER FROM RIGHT REVEREND HENRY D. MARTIN, D.D., Bishop of Saskatchewan, Synod House, Prince Albert, Sask., dated April 13, 1946.

Original on 115-7-1

I also wish to nominate Mr. Absalom Halkett as teacher for the seasonal school at Pelican Narrows this summer. Mr. Halkett is graduating this spring from Emmanuel College, Saskatoon. For the past five summers he has been working among Indian children and doing a certain amount of teaching work. I feel most happy that I have been able to secure his services for this summer as the Indian children at this point have been without the services of a teacher for the past two years.

ANGLICAN SEASONAL SCHOOLS

1. STANLEY

2. PELICAN NARROWS

These are not likely to be in operation before the first of June and I had no opportunity to visit the settlements. I was informed that the Indians were at this season on the move.

I think that a visit should be made to these places as soon as the schools open, for the mention of these schools evokes a laugh from several who claim to have seen them in operation.

I promised Bishop Martin that supplies for this season would go forward early enough to make it unnecessary for the teachers in charge to make purchases with their own money, and Miss Davis is already giving attention to the matter of supplies.

At Stanley on the first of July there is to be a celebration of the One Hundredth Anniversary of the founding of the Mission. The Right Reverend D. T. Owen was to have been present and departmental officials were to be invited. Mr. Ostrander does not intend to accede to Bishop Martin's request for a special issue of rations or money to provide a feast, as similar action was not taken with regard to the celebration at Ile a la Crosse last year.

R.A. Hoey Esq.,
Director of Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

My Dear Mr. Hoey:

I believe the time has arrived for me to write to you and remind you of the half-yearly amount due from the Department 'in lieu of rent' for St. Alban's College building, Prince Albert. You will be pleased to know that as far as I am able to ascertain everything is flourishing at this school. I was there two Sundays ago, and the children seemed very happy and contented, and well fed and clothed.

While writing I wonder if this is the time to ask if the Department has any plans regarding buildings at Pelican Narrows. Our school teacher last summer worked under many and great difficulties, both with regards to the school building and also the teacher's residence. I am quite sure that your representative, Mr. Bowman of The Pas, will be able to tell you just what conditions are at this point. I know personally that many visitors, who were there this summer have been very outspoken about the lack of accommodation. I do not wish to bother you about conditions in Northern Saskatchewan, but in view of the report sent to me by our teacher, I thought I should inquire from you as to whether any building programme was contemplated.

I was sorry not to be able to be present when the deputation from our Church met with the Minister and yourself and others some two weeks ago, but it was impossible for me to get away at that time. With kindest personal regards, I am,

Faithfully yours,

Henry Saskatchewan

Dear Sir:

The following is an exert from a letter received by us from A. Halkett, Teacher, Shoal Lake Indian Day School.

'It might help you to know just what cheques went through my hands.

Stub	No. A9 - J 007817	Net earnings	$120.00
Stub	No. A9 - M 021023	Net earnings	$120.00

Salaries for School Teachers went up last year. You will also note there was no cost of living bonus included even in my second cheque. When I applied for the school work I signed up as having one dependent, namely my widowed Mother. This is also left out in the two cheques which I received from my work for the summer.'

The Pelican Narrows Seasonal Day School opened 10th June, 1947 and closed 29th August, 1947. The above is for your information. May we be advised on this matter.

Yours Obedient Servant,

We have your letter of the 23rd ultimo, file 108, with reference to the salary paid Mr. Halkett, teacher of the Pelican Narrows Seasonal school.

It was originally understood that Mr. Halkett would begin duties on June 1st and keep the school open until September 30th. Please let me know if this school was in operation for the four months mentioned and if not, you should advise the number of months it was opened during the summer of 1947.

With regard to his reference to cost of living bonus, I may say that the bonus previously paid was amalgamated with the salary effective September 1st, 1946. As Mr. Halkett is an Indian, no income tax was deducted from the amount paid to him.

Dear Sir:

Please refer to your letter of 3rd inst., file 132-5-1 (E. 1) regarding salary of teacher, Mr. A. Halkett, at the Pelican Narrows Summer School.

As stated in my letter of the 23rd January, file 108, this school opened on the ~~1st~~ June 1947 and closed 29th August, 1947. Due to the late spring and ice blockage it could not open on the 1st of June. Also due to the cold weather and the delapidated Anglican Church Building where school was being held, the teacher was forced to close the school the end of August.

From the above information, it is evident that Mr. Halkett should receive a salary cheque for his teaching duties during June. He received two cheques, believed to be for the months July and August. Please address this cheque and any correspondence to Mr. Halkett, c/o Indian Agent, The Pas, Manitoba, as he is no longer at Pelican Narrows. I will advise him, regarding his Income Tax and cost of living bonus, as per your letter.

Re: Pelican Narrows Indian Seasonal School #619

In memorandum dated May 7th, you were advised that this school would be in operation for the months of June, July and August.

We have just been informed that the teacher, Mr. A. Halkett, received cheques for July and August but did not receive a cheque for June, 1947.

I would appreciate it if you would forward him another cheque for $125.00 covering his services for the month just mentioned. As Mr. Halkett is an Indian employed on his own reserve, he is not subject to income tax.

Pelican Narrows Indian Day School

Dear Bishop Martin:

Now that the first signs of spring are visible here in Ottawa, our thoughts are turning to the re-opening of our seasonal schools. One of these is the Pelican Narrows School, where Mr. Halkett taught last year. You will recall that last November you enquired concerning improvements at this seasonal school, and I wish to advise you that the following action has been taken:

(a) Thirty students' desks, one teacher's desk and one teacher's chair have all been ordered and are now on their way in to Chief Simon Linklater at Pelican Narrows by tractor train. These desks cost $560.06 F.O.B. Flin Flon, Manitoba.

(b) In addition, we have authorized Inspector Hamilton to purchase 20 sacks of lime, 7 double sash windows, 6 rolls of heavy kraft building paper and nails, to be sent in to Chief Linklater.

(c) We have authorized Mr. Agent Bowman to expend $80.00 for the necessary labour in making these repairs.

(d) We are ordering a stock of standard school supplies for forwarding to Mr. Bowman, so that these can be sent in when the teacher is ready.

We would appreciate it, therefore, if you would consider the nomination of a teacher for this school. It is hoped that we can obtain a university student who either has had some experience in teaching or who is now studying Education at university. However, I am aware of your keen interest in the education of these northern Indians and

I desire to refer to your letter of January 23rd with reference to the payments made to Mr. A. Halkett as teacher of the Pelican Narrows School during the summer of 1947. It is noted that the teacher states he only received two cheques and in your letter of February 9th, you stated that these cheques received covered the months of July and August.

We find that a cheque was sent for the month of June. It was cashed at the Hudson Bay Co., and passed through the Bank of Montreal, Winnipeg, Manitoba on July 22nd, 1947. It was endorsed "A. Halkett".

It is, therefore, evident that Mr. Halkett received cheques for the three months which he taught in 1947.

Dear Bishop Martin:

I have for answer your letter of April 30th.

Major Clark our Educational Survey Officer is at present inspecting schools in Alberta and Saskatchewan. I have today written him an air mail letter asking that he visit you in Prince Albert with regard to our plans for Lac la Ronge. At the present time we have several proposals before us but no decision has as yet been reached.

With regard to seasonal schools, while we can not pay travelling expenses of students into these places, we can offer seasonal salaries that are high enough to help defray at least part of the travelling expenses. We could offer $150.00 a month for University students at Stanley and Pelican Narrows.

We have been getting students to go in to Northern Ontario from the University of Toronto and the University of Eastern Ontario.

I am leaving tonight for an inspection trip in Eastern Ontario but will expect to hear further from you with regard to these schools shortly after my return on May 15.

Sincerely yours,

Bernard F. Neary,

Re: Pelican Narrows Indian Day School.

Bishop Martin is now on his way to England, and I am writing on his behalf.

I beg to nominate Mr. George Frederick Heathcote of Burlington, Ontario, as teacher of the above seasonal school.

Mr. Heathcote is a student at Wycliffe College, Toronto, and the University of Toronto. The Bishop has received good recommendations concerning him and has been in correspondence with him; and today Mr. Heathcote has sent a telegram accepting the position, subject to your approval. He entered the University with Senior Matriculation, and has taken one year University.

I hope you will approve of this nomination. Mr. Heathcote is prepared to leave Burlington on Friday, May 28th, subject to your confirmation of appointment. Will you kindly notify him in time?

Yours very truly,

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Pelican Narrows Seasonal School for the Quarter ended July 30 1948

Teacher G. T. Heathcote

P.O. Address Pelican Narrows

Dated July 30 1948

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

O. S. Jones
Indian Agent.

Dated at CARLTON AUG 7 1948 Indian Agency this ..... 19 .

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names of other than those of Indian children are to be included in this return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

Memorandum:

CHIEF TREASURY OFFICER

Re: Pelican Narrows Seasonal School, No. 619.

The Department has approved the appointment of Mr. C. F. Heathcote as teacher of the above school for the period 1 June to 6 September, 1948.

Mr. Heathcote should be allowed salary at the rate of $150.00 per month. It would be appreciated if this cheque could be sent by AIRMAIL as Mr. Heathcote requires funds to return to civilization from this school.

Dear Mrs. Johnston:

You will recall that in my letter of October 19, I advised you that I would write to you further with regard to the resolution sent me in your letter of October 5.

With regard to Deschambault Lake, unfortunately this is not an Indian reserve. The present Indian Act states quite clearly (Section 9 -a-) that Day Schools can be established on Indian reserves only. I understand that 13 children from this area are now enrolled at the Lac la Ronge Residential School in Prince Albert.

At Pelican Narrows we of course have been operating a seasonal school. Our records show that in 1947 the attendance was as follows:

Quarterly Report	Enrolment	Average Attendance
June 1947	26	7
September 1947	27	10

We have not the complete figures for the 1948 summer's attendance as yet. However, I think you will agree with me that the 1947 average attendance was certainly very low, considering the

number of children who were enrolled at this school. At several other points across Canada we have converted seasonal schools into full-time day schools when the Indian pupils attended regularly. At Pelican Narrows the school attendance, particularly in 1947, seems to have been unsatisfactory.

Stanley Indian Day School.

Pelican Narrows Indian Day School.

Dear Bishop Martin:

I regret the delay in answering your letter of April 4 but I have been in correspondence with our field officials concerning these two schools. If Mr. Heathcote is not prepared to go to Pelican Narrows this year, it is suggested that Mr. Umphreville be sent there. The attendance at Stanley last year was as follows:

June: School open 17 days - average 17.8
July: School open 8 days - average 6.8

Therefore there is some doubt as to the benefit of this school to the children of that area. It is felt that every effort should be made to have these children sent to the Lac la Ronge Residential School, now situated at Prince Albert.

However, I will await a reply from you as to whether Mr. Heathcote is available for Pelican Narrows or as to whether you have been able to obtain another teacher for that school.

We will carefully watch the attendance of the Indians at these seasonal schools this year. It is unfortunate

that we have not sufficient school supervisory personnel to visit these seasonal schools and to examine carefully the results obtained therein. We are doing such a survey in Northern Quebec and Ontario this year, in order to examine carefully the results which are obtained from the operation of these schools.

It is quite possible that you will have had an opportunity of visiting these seasonal schools in action and will be able to assist us in assessing their value.

Stanley Indian Day School,

Pelican Narrows Indian Day School.

A letter has been sent to Bishop Martin concerning the operation of both these schools. I have indicated, if Mr. Boutbeets is not available for Pelican Narrows this year, that Mr. Umphervills be sent there. I agree with the comments made by both Mr. Jones and yourself concerning the dubious value of some of these seasonal schools. Unfortunately, we do not have the supervisory personnel to properly inspect them during the summer time operations. To my knowledge, the Department will this summer carry out the first thorough survey of a group of these schools. This will take place in Northern Ontario and Quebec and we are all anxious to read the results of this educational survey. There will be three School Inspectors on this trip, two from the Department and one from the Province of Quebec.

Unfortunately, the departmental letter of March 21 to Archdeacon Paul indicated that we were prepared to open the Stanley School this summer. It is therefore difficult to reverse our policy within a period of two months. However, I have made it very clear to Bishop Martin that if these schools are operated this summer, we will examine carefully the attendance figures and other reports received in order to assess the results obtained from the expenditure of public funds in their operation.

As it is very likely that Mr. Jones will be visiting both these schools, if conducted this summer, I have attached an extra copy of this letter for him. I would like to have a report from him if he does visit them this year.

I wrote to Bishop Martin concerning the closing of both these schools, as I indicated to you in my letter of May 4. I have now received a reply from him reading as follows:

"Thank you for your letter of May 4th, regarding Stanley Indian Day School and Pelican Narrows Indian Day School.

"I was greatly disturbed to read your suggestion of not opening the school at Stanley this year and I do hope that this suggestion will not be carried into effect. Stanley is one of the oldest Christianized areas in Northern Saskatchewan and the people there have been very loyal both to their country and to their church; and they are among the cleanest and happiest Indians I know. I fully agree that last year's records are most discouraging, but there is, I suggest, a definite reason for this poor showing. Before I left for England last May a Mr. H. Smith was appointed teacher at Stanley. Unfortunately, Mr. Smith suffered a nervous relapse and left Stanley rather hurriedly. Mr. Smith is a veteran of the last war and, I understand, he went through very nerve racking experiences. But I am fully persuaded that with a good teacher there this summer these children will receive some elements of education whereas now many of them are

receiving none at all. We have had a day school here for many years even when the Residential School was situated at Lac la Ronge, and as a matter of fact some ten years ago the school was not a seasonal school but was open all the year round. The church has gone to considerable trouble and expense to keep this school open even to the extent of begging the loan of buildings to house the teacher, and I do hope that this school may be kept open.

"Regarding Pelican Narrows, again our need here is very urgent and I have often wondered why your local officials have not taken steps to meet the situation here. I am still in communication with Mr. Heathcote and I wrote to him a few days ago. He is willing to go to Pelican Narrows if we can arrange some assistance towards his travelling expenses. I hope we may be able to secure the services of this young man because he is definitely interested in the Indians. It seems very difficult to secure help from our Western young men simply because they say they can earn much more money working in other fields.

"I have visited the North frequently and I have seen both these schools in action and I would say most definitely and emphatically that they are both fulfilling a very important function in the life of these parts of the Canadian Government. I am planning to visit both Stanley and Pelican Narrows at the end of next month and I do hope I shall not be compelled to face the disappointment of these loyal Indians in not having teachers for their children. I do hope I may have another opportunity of discussing this matter with Major MacKay and you because I believe I have facts regarding this situation which would persuade you to see the necessity and importance of doing everything possible to further Day Schools at both Stanley and Pelican Narrows."

"This afternoon I received a letter from Mr. Heathcote in which he greatly regrets his inability to come to us this summer for the school at Pelican Narrows. His two reasons are:
1. Financial. 2. The fact that he is to write a very important examination about the middle of June. His inability to come this year is somewhat relieved by the fact that he has already applied to me to take over this school in 1950. His heart is with these Northern Indians but circumstances for this year prevent him being with them.

P.S. I will continue to seek for a teacher for Pelican Narrow."

Dear Bishop Martin:

I have for answer your letter of May 23, and I am pleased to know that Mr. Umpherville will be on his way north by now. I was very sorry to hear about Mr. Heathcote but note that he will be able to take over the school in 1950.

I also have Mr. Cuthand's application for the school at Chitek. We have checked over the previous inspector's reports, and I do think he should be a very satisfactory teacher at this new school. With his background of teaching experience and army experience, he should be able to do a great deal with the Indians at Chitek.

Quarterly Returns

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within return is a true and faithful statement of the attendance and tuition at the Pelican Narrows (Anglican) School for the Quarter ended 17th June – 14th Sept. 1929.

Teacher [signature]

P. O. Address Red Earth, Sask. Via The Pas, Man

Dated 30th Sept. 1929.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

[signature]
Indian Agent

Dated at The Pas Agency,

this 30th Sept. 1929

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return must be *added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names other than those of Indian children are to be included in this return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

Form No. 144

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of Sundays and other days of obligation, not exceeding [illegible] days in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interests of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be for the period taught between those dates only, unless, as heretofore stated, special provision is granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day school should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HARRY CARTER that the within return is a true and faithful statement of the attendance and tuition at the Pelican Narrows (Anglican) School for the Quarter ended 17th June – 14th Sept 1929

Teacher A Richardson

P. O. Address Red Earth, Sask Via The Pas.

Dated 30th Sept 1929.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

H Trueman
Indian Agent

Dated at The Pas Agency

this 30th Sept 1929

Agents should see that full explanations are given by the teacher in the column for "Remarks," If the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

[redacted]

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names other than those of Indian children are to be included in this return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

Form No. 144

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December [redacted]

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. [redacted] each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one [redacted] month's notice of their intention to resign.

All questions relating to the day school should be [redacted] to the [redacted] Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Pelican Narrows School for the Quarter ended Sept 30th 1940

Teacher W. W. Burton

P.O. Address Emmanuel College Saskatoon Sask.

Dated Oct 4th 1940

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

Sinnett Lovell
Indian Agent.

Dated at [illegible]

this Oct 5 1940

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return *must be added* and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

REMARKS AS TO PROGRESS, ETC. HOLIDAYS DURING QUARTER AND REASONS THEREFOR

Twelve children are enrolled for this month. Many of the people with their families are still scattered at various places where they have been working. There quite a number of children of school age who do not reside here at Pelican Narrows but are of the same band.

The children I have now are willing and keen to learn. The attendance is fair as there has been a few cases of colds.

I have divided the children into grade 1, primers (P) and beginners (B).

I did not start school on June 1st, due to diffenlty in transportation in here.

1	Ballentyne, Mary Ann	8		G	Pelican Narrows	PP	B B	14½ 16½	There are twenty-five children registered this summer. The attendance was better than the previous summer even though whooping cough cut down the attendence of some of the pupils. The children are very willing to learn and there seems to be more interest in the school this summer than before. There are still a number of children of school age who have not yet attended school. There were no holidays taken this summer.

Opened school June 9th. Spring break-up very late this year and Lake remained ice bound for a long time which naturally made travelling very difficult on the mid lakes. That was the only reason why school opening day was so late. School for this month has been well attended and I have kept to the same grading as last year.

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation of this regulation should be made without the Department's approval.

2. Salaries of teachers will be paid on a basis of ten teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.

3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.

4. All teachers will be required to give at least one month's notice of their [redacted] return.

5. All [redacted]ons relating to [redacted] day [redacted] should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Pelican Narrows School for the Quarter ended July 1946

Teacher A. Halkett.

P.O. Address Pelican Narrows

Dated August 2nd 1946

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

Samuel Todd
Indian Agent.

Dated at The Pas, Manitoba

this 8th day of August 1946

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.

2. All the columns of the Return *must be added* and the totals placed at the foot thereof.

3. Number and date of holidays to be inserted in the column for remarks.

4 By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names of other than those of Indian children are to be included in this return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

12. This form to be used for Day Schools only.

4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.

5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.

6. No names of other than those of Indian children are to be included in this return.

7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.

8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.

9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.

10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.

11. The school must be opened and closed punctually at the hours approved of by the Department.

Some children show progress in reading and writing while they seem slow to grasp their arithmetic. Those children who are ahead in arithmetic are slow to grasp and understand what they are reading.
Children's health has been good all summer and this is very important factor in their educational progress. Parents have co-operated in this respect very well. Discipline at home was very lax when I first arrived but now the children have been getting their full quota of sleeping hours nightly.

Ottawa, May 23rd, 1925.

Sir:

His Lordship the Bishop of Saskatchewan has nominated Mr. Frank C. Dey, who holds a first class certificate, as teacher to conduct a school at Pelican Narrows during the coming summer. We are informing His Lordship that we will approve of the appointment of Mr. Dey and the conducting of this school during the summer months only. The Department will allow the teacher remuneration for his services at the rate of $5 for each day he teaches. We are not prepared to incur any other expenses in connection with the conducting of this school. His Lordship is being informed accordingly.

Ottawa, August 25th, 1926.

Sir,-

I beg to acknowledge the receipt of your letter of the 21st instant, enclosing the June quarter return of the Pelican Narrows Indian Day school. Last March, His Lordship the Bishop of Saskatchewan, nominated Mr. I. Badger as teacher of this school and official letter of March 23rd advised that the salary in his case would be at the rate of $4.00 a teaching day. Subsequently, His Lordship wired that Badger had decided not to accept the school and nominated in his stead Mr. Raymond B. Horsefield, a university graduate with first class Normal school training. In view of the qualifications of this teacher the Department acceded to the request of His Lordship that Mr. Horsefield be paid at the rate of $5.00 a teaching day.

Your obedient servant,

Sir:

I beg to acknowledge the receipt of Department letter No. 132-5-3 of the 25th inst. in which you advise that the teacher of Pilican Narrow's day school is allowed a salary of $5.00 per day instead of $4.00 as formerly stated. I am therefore forwarding Regina Voucher No. 4075 for $14.00 which is still due Mr. Horsefield, as in his June quarter return his salary was computed at only $4.00 per day.

Sir:-

I beg to enclose herewith Day School Returns from the Pelican Narrows Day School.

I have checked these returns over and have found that they had not been properly filled out; columns had not been added up, nor the footings put in, but this I have done to enable the Teacher to get his salary at as early a date as possible. He has left Pelican Narrows and is now stationed at Grand Rapids, Man. His salary cheque will therefore be mailed to him at that point.

Venerable Sir:

I have to acknowledge receipt of your letter of the 23rd ultimo, nominating the services of Mr. Douglas C. Wickenden, a student at Emmanuel College, Saskatoon, as teacher of the Pelican Narrows Indian Summer School.

In reply I beg to say that the Department will approve of the appointment of Mr. Wickenden, and will allow him salary for his services at the rate of $5 per teaching day. Mr. Wickenden is to provide his own travelling expenses. He may teach on Saturdays. If possible, he should begin duties on or about June 1st, next, teaching to the end of September, providing the Indians remain at that point during that period.

We are informing Mr. Commissioner Graham of the approval granted for the appointment of Mr. Wickenden during the summer months.

You are being advised in a separate communication regarding the appointment of a teacher for Cedar Lake (Chemawawin) Indian Summer School.

REPRESENTATIVE OF THE TREASURY

Re Pelican Narrows Seasonal School, No. 619.

The Department has approved the appointment of Mr. A. Halbert as teacher of this school at a salary of $75.00 a teaching month, plus bonus.

The school will be in operation from June 1 to September 30, 1944.

A attach copy of letter of appointment and staff questionnaire will reach you shortly.

As Mr. Halbert is an Indian, employed on his own reserve, he is not subject to income tax.

For Deputy Minister.

MEMORANDUM:

INDIAN AGENCY OFFICE

Re: Pelican Narrows Seasonal School, No. 619.

The Department has approved the appointment of Mr. A. Halkett as teacher of this school at a salary of $120.00 a teaching month. The school will be in operation from June 1 to September 30, 1947.

As Mr. Halkett was employed at this school last year, a staff questionnaire form will not be necessary. As Mr. Halkett is an Indian employed on his own reserve, he is not subject to income tax.

For Deputy Minister.

SENT TO MR. CHESARETER FOR COMMENT - See LETTER -

FILE 496-3-4 of November 29.

[redacted]

You will recall that in my letter of October 19, I advised you that I would write to you further with regard to the resolution sent me in your letter of October 5.

With regard to Deshambault Lake, unfortunately this is not an Indian reserve. The present Indian Act states quite clearly (Section 9 (a) that Day Schools can be established on Indian reserves only. I understand that 13 children from this area are now enrolled at the Lac la Ronge Residential School in [redacted].

At Pelican Narrows we of course have been operating a seasonal school. Our records show that in 1947 the attendance was [redacted]:

Quarterly Report	Enrolment	Average Attendance.
June 1947	26	7
September 1947	27	10

We have not the complete figures for the 1948 summer's attendance as yet. However, I think you will agree with me that the 1947 average attendance was certainly very low, considering the number of children who were enrolled at this school. At several other points across Canada we have converted seasonal schools into full-time day schools when the Indian pupils attended regularly. At Pelican Narrows the school attendance, particularly in 1947, seems to have been unsatisfactory.

Yours sincerely,

Bernard T. Seary,
Superintendent of Education.

Mr. Samuel Lovell, Indian Agent,
The Pas, Manitoba.

We received a requisition dated September 2nd, 1946, for supplies for the coming academic year at the Pelican Narrows Seasonal School.

In the case of seasonal schools we are endeavouring to ship the supplies as soon as possible so that they will be available when the schools reopen.

Please let me know to what address we could ship the supplies to Pelican Narrows on the understanding that these supplies would go forward in a month or six weeks.

Pelican Narrows School Supplies

On July 12 the teacher A. Halkett wrote to Bishop Martin to say that supplies had not arrived. The Bishop's letters to The Pas received no answer as the Agent was in hospital and the clerk absent on treaty money trips. The Bishop didn't know the circumstances

Pencils and scribblers had to be bought at the local H.B. post. (The post at Norway House sold 589 scribblers locally last year!)

In April of this year I relayed by telegram the Bishop's request that these seasonal schools be supplied on time. It might be better to send the parcel to Mr. Lovell as planes operate frequently from The Pas or Flin Flon.

Ottawa, December 13th, 1947.

Dear Sir:

On the 3rd instant, we placed an order with the Government Stationery Office for text books and school supplies for the Pelican Narrows Seasonal School. These supplies will be addressed to you at The Pas, Man.

Last year, the teacher at the Pelican Narrows Seasonal School complained that he was handicapped in his work owing to the late delivery of school supplies. We are endeavouring to avoid a similar occurrence next spring by ordering the supplies well in advance, and would, therefore, ask you to hold the shipment until it is required for the opening of the school, which is usually on or about June 1st.

Yours truly,

Bernard F. Neary,
Supt. of Welfare and Training.

Dear Sir:

Re: Supplies for Seasonal Schools.

We are now forwarding to the Department of Public Printing and Stationery requisitions for standard supplies for the Pelican Narrows Seasonal School. These supplies will be forwarded in care of your office, and it would be appreciated if you would advise those concerned when they arrive. We are anxious to have these supplies on their way now, so that there will be no unnecessary delay in the opening of this school.

If this parcel does not arrive, would you please advise us so that we can check with the above Department.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

OTTAWA, Dec. 20th, 1922.

Reverend Sir,

Referring to official letter of July 10th last, with reference to the New School at Round Plain, I beg to say that the Indian Agent has forwarded a return for the period this School was open between August 21st and September 30th last.

This return showed that the School was conducted for 30 days between the above dates. As the Department's regulations require that Indian Day Schools be in operation for 200 days in the School year, in order to draw the full salary, we are allowing for the period this School was in operation up to September 30th, 30/200 of $600.00 or $90.00.

A cheque for the above amount is being drawn in favour of the Treasurer of the Presbyterian Church in Canada, and sent to you.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Reverend Sir,-

Under cover of a letter dated the 27th ultimo, Mr. Indian Agent Weir, Leask, Sask., states that he has been advised from your office that you have not received cheque covering the December quarter salary of Rev. C.J. Mack, teacher of the Round Plain School, (Wahpaton Sioux Reserve). Cheque #7025, for $180., in payment of Rev. Mr. Mack's salary for the quarter ended December 31st, 1930, was forwarded to your office on January 14th, last. This cheque has been returned to the Finance Department and shows that it was cashed at the Canadian Bank of Commerce, Toronto, on January 19th, last, and bears the stamp of the United Church of Canada.

I trust the above information will permit you to trace the cheque in your books and arrange for payment of the amount due Mr. Mack.

Your obedient servant,

Russell T. Ferrier.
Supt. of Indian Education.

Ottawa, April 28, 1938.

Dear Sir:

We have just received the March quarter return of the Round Plain Combined School.

The Department has no record of having received the return for the quarter ended December 31, 1937. Was the school in operation during that quarter? If so, the usual return should be sent at once. Please let me hear from you in this matter, as we are not paying the March quarter salary until we ascertain whether or not it will be necessary to also pay salary for the December quarter.

Yours truly,

Philip Phelan,
Chief, Training Division.

My dear Mr. Hoey: RE: ROUND PLAIN SCHOOL

We have received neither the December quarter nor the March quarter grant for the Round Plain School, Prince Albert. In view of the letter received today, I can understand the delay in sending at least part of the March quarter but I am at a loss to know why we did not get the December quarter. Mr. Meek has been asking us about it. Of course we have advanced the money to Mr. Meek but it is a little inconvenient for us to have the Government six months behind with their cheque when you are behind three months in so many others. We understand that all the reports from Mr. Meek were sent in good time to the Agency at Leask and their receipt has been acknowledged.

Believe me,

Very sincerely yours,

Ottawa,
May 17, 1938.

Dear Doctor Cochrane:

With reference to your letter of the 14th instant regarding the Round Plain School I wish to advise you that the following letter was written to Indian Agent Davis on April 26:

"We have just received the March quarter return of the Round Plain Combined School.

"The Department has no record of having received the return for the quarter ended December 31, 1937. Was the school in operation during that quarter? If so, the usual return should be sent at once. Please let me hear from you in this matter, as we are not paying the March quarter salary until we ascertain whether or not it will be necessary to also pay salary for the December quarter."

As soon as the December quarter return for this school is received the amount due for the December and March quarters will be paid.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

I would like to ask if I am to supply this School with Rice, Soap, and clothing same as our other Schools?

I may state I had a visit from Rev Professor Hart, who requested me to give this matter my attention as he, for the Church, were spending Six Hundred Dollars on a building on the Reserve for a the Teacher, and he felt the Department should, anyway furnish a comfortable house wherein to teach School.

The building, as we fixed it, at a very small cost, has served from last April until now, and has kept the School running.

There is only mud on the roof, and the building is dark, and would not do in the winter time.

If you will allow the sum asked for, the work should be done in a month's time, and the School will be held in the Mission House until it is ready.

I would also ask you to furnish

Sir:-

I have the honour to inform you that I lately made a visit to the Sioux of the Round Plain Reserve near Prince Albert, where I met Rev Mr Rochester and Miss Baker late teacher.

Their church are building a very nice residence for the teacher on the Reserve, and have requested me to move the present School building close by.

As reported in my letter No 134 of 29th April, we have been using an old building; which had come within the limits of the Reserve, as a School house with flooring, windows, and doors, given by the Church from their old School house. The logs in this building are good, and will stand moving, but the walls require raising some four feet, and a good roof, shingles put on, and more light must be given.

The Sioux have agreed to pull the building down and to erect it again on site selected by the Church, in return for some provisions I have given them, and I would ask you to grant the sum of

Sir,

I have the honor to enclose an account for lime supplied on my order for the plastering of the new storehouse, and whitewashing the school, on the Wahpaton reserve, in the Carlton Agency.

I ordered this in October last, at the urgent request of the Overseer, Mr. Beverley, in order that the erection of the storehouse, which had been provided for and which he had been directed to attend to, might not be further delayed, as the season was already far advanced. Mr. Wrox was requested to send his account to the Carlton Agency, but he neglected to do this. He is a contractor and builder, and the supplying of lime is not a regular part of his business, being in this instance rather a matter of accommodation.

If there is any money available in the Sioux vote for the present year from which this account can be met I should be glad to have it paid.

Government of the Province of Saskatchewan, Canada.
Department of Education.

J.T. Tomlinson, B.A.,
Inspector of Schools.

Prince Albert, Sask.,
May 4, 1922.

Rev. R.J. McDonald,
City.

Dear Mr. McDonald:-

As suggested by you I am submitting herewith a list of the minimum requirements of school equipment and supplies for the Indian children on the Round Plain Reserve.

1. Seats: Our Department requires that only single-adjustable desks and seats be purchased. I would strongly recommend that the Moultrop or chair desk be purchased. The new Normal School at Saskatoon is equipped throughout with these, carried by the E.N. Moyer Co. They will be found to be most satisfactory in cases where the building is to be used for purposed other then school on occasion. 7 of the small is needed and 7 of the medium size.

2. Blackboard: 120 sq. ft. of Hyloplate blackboard is required. This must be 4 feet wide.

3. Books: Our Department supply free Readers. These will probably be all the texts that the Indian children will require this year.

4. Dictionary, globe, and maps. If the Indian Department will purchase the first two mentioned, the trustees of the adjoining district should supply the maps, which I believe they will do. A suspended globe is the most satisfactory, 12 inches in diameter is the minimum size.

5. I would suggest likewise, that the expense of the teacher's chair and desk and the cupboard be shared by the Indian Department and the local trustees.

6. The Indian children will require 2 washbasins, individual cups and towels, and soap.

7. Intthe modern school the pupils make considerable use of the blackboard so that a supply of white and colored chalk is needed.

8. I should think that about 8 dozen scribblers and 6 dozen lead pencils would be sufficient for this year.

9. Hand work and sest work material will be required. This will be necessarily forwarded as a supplementary list by the teacher, as the amount and nature of this material can be determined only as the teacher sees the need.

Yours faithfully,

signed- J.T. Tomlinson.

OTTAWA, May 11th, 1922.

Sir,

The Department has received through the Rev. J. H. Edmison, General Secretary, Board of Home Missions of the Presbyterian Church, Toronto, a list of the school equipment and supplies for the use of the Indian children who will attend the combined school which it is proposed to establish on the Round Plain Reserve. This list of equipment was prepared by Mr. J. T. Tomlinson, one of the Provincial Inspectors of Schools for the Province of Saskatchewan.

Regarding the desks, the Inspector recommends that the Moultrop or chair desk be purchased, and requests that 14 of these be supplied for the Indian children, I may say that we have never supplied these desks to any of our Indian schools. They are a very expensive type of desk and are hardly required for Indian children. The type of desk we usually supply is the single school desk, and consider that this type would be satisfactory for this school. However, I will be pleased if you will ascertain the type of desk that is to be supplied for the white children, as it will be necessary, in order to have uniformity in the classroom, that we supply the same type of desk. You should also state the number of Indian children who will likely attend, as we are responsible for the supplying of the desks for the Indian children only. You should furnish full shipping directions, also the name of the person and the address to which the desks should be shipped. We will place the order here as soon as full information is received. Kindly reply, giving the information asked for as soon as possible.

The Inspector has suggested that the cost of a teacher's desk, chair and cupboard be shared between the Department and the local trustees. We will be prepared to pay half the cost of these furnishings upon receipt of certified vouchers from you for the amount of the Department's share. You can ascertain the cost of these supplies from the white trustees and advise the Department.

As soon as we hear from you, we will place the order for the desks.

In reply to your request of June 1st, we are very pleased to quote you the following prices on Single Steel Desks, freight prepaid to Prince Albert, Saskatchewan.

We would also especially bring to your attention the fact that these are not ordinary Cast Steel Desks but are what is called the PLATE STEEL DESK which is positively the very strongest School Desk which can be procured from any factory at the present time. They also combine the very latest designs in respect to sanitation.

This Desk is shown in our Catalogue No. 31 on Page 16. Each Standard is made of one piece of open sheet metal which is formed, pressed and drawn into a rectangular shape and then welded. This produces a four wall formation which gives it enormous strength.

The prices are a little higher than the ordinary Cast Desk but are certainly worth every cent of the difference -

OTTAWA, June 12th, 1922.

Sir, -

Replying to your letter of the 26th ultimo, regarding the desks required for the combined Indian and white school on the Round Plain Reserve, I beg to inform you that an order is today being placed with the E. N. Moyer Co. Ltd., 110-120 Princess St., Winnipeg, to ship addressed to Alex Gouldhawk, c/o D. Lacerte, Prince Albert, Sask., the following school desks at the price quoted by them F.O.B. Prince Albert: -

4 - #3	"New Empire" Single Steel Desks,	$9.60 ea.,	$38.40
4 - #4	" " " " ,	9.60 " ,	38.40
4 - #5	" " " " ,	9.35 " ,	37.40
2 - #3	Rears	8.35 " ,	16.70
			$130.90
		Less 10%	13.09
			$117.81

These desks will be shipped in a knocked down condition. Ink wells will be supplied with each desk. When they arrive at Prince Albert they should be taken to the school and assembled and set up in the classroom.

The above firm have been requested to forward their account, in duplicate, to you, and upon arrival of the desks, if in good condition, you will be good enough to certify these accounts and forward to the Department in order that payment can be made.

These desks should, if possible, be arranged in the class room in two rows of 6 desks each; the larger sizes to the rear, and a rear seat should be set up at the end of each row.

It is hoped that these desks will be satisfactory, and will provide ample seating accommodation for all the Indian children who will attend.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

OTTAWA, June 12th, 1922.

Gentlemen, -

Replying to your letter of the 5th instant, quoting prices on "New Empire" Single Steel Desks, I have to request that you will be good enough to ship as soon as possible addressed to Alex Gouldhawk, c/o D. Lacerte, Prince Albert, Sask., the following desks, viz: -

4 - #3 "New Empire" Single Steel Desks,
4 - #4 " " " " ,
4 - #5 " " " " ,
2 - Rears, #3.

These desks should be shipped in a knocked down condition. Ink wells should be supplied with each desk. The desks should be delivered F.O.B. Prince Albert at the price quoted by you, viz: $130.90, less 10%, or a total cost of $117.81. As these desks are required for a school which we propose opening on the Round Plain Reserve, we are anxious to have them delivered as soon as possible.

When shipment has been made you should forward your account, in duplicate, to Mr. John Weir, Indian Agent, Leask, Sask., who is being informed of the above order being placed with your firm, and requested, when the desks arrive if in good condition, to certify these accounts and forward to the Department in order that payment can be made.

I shall be pleased if you will acknowledge receipt of this order and inform me as to the date shipment will go forward.

REQUISITION FOR SCHOOL MATERIAL

Date May 6th 1927

For Day School on Sioux Reserve

Reserve in Carlton Agency

Note—Only text books authorized for use in Provincial Schools should be requested. To avoid delay and correspondence in filling Requisitions, the teacher should give full particulars regarding each article required. The name, series, number of grade and name of author and publisher of all books required should be given as fully as possible.

ARTICLES	No. On hand	No. Required	No. Authorized	REMARKS
The floor of the school is in bad condition. It is worn all over. The cracks between some of boards will let a pencil through. On the east side the boards have rotted and there are several large holes. A new floor is needed. This floor could be laid on the present floor but should have a good thick lining of felt paper between to make the floor warmer, and to prevent any noise due to friction between boards. The Trustee Board of the Wahpeton S.D. has offered to transport the flooring and lay it. The Board will also provide the paper, and plan to use Comfort Felt for the sake of warmth.				
562 ft. 1 x 4 No. 1 B.C. Fir lumber				$43.00 nett.
2 Rolls Comfort Felt. $7.20 per roll				$14.40 nett.

Ottawa, May 25th, 1927.

Sir,-

I have your letter of the 16th instant, enclosing a requisition from the teacher of the Round Plain Combined Indian and White School, requesting that the necessary quantity of fir lumber and felt paper be supplied to re-floor the school building.

In this connection, I beg to inform you that the Department will approve of the expenditure in the purchase of approximately 562 ft. 1 x 4 No. 1 E.G. fir lumber and 2 rolls Comfort Felt. The cost should not exceed your estimate of approximately $43. for the lumber and $14.40 for the felt paper. We note that the Trustee Board will transport the flooring and lay same.

Please forward properly certified vouchers, in duplicate, covering the expenditure incurred in the purchase of the material as mentioned above.

Your obedient servant,

J. D. McLean.
Asst. Deputy and Secretary.
